Unit Summary

In Unit 9, students will learn the concept of a closed syllable. A closed syllable ends in a consonant and only has one vowel. The vowel in a closed syllable is short. It is important for students to recognize a closed syllable because when the vowel is closed in at the end of a word, the vowel sound is short, as in the word "math" or "cat." The recognition of this word structure will be key as students continue with the program. To mark a closed syllable, students will learn to scoop or underline the word, put a c under the scoop to indicate "closed" and a breve over the vowel.
