

Unit 3: Informational Reading and Writing How to

Content Area: **English Language Arts**
Course(s): **Writing 1, Reading 1**
Time Period: **December**
Length: **December**
Status: **Published**

Unit Summary

This unit aims to introduce students to nonfiction texts, to be able to read about and learn about things in our world. You will want to have leveled nonfiction books available to students, mostly in topic baskets. You will find that many students will be interested in topics around animals, plants, properties of water, and weather. Try to make connections to what you are studying in science and social studies so that students can tie new learning to what they already know. It is important to continue to match students to books that are “just right” for them. The teacher, needs to monitor children very carefully to make sure there is a good book match. Non-fiction library will be very important and integral part of this unit. Students will be given the flexibility to sift through and sort through various topics and types of texts.

In this unit, through shared writing and Writer’s Workshop, students will learn how to draw and write a sequence of steps to teach others how to do something, and become more aware of procedural text in their lives (e.g., instructions for games, toys, craft projects, recipes). Students will practice writing and drawing a sequence of events in clear, exact language providing all of the information others need to know “How-To” do something.

Standards
