Content Area: **English Language Arts**
Course(s): **Language Arts 7**
Time Period: **December**
Length: **7 weeks**
Status: **Published**

Unit Summary

Argument is a process through which writers present several strong, well-researched, logical arguments to change the reader's point of view, to bring about some action on the reader's part, or to ask the reader to accept the writer's explanation of a concept, issue, or problem. In this unit, students conduct research on a topic and participate in a formal debate articulating and defending their position. Then, students craft an essay articulating their position and refuting the counterargument. Throughout additional points in the year, students compose other short and long argumentative pieces and analytical essays in response to both fiction and non-fiction readings and text-sets.
