

05 Teens and the Economy

Content Area: **Social Studies**
Course(s): **Economics**
Time Period: **Semester 1 & 2**
Length: **2 weeks**
Status: **Published**

Standards

PFL.9.1.4.A.1	Explain the difference between a career and a job, and identify various jobs in the community and the related earnings.
PFL.9.1.4.B.1	Differentiate between financial wants and needs.
PFL.9.1.4.B.2	Identify age-appropriate financial goals.
PFL.9.1.4.B.3	Explain what a budget is and why it is important.
PFL.9.1.4.B.4	Identify common household expense categories and sources of income.
PFL.9.1.4.D.2	Explain what it means to “invest.”
PFL.9.1.4.E.1	Determine factors that influence consumer decisions related to money.
SOC.6.1.12.A.16.b	Analyze government efforts to address intellectual property rights, personal privacy, and other ethical issues in science, medicine, and business that arise from the global use of new technologies.
SOC.6.1.12.A.16.c	Assess from various perspectives the effectiveness with which the United States government addresses economic issues that affect individuals, business, and/or other countries.
SOC.6.1.12.C.16.a	Evaluate the economic, political, and social impact of new and emerging technologies on individuals and nations.
SOC.6.1.12.C.16.b	Predict the impact of technology on the global workforce and on entrepreneurship.
SOC.6.1.12.EconNE.9.a	Explain how economic indicators are used to evaluate the health of the economy (i.e., gross domestic product, the consumer price index, the national debt, and the trade deficit).
SOC.6.1.12.EconNE.9.b	Compare and contrast the causes and outcomes of the stock market crash in 1929 with other periods of economic instability.
SOC.6.1.12.EconNE.9.c	Explain how government can adjust taxes, interest rates, and spending and use other policies to restore the country’s economic health.
SOC.6.1.12.EconNE.9.d	Explain the interdependence of various parts of a market economy (i.e., private enterprise, government programs, and the Federal Reserve System). There are multiple and complex causes and effects of historical events. Multiple economic indicators are used to measure the health of an economy. Governments and financial institutions influence monetary and fiscal policies.

Enduring Understandings

1. Companies allocate resources to influence teen spending habits
2. The economics of college costs influences human capital, entrepreneurship, and the return on investment
3. Economics is the study of the allocation of scarce resources in the presence of seemingly unlimited wants.
4. Economics is about making decisions and identifying the true costs and benefits of those decisions.
5. Economics is the distribution of goods and services distributed in society
6. Economic systems develop and change based on three economic questions: what to produce, how to produce, and for whom

to produce.

Essential Questions

1. How do basic economic concepts help explain real-world outcomes?
2. How do we accurately measure the return on investment for a college education?
3. What measures are used by companies to market to teenagers?

Knowledge and Skills

Students will be able to.....

- Analyze the economic impact of teen influencers
- Evaluate data on teen spending habits
- Understand the impact of algorithms and advertising to teens through social media
- Analyze the economics of music (youth culture)
- Evaluate the return on the investment, human capital, and cost/benefit analysis of a college education
- Understand how life choices impact economic opportunity and decision-making

Transfer Goals

1. Students will be able to independently use economic concepts and approaches to affect their personal decision-making and to help them make sense of real-world economics.
2. Students will be able to independently readily interpret real-world macroeconomic data to evaluate teen spending habits.
