Unit Summary

In this unit, students are in need of establishing routines and procedures to become readers and writers. Reading workshop is designed to teach students to seek out books according to their interests, to reflect on their reading lives, and to set personal reading goals. The essential reading skills taught will include: reading with stamina, engagement, and fluency. The structure of this unit is designed to support the reader through read-aloud, independent reading, reading records and partnerships.

Launching writing workshop will ask students to write everyday, to bring their notebooks from home to school and to fill those notebooks with many small true stories of their lives. Students will talk often with a writing partner and develop personal narratives through the writing process. Students in fourth grade are ready to work with increased independence and knowledge.
