Enduring Understandings

Sociology is a science: Sociologist work with Data

Students will understand that culture influences the daily lives of people.

Student can identify the research methods used by sociologists and explain it to others.

Student can identify the research methods used by sociologists, but cannot explain it to others.

With help of peers and/or teacher, student can identify the research methods used by sociologists.

Student can identify some of the research methods used by sociologists.

Student cannot identify the research methods used by sociologists.

- Students will determine, through media literacy skills and lateral, close reading strategies when evaluating primary and secondary resources the following: 1. context of the text; 2. reason for the text; 3. type of source the text is; 4. the point of view of the author of the text 5. the intended audience for the text 6. evaluate the stance of the text
- Students will use Historical Thinking Skills to evaluate sources and ideas. Comparison, Contextualization, Continuity and Change over Time, Periodization, Synthesis, Claims, Point of View, Intended Audience, and Purpose.
- Students will observe, note, and draw conclusions with the understanding that there are multiple perspectives. Multiple perspectives is the foundation to understanding the why and how of history.

Documents, primary sources, historical readings will be evaluated.

Essential Questions

How do we define Sociology and understand the basic components of the Sociological perspectives?

In what ways do social forces affect our everyday lives?

How and why do we label people?

What terms and or labels that other people use to describe do we embrace and why?

Knowledge and Skills

Students will understand that culture influences the daily lives of people.

How does this occur, what parts of culture affect society

In what ways does the changing dynamic of people influence this change

Student can identify the research methods used by sociologists and explain it to others.

Student can identify the research methods used by sociologists, but cannot explain it to others.

With help of peers and/or teacher, student can identify the research methods used by sociologists.

Student can identify some of the research methods used by sociologists.

Student can identify the research methods used by sociologists.

Transfer Goals

Students will be able to independently extract rationale undertsanding as to why societies label people and how they use those label for power and control.

Students will be able to independently identify labels as modeling behavior that allows societies to define positive and negative behaviors
