# First Grade 2020 Unit \#3: Math - Measurement and Data 

Content Area: Mathematics<br>Course(s): Math 1<br>Time Period: Marking Period 3 Length: about 8 weeks<br>Status:<br>Published

## Established Goals/Standards

\(\left.$$
\begin{array}{ll}\text { MA.1.MD.A. } 1 & \begin{array}{l}\text { Order three objects by length; compare the lengths of two objects indirectly by using a } \\
\text { third object. }\end{array} \\
\text { MA.1.MD.A. } 2 & \begin{array}{l}\text { Express the length of an object as a whole number of length units, by laying multiple } \\
\text { copies of a shorter object (the length unit) end to end; understand that the length } \\
\text { measurement of an object is the number of same-size length units that span it with no } \\
\text { gaps or overlaps. }\end{array}
$$ <br>
Organize, represent, and interpret data with up to three categories; ask and answer <br>
questions about the total number of data points, how many in each category, and how <br>

many more or less are in one category than in another.\end{array}\right\}\)| Use addition and subtraction within 20 to solve word problems involving situations of |
| :--- |
| adding to, taking from, putting together, taking apart, and comparing, with unknowns in |
| all positions, e.g., by using objects, drawings, and equations with a symbol for the |
| unknown number to represent the problem. |

## Essential Questions

Please add your Essential Questions by clicking on the Lists tab above.

- What are some ways you can collect, show and understand data?
- What are the value of coins, and what are some different ways to tell time?
- What are ways to measure how long an object is?

## Enduring Understanding

Please add your Enduring Understandings by clicking on the Lists tab above.

- Compare objects and order them by length. Compare the lengths of two objects without putting them next to each other. Use a smaller object to measure the length of a longer object.
- Tally charts and tally marks help organize data into different categories. Collect and organize data using a picture graph. Interpret the collected and organized data.
- Tell time to the hour. Tell and write time to the hour or the half hour.

## Content

The students will be able to:

- Order three objects by length
- Compare the lengths of two objects indirectly by using a third object
- Understand and use length units
- Tell and write time in hours
- Tell and write timein half hours
- Organize, represent, interpret, and compare data with up to three categories

## Resources

savvasRealize.com (Digital Resources online) which includes:

- Online Interactive Math Stories
- Solve and Share Online
- Visual Learning Animation Plus Online
- Convince Me! Online
- Practice Buddy Online
- Animated Glossary Online, Vocabulary Cards
- 3-ACT Math Videos

Student's Edition enVision Mathematics grade 12020
Teacher's Edition enVision Mathematics grade 12020
Teacher's Resource Masters which includes:

- Interactive Math Stories
- Home-School Connection Letter
- Pick a Project
- enVision STEM Activities
- Daily Review
- Reteach to Build Understanding
- Build Math Literacy
- Enrichment
- Fluency Practice/Assessment
- Teaching Tools
math literature
math manipulatives
Manipulative Kits
Additional Pratice workbook for homework
