Chapter 10: Data

Content Area: Mathematics
Course(s): Math 2

Time Period: May
Length: 8 Days
Status: Published

Unit Summary

In this unit, students will collect data and create tally charts, picture graphs, and bar graphs to help them analyze and solve problems.

Standards

MA.2.MD.D.10	Draw a picture graph and a bar graph (with single-unit scale) to represent a data set with
--------------	--

up to four categories. Solve simple put together, take-apart, and compare problems using

information presented in a bar graph.

CRP.K-12.CRP2 Apply appropriate academic and technical skills.

CRP.K-12.CRP2.1 Career-ready individuals readily access and use the knowledge and skills acquired through

experience and education to be more productive. They make connections between

abstract concepts with real-world applications, and they make correct insights about when

it is appropriate to apply the use of an academic skill in a workplace situation.

TECH.8.1.2.A.CS1 Understand and use technology systems.

TECH.8.1.2.A.CS2 Select and use applications effectively and productively.

Student Learning Objectives

Students will learn to...

- Collect data in a survey and record that data in a tally chart.
- Interpret data in picture graphs and use that information to solve problems.
- Make picture graphs to represent data.
- Interpret data in bar graphs and use that information to solve problems.
- Make bar graphs to represent data.
- Solve problems involving data by using the strategy make a graph.

Essential Questions

- How do tally charts, picture graphs, and bar graphs help you solve problems?
- How do you use a tally chart to record data from a survey?
- How do you use a picture graph to show data?
- How do you make a picture graph to show data in a tally chart?
- How is a bar graph used to show data?
- How do you make a bar graph to show data?
- How does making a bar graph help when solving problems about data?

Enduring Understandings Students will understand that...

- data can be collected and organized utilizing tally charts, picture graphs, and bar graphs.
- utilizing tally charts, picture graphs, and bar graphs can help analyze and solve problems.

Application

Students will be able to independently use their learning to...

- collect data and create tally charts, picture graphs, and bar graphs.
- analyze and solve problems.

Skills

Students will be skilled at...

- Collecting data.
- Reading picture graphs.
- Making picture graphs.
- Reading bar graphs.
- Making bar graphs.
- Displaying data.
