

When Do I Have to Wait?

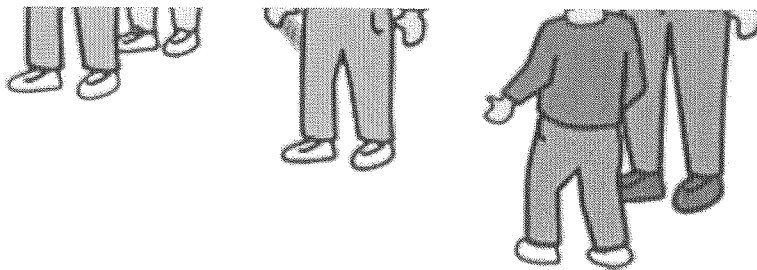

Waiting is important but can
be very hard to do.

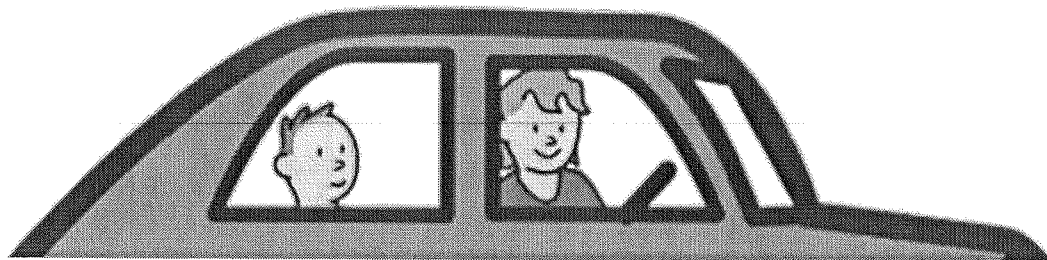

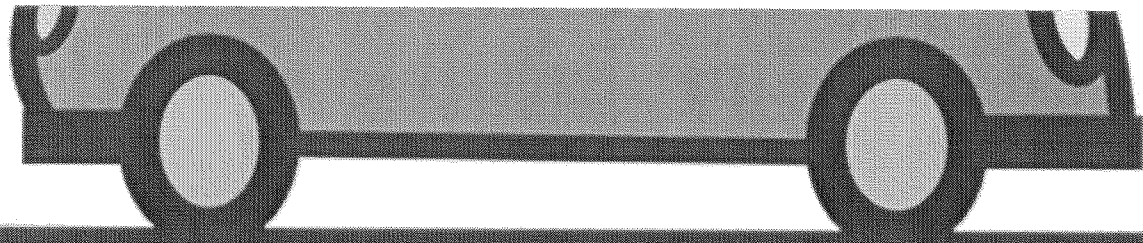

I need to wait for a lot of things.

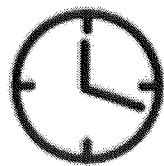

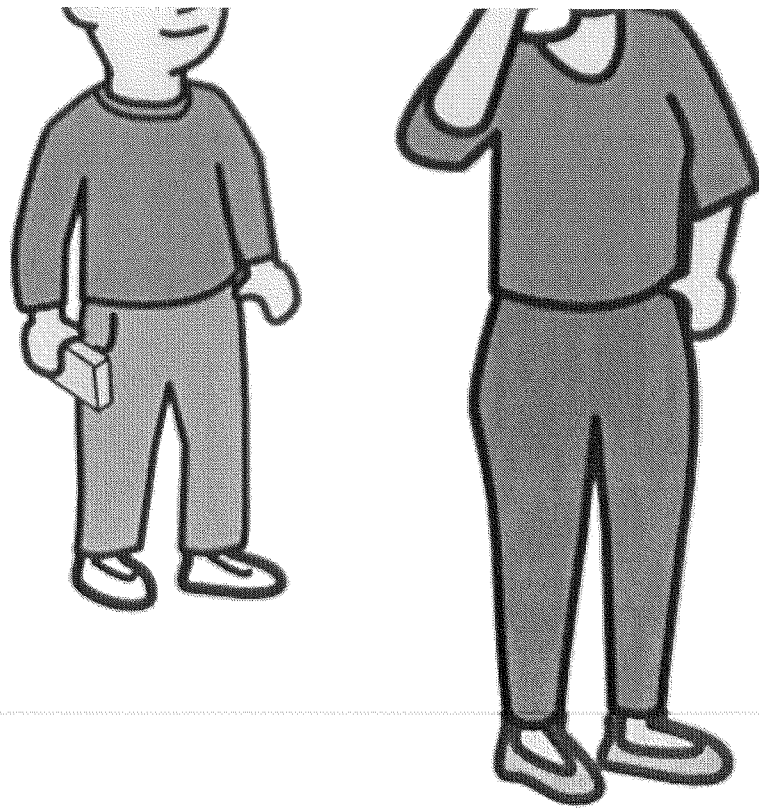

I need to wait in a lot of
different places.

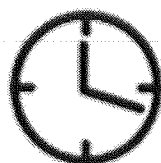

I need to wait when my Mom is
talking on the phone.

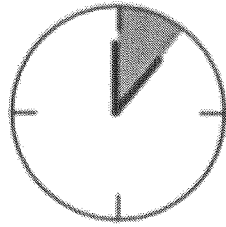

I need to wait when I want to
talk to my Dad and he is
talking to someone else.

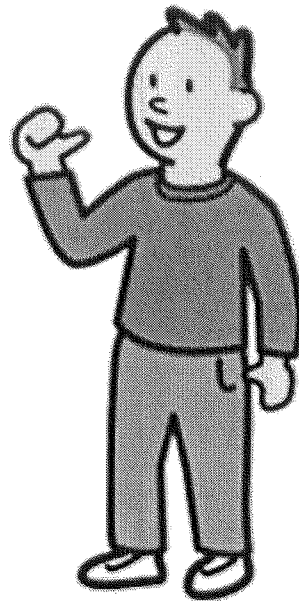

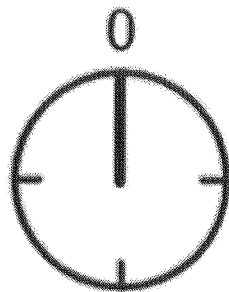

now long I need to try to wait.

See, only 5 minutes until it's
my turn.

When the timer is done, I don't
have to wait any more.

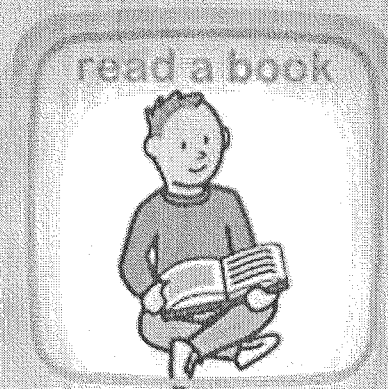

It also helps me if I can
choose something else to do
while I am waiting. I might
want to play with a toy or read
a book.

I Can

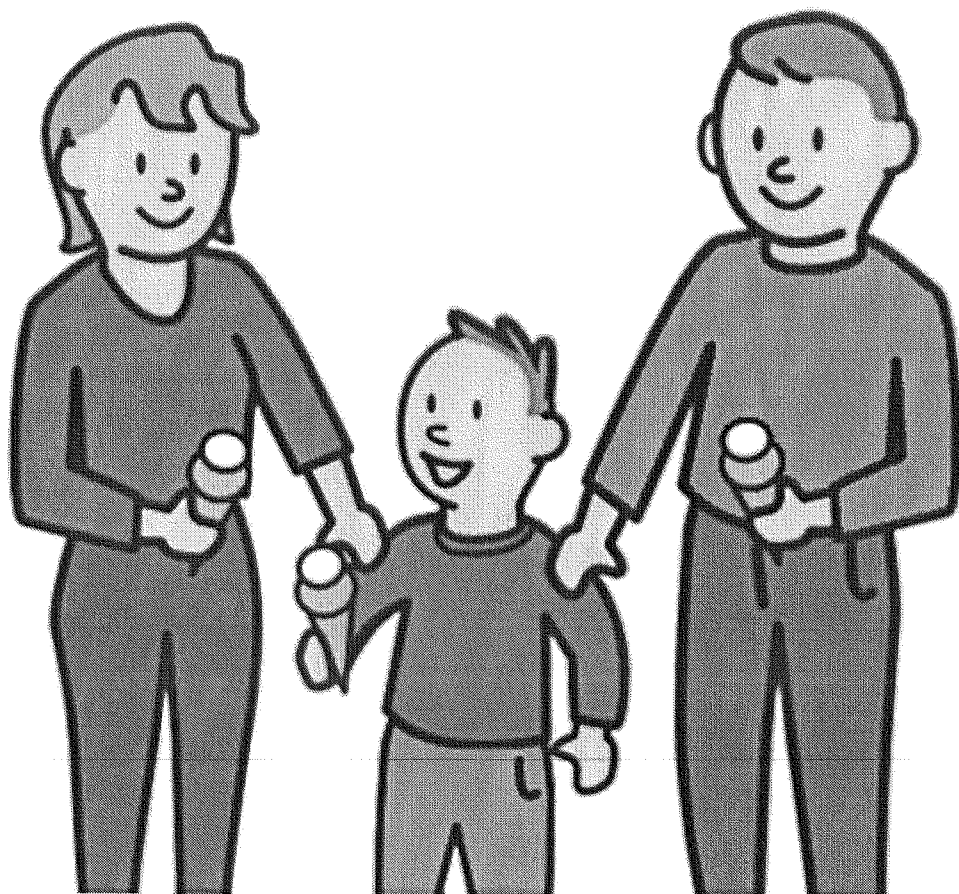

or

Everyone has to wait
sometimes. My friends have to
wait when I am playing with
something they want.

Learning how to wait is hard to do and takes a lot of practice. Waiting is very important, because when everyone has a turn to talk or play we can all be happy.

Running Safety

I like to run. It's fun to go fast !

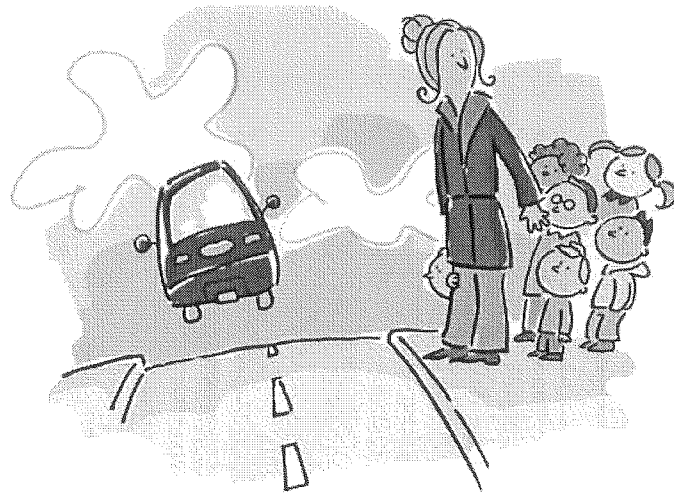

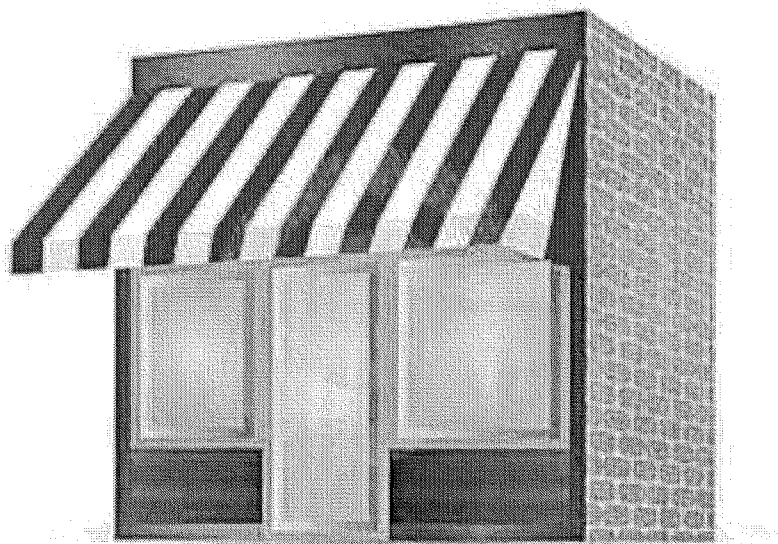

I Can run on the playground. It's usually okay to run when I'm playing outside.

It's not ok to run into the street or in a parking lot away from my mom or dad.

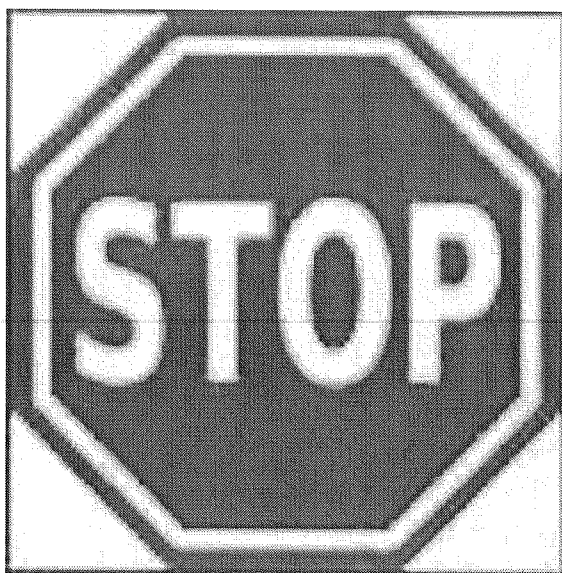

It's not ok to run away in a store or building.

Sometimes I feel like running , but it is dangerous to run !

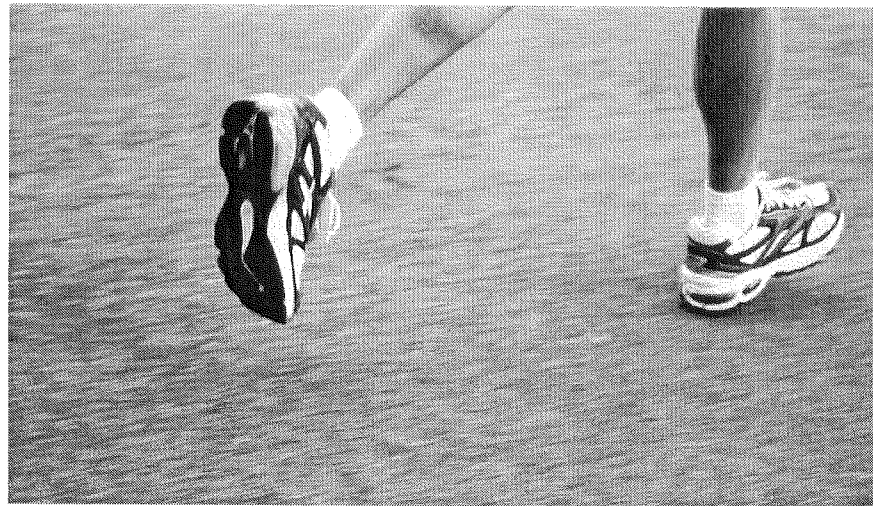

Running in the street could hurt me!

When people are inside or on a busy street they walk, to stay safe.

If I don't know if it's a good or bad time to run, I can ask the adult I am with. "Can I run?"

If they say yes, I can run!

If they say no, then it is not safe to run.

NO!!!!!!
NO!!!!!!

I will only run when I'm outside on the playground, or when someone tells me "yes, you can run"

Let's Talk about the Good Stuff

When I get home from school, I get a
big hug and a big kiss

Mom says, “ Let’s talk about the good
stuff”

Mom knows I do great things
everyday

- This is mom giving me a special surprise for an

Mom knows I am still learning and sometimes I forget the rules at school

- I may lose a special treat or privilege. This is mom's way of helping me to remember Mom will say it once. " I need to let you know today you lost something fun. I know tomorrow will be a better day ." She will make it clear and say it once. Then we move on to the good stuff .

My boy is so good. Tell me something
fun you did today.

- This is me at school having fun

My boy is so smart. Tell me something
you learned today .

- This is me working hard at school.

My boy has lots of friends . Tell me
someone you played with.

- This is me playing !

⑤ There are so many great things I do at
school.

- I help the teacher and my friends .

- I raise my hand.
- I follow classroom rules.
- I try my hardest and do my best work.
- I say nice things and use kind words.

Yes, let's talk about me and all the great things I
did today and all the great things I will do
tomorrow.

I love

I use the potty like a big boy

I am a big boy. Look at how big I am. I
am this many years old!

When I have to use the bathroom I tell a grown up. “ Hey, it’s potty time!”

I can be silly and make up a potty dance. This is what it would look like.

This is my potty at home.

This is my potty at grandma's.

This is my potty at school.

I can use the potty anywhere I go even
at the store. SEE....

I get to make choices when I go pee pee. I can
sit. I can stand. I decide !

When I hear a big splash I know I did it. I keep on pushing until I am empty. !
Then I know I'm all done. I did it ! I went poopie in the potty. This means I
get a special treat ! What do you think it could be ?

When I am all done, I wipe myself. Then I decide if I want to flush the toilet or
let a grown up do it for me. If I don't like the sound, I can even leave the
room. I decide. It's my choice.

I don't like being ignored !

I say NO IGNORING!

- It makes me sad and it makes me angry when I am ignored.
