

# Unit 7 Radical Expressions

Content Area: **Math**  
Course(s): **Algebra 1**  
Time Period:  
Length: **28 days**  
Status: **Published**

## **Algebra 1**

---

## **Department of Curriculum and Instruction**

**Belleville Public Schools**

**Curriculum Guide**

## **Algebra 1, Grade 8**

## **Unit 7 Radical Expressions**

**Belleville Board of Education**

**102 Passaic Avenue**

**Belleville, NJ 07109**

Prepared by: Instructional Coach, Lori Whittom

Dr. Richard Tomko, Ph.D., M.J., Superintendent of Schools

Ms. LucyAnn Demikoff, Director of Curriculum and Instruction K-12

Ms. Nicole Shanklin, Director of Elementary Education

Mr. George Droste, Director of Secondary Education

Board Approved: Anticipated, September 23, 2019

## Unit Overview

---

- This unit is about simplifying radical expressions, operations with radical expressions and solving problems using the Pythagorean Theorem.
- The students should learn how to simplify radicals, perform operations with radicals and apply the Pythagorean Theorem to solve problems.

## Enduring Understanding

---

- Find the length/distance in the variety of the real-world problems.
- Make sense of problems and persevere in solving them.
- Reason abstractly and quantitatively.
- Construct viable arguments and critique the reasoning of others.

- Model with mathematics.
- Attend to precision.
- Look for and make use of structure.
- Look for and express regularity in repeated reasoning.

## Essential Questions

---

- How are radical expressions represented?
- How can simplify radicals?
- How do you add radicals?
- How do you multiply radicals?
- What properties of real numbers do you use to perform operations with radicals?
- What relationship do the sides in a right triangle have?
- How can you find the length of the unknown side in a right triangle?

## Exit Skills

---

By the end of Unit 7 Students Should be able to:

- Simplifying radical expressions.
- Perform operations with radical expressions.
- Simplify radical expressions by using the Product Property
- Simplify radical expressions by using the Quotient Property of square roots.
- Master the solution of linear equations and apply related solution techniques and the laws of exponents to the creation and solution of simple exponential equations.
- Add, subtract, and multiply radical expressions.
- Extend the laws of exponents to rational exponents involving square and cube roots and apply this new understanding of number.
- Create quadratic and exponential expressions.
- Apply The Pythagorean Theorem to find unknown sides and distances.
- Solve problems by using the Pythagorean Theorem.
- Determine whether a triangle is a right triangle.

## **New Jersey Student Learning Standards (NJSLS)**

---

MA.K-12.1	Make sense of problems and persevere in solving them.
MA.K-12.2	Reason abstractly and quantitatively.
MA.N-RN.A.2	Rewrite expressions involving radicals and rational exponents using the properties of exponents.
MA.K-12.4	Model with mathematics.

MA.F-IF.B.4	For a function that models a relationship between two quantities, interpret key features of graphs and tables in terms of the quantities, and sketch graphs showing key features given a verbal description of the relationship.
MA.K-12.5	Use appropriate tools strategically.
MA.K-12.6	Attend to precision.
MA.K-12.7	Look for and make use of structure.
MA.F-IF.C.7b	Graph square root, cube root, and piecewise-defined functions, including step functions and absolute value functions.
MA.A-CED.A.2	Create equations in two or more variables to represent relationships between quantities; graph equations on coordinate axes with labels and scales.
MA.G-SRT.C.8	Use trigonometric ratios and the Pythagorean Theorem to solve right triangles in applied problems.
MA.A-REI.B.4a	Use the method of completing the square to transform any quadratic equation in $x$ into an equation of the form $(x - p)^2 = q$ that has the same solutions. Derive the quadratic formula from this form.

## Interdisciplinary Connections

Economics, Business, Financing, Literacy, and Science

LA.SL.8.1	Engage effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grade 8 topics, texts, and issues, building on others' ideas and expressing their own clearly.
LA.SL.8.1.B	Follow rules for collegial discussions and decision-making, track progress toward specific goals and deadlines, and define individual roles as needed.
LA.SL.8.1.C	Pose questions that connect the ideas of several speakers and respond to others' questions and comments with relevant evidence, observations, and ideas.
LA.SL.8.1.D	Acknowledge new information expressed by others, and, when warranted, qualify or justify their own views in light of the evidence presented.

## Learning Objectives

Students will be able to:

- Simplify radical expressions by using the Product property of square roots.
- Simplify radical expressions by using the Quotient property of square roots.
- Simplify radical expressions by using the Zero property of square roots.
- Perform operations with radical expressions by using a varieties of properties.

- Create a graphic organizer to compare and identify different properties with radicals.
- Add, subtract, and multiply radical expressions.
- Justify the steps in simplifying radicals using different properties.
- Apply The Pythagorean Theorem to find unknown sides and distances.
- Plan the steps in solving the real-world applications involving the Pythagorean Theorem.
- Conclude whether a triangle is a right triangle by checking the outcomes of the Pythagorean Theorem

Remember	Understand	Apply	Analyze	Evaluate	Create

## Alignment to 21st Century Skills & Technology

- English Language Arts
- Science and Scientific Inquiry (Next Generation)
- Social Studies
- Economics
- Technology

CRP.K-12.CRP2

Apply appropriate academic and technical skills.

CRP.K-12.CRP4

Communicate clearly and effectively and with reason.

CRP.K-12.CRP7

Employ valid and reliable research strategies.

CRP.K-12.CRP8	Utilize critical thinking to make sense of problems and persevere in solving them.
CRP.K-12.CRP11	Use technology to enhance productivity.
CAEP.9.2.12.C.2	Modify Personalized Student Learning Plans to support declared career goals.
TECH.8.1.12.A.3	Collaborate in online courses, learning communities, social networks or virtual worlds to discuss a resolution to a problem or issue.
TECH.8.1.12.B	Creativity and Innovation: Students demonstrate creative thinking, construct knowledge and develop innovative products and process using technology.
TECH.8.2.12.D.CS2	Use and maintain technological products and systems.

## **21st Century Skills/Interdisciplinary Themes**

---

- Communication and Collaboration
- Creativity and Innovation
- Critical thinking and Problem Solving
- ICT (Information, Communications and Technology) Literacy
- Information Literacy

## **21st Century Skills**

---

- Civic Literacy
- Environmental Literacy
- Financial, Economic, Business and Entrepreneurial Literacy

## **Differentiation**

---

- Use of coordinate plane grid and graphing calculator TI 84 to investigate the inverse of a functions(McGraw Hill Algebra 1 textbook page 619)
- Use of TI 84 graphing calculator to compare parent functions(McGraw Hill Algebra 1 textbook page 627)
- Use of Color coding for legs and hypotenuse of right triangles
- Small group instruction
- Small group assignments
- Extra time to complete assignments
- Pairing oral instruction with visuals
- Repeat directions
- Use manipulatives
- Study guides
- Scheduled breaks
- Rephrase written directions
- Additional time
- Preview content & concepts

- Highlight text
  - Student(s) work with assigned partner
  - Visual presentation
  - Assistive technology
  - Large print edition
  - Small group setting
  - Alternative formative and summative assessments
  - Choice board
  - Leveled rubrics
  - Multiple intelligence options
  - Project-based learning
  - Problem-based learning
  - Stations/centers
  - Think-Tac-Toes
  - Tiered activities/assignments
  - Tiered products
  - Varying organizers for instructions
- 
- Goal setting with students
  - Jigsaw
  - Think-Pair-Share
  - Varied supplemental materials

## **Special Education Learning (IEP's & 504's)**

---

- Use of coordinate plane grid and graphing calculator TI 84 to investigate the inverse of a functions(McGraw Hill Algebra 1 textbook page 619)
- Use of TI 84 graphing calculator to compare parent functions(McGraw Hill Algebra 1 textbook page 627)
- Use of Color coding for legs and hypotenuse of right triangles

- printed copy of board work/notes provided
- additional time for skill mastery
- assistive technology
- Center-Based Instruction
- check work frequently for understanding
- computer or electronic device utilizes
- extended time on tests/ quizzes
- have student repeat directions to check for understanding
- modified assignment format
- modified test content
- modified test format
- modified test length
- preferential seating
- preview of content, concepts, and vocabulary
- Provide modifications as dictated in the student's IEP/504 plan
- reduced/shortened reading assignments
- Reduced/shortened written assignments
- secure attention before giving instruction/directions
- shortened assignments
- student working with an assigned partner
- Use open book, study guides, test prototypes

## **English Language Learning (ELL)**

---

- Use of coordinate plane grid and graphing calculator TI 84 to investigate the inverse of a functions(McGraw Hill Algebra 1 textbook page 619)
- Use of TI 84 graphing calculator to compare parent functions(McGraw Hill Algebra 1 textbook page 627)
- Use of Color coding for legs and hypotenuse of right triangles

- using videos, illustrations, pictures, and drawings to explain or clarify
- allowing products (projects, timelines, demonstrations, models, drawings, dioramas, poster boards, charts, graphs, slide shows, videos, etc.) to demonstrate student's learning;
- allowing students to correct errors (looking for understanding)
- allowing the use of note cards or open-book during testing

- decreasing the amount of work presented or required
- having peers take notes or providing a copy of the teacher's notes
- modifying tests to reflect selected objectives
- providing study guides
- reducing the number of answer choices on a multiple choice test
- tutoring by peers

## At Risk

---

- Use of coordinate plane grid and graphing calculator TI 84 to investigate the inverse of a functions (McGraw Hill Algebra 1 textbook page 619)
  - Use of TI 84 graphing calculator to compare parent functions (McGraw Hill Algebra 1 textbook page 627)
  - Use of Color coding for legs and hypotenuse of right triangles
- 
- allowing students to correct errors (looking for understanding)
  - teaching key aspects of a topic. Eliminate nonessential information
  - allowing products (projects, timelines, demonstrations, models, drawings, dioramas, poster boards, charts, graphs, slide shows, videos, etc.) to demonstrate student's learning
  - allowing students to select from given choices
  - allowing the use of note cards or open-book during testing
  - collaborating (general education teacher and specialist) to modify vocabulary, omit or modify items to reflect objectives for the student, eliminate sections of the test, and determine how the grade will be determined prior to giving the test.
  - decreasing the amount of work presented or required
  - having peers take notes or providing a copy of the teacher's notes
  - modifying tests to reflect selected objectives
  - providing study guides
  - reducing or omitting lengthy outside reading assignments
  - reducing the number of answer choices on a multiple choice test
  - tutoring by peers
  - using authentic assessments with real-life problem-solving
  - using videos, illustrations, pictures, and drawings to explain or clarify

## Talented and Gifted Learning (T&G)

---

Activity: Using the Pythagorean Theorem to solve real life problems- <https://tapintoteenminds.com/3act-math/taco-cart/>

- Advanced problem-solving
- Allow students to work at a faster pace

- Complete activities aligned with above grade level text using Benchmark results
- Create a blog or social media page about their unit
- Debate issues with research to support arguments
- Higher order, critical & creative thinking skills, and discovery
- Multi-disciplinary unit and/or project
- Teacher-selected instructional strategies that are focused to provide challenge, engagement, and growth opportunities
- Utilize exploratory connections to higher-grade concepts
- Utilize project-based learning for greater depth of knowledge
