

# 6 Tech: Technology Operations and Concepts

Content Area: **Technology**  
Course(s): **Technology Education 6**  
Time Period: **Marking Period 1**  
Length: **8 days**  
Status: **Published**

## Established Goals/Standards

---

TEC.5-8.8.1.8.A.5                      Select and use appropriate tools and digital resources to accomplish a variety of tasks and to solve problems.

## Essential Questions

---

- How can software menus be used to manipulate the workspace?
- How do I choose which technological tools to use and when it is appropriate to use them?
- How do I transfer what I know to new technological situations and experiences?
- In a world of constant change, what skills should we learn?

## Enduring Understanding

---

Please add your Enduring Understandings by clicking on the Lists tab above.

- A tool is only as good as the person using it.
- Selection of technology should be based on personal and/or career needs assessment.
- Technology is constantly changing and requires continuous learning of new skills.

## Content

---

- Describe the interconnectivity of the part of a computer
- Explore the operating systems (e.g., desktop icons, start button)
- Explore the workspace of various software and operating systems using control buttons
