

Unit 5: Understand and Use Ratio and Rate

Content Area: **Math**
Course(s): **Math Gr. 6**
Time Period: **January**
Length: **23 Days**
Status: **Published**

Unit 5: Understand and Use Ratio and Rate

Department of Curriculum and Instruction

Belleville Public Schools

Curriculum Guide

Mathematics: Grade 6

Unit 5: Understand and Use Ratio and Rate

Belleville Board of Education

102 Passaic Avenue

Belleville, NJ 07109

Prepared by: Ms. Patricia Drudy

Dr. Richard Tomko, Ph.D., M.J., Superintendent of Schools

Ms. LucyAnn Demikoff, Director of Curriculum and Instruction K-12

Ms. Nicole Shanklin, Director of Elementary Education

Mr. George Droste, Director of Secondary Education

Board Approved: September 23, 2019

Unit Overview

Unit 5 focuses on developing an understanding of ratios and rates and the way that they can be used to solve problems.

Enduring Understandings

- Understand ratios
- Generate equivalent ratios
- Compare ratios
- Represent and graph ratios
- Understand rates and unit rates
- Compare unit rates
- Solve unit rate problems
- Ratio reasoning: Convert customary units
- Ratio reasoning: Convert metric units
- Relate customary and metric units

Essential Questions

- What are ratios and rates?
- How can you use ratios and rates to describe quantities and solve problems?

Exit Skills

By the end of Grade 6, Math Unit 5, students will be able to:

- Understand ratios
- Generate equivalent ratios
- Compare ratios
- Represent and graph ratios
- Understand rates and unit rates
- Compare unit rates
- Solve unit rate problems
- Ratio reasoning: Convert customary units
- Ratio reasoning: Convert metric units
- Relate customary and metric units

New Jersey Student Learning Standards (NJSLS)

The [Math Practices](#), as put forth by the National Council of Teachers of Mathematics (NCTM), are connected within all lessons:

MP.1 - Make sense of problems and persevere in solving them.

MP.2 - Reason abstractly and quantitatively.

MP.3 - Construct viable arguments and critique the reasoning of others.

MP.4 - Model with mathematics.

MP.5 - Use appropriate tools strategically.

MP.6 - Attend to precision.

MP.7 - Look for and make use of structure.

MP.8 - Look for and express regularity in repeated reasoning.

MA.6.RP.A.1	Understand the concept of a ratio and use ratio language to describe a ratio relationship between two quantities.
MA.6.RP.A.2	Understand the concept of a unit rate a/b associated with a ratio $a:b$ with $b \neq 0$, and use rate language in the context of a ratio relationship.
MA.K-12.3	Construct viable arguments and critique the reasoning of others.
MA.K-12.4	Model with mathematics.
MA.6.RP.A.3	Use ratio and rate reasoning to solve real-world and mathematical problems, e.g., by reasoning about tables of equivalent ratios, tape diagrams, double number line diagrams, or equations.
MA.6.RP.A.3a	Make tables of equivalent ratios relating quantities with whole number measurements, find missing values in the tables, and plot the pairs of values on the coordinate plane. Use

	tables to compare ratios.
MA.K-12.5	Use appropriate tools strategically.
MA.6.RP.A.3b	Solve unit rate problems including those involving unit pricing and constant speed.
MA.6.RP.A.3d	Use ratio reasoning to convert measurement units; manipulate and transform units appropriately when multiplying or dividing quantities.

Interdisciplinary Connections

LA.RL.6.1	Cite textual evidence and make relevant connections to support analysis of what the text says explicitly as well as inferences drawn from the text.
LA.SL.6.4	Present claims and findings, sequencing ideas logically and using pertinent descriptions, facts, and details to accentuate main ideas or themes; use appropriate speaking behaviors (e.g., eye contact, adequate volume, and clear pronunciation).
LA.L.6.4	Determine or clarify the meaning of unknown and multiple-meaning words and phrases based on grade 6 reading and content, choosing flexibly from a range of strategies.

Learning Objectives

- Use ratios to describe the relationship between two quantities
- Use bar diagrams and double number line diagrams to model ratio relationships
- Use multiplication and division to find equivalent ratios
- Solve problems by finding equivalent ratios
- Use ratio tables to compare ratios
- Compare ratios to solve problems
- Represent equivalent ratios on graphs
- Use ratio tables and graphs to solve problems
- Use rates to describe ratios in which the terms have different units
- Use rates and unit rates to solve problems
- Use ratio reasoning to compare rates and solve problems
- Use unit rates to solve problems involving constant speed
- Use unit rates to solve problems involving unit price
- Solve unit rate problems using an equation
- Use mathematical modeling to represent a problem situation and to propose a solution
- Test and verify the appropriateness of their math needs
- Explain why the results from their mathematical models may not align exactly to the problem situation
- Use ratio reasoning and conversion factors to convert customary/metric units of measure

Suggested Activities & Best Practices

Embedded in Pearson TE, Grade 6:

- Unit 5 STEM Project: In this project, students explore gear ratios by determining the number of turns each gear in a pair will make based on the number of teeth each gear has. They use the engineering design process

to design a set of gears for bicycle considering incline of terrain.

- Ratio Recipe: Choose one recipe from the internet, cookbook or home. The recipe must have at least 8 ingredients, must have the number of portions it makes (must serve greater than 4 people and less than 10). Use proportions to increase the recipe to serve the number of people in your class, including your teacher (1 serving per person). For example, if there were 30 people in class than $\frac{1}{8}$ servings = $x/30$ servings.

- Unit Rate Poster: Each each group will receive 2 different grocery store circulars. Students will use the circulars to find identical products and calculate the unit rate to answer the the question, "Which store offers the best deals?"

Assessment Evidence - Checking for Understanding (CFU)

- Common Formative Assessments (Formative)
- Common Summative Assessments (Summative)
- District Benchmark (Benchmark)
- Do Now
- Exit Tickets
- Higher-order Questioning / Rich Discussion
- Journals
- KWL Chart
- Learning Center Activities
- Performance Task (Alternative)
- Quick Check (enVisionmath)
- Quick Write
- Quizzes (Formative)
- Rubrics
- Surveys
- Teacher Observation Checklist
- Think-Pair-Share
- Turn-and-Talk / Share-out
- Unit Assessments (Summative)
- WIK / WINK

Primary Resources & Materials

EnVision Math Teacher Edition

Ancillary Resources

[New Jersey Student Learning Standards for Mathematics](#)

[NJSLS Mathematics Crosswalk](#)

[IXL Learning](#)

[NCTM Illuminations](#)

Technology Infusion

- Unit 5 3-Act Mathematical Modeling: Get In Line - Students will be tasked to determine how long it will take drivers to get on the highway using rates.
- Online Practice with Math IXL for School. Assign R1 to R18 for students to practice using rates to solve word problems and unit rates to compare prices.
- Video Tutorials: Students can access instructional videos with the Virtual Nerd app. to learn different ways to write equivalent rates.

- Technology;
- Visual and Performing Arts.

CRP.K-12.CRP2.1	Career-ready individuals readily access and use the knowledge and skills acquired through experience and education to be more productive. They make connections between abstract concepts with real-world applications, and they make correct insights about when it is appropriate to apply the use of an academic skill in a workplace situation.
CRP.K-12.CRP4.1	Career-ready individuals communicate thoughts, ideas, and action plans with clarity, whether using written, verbal, and/or visual methods. They communicate in the workplace with clarity and purpose to make maximum use of their own and others' time. They are excellent writers; they master conventions, word choice, and organization, and use effective tone and presentation skills to articulate ideas. They are skilled at interacting with others; they are active listeners and speak clearly and with purpose. Career-ready individuals think about the audience for their communication and prepare accordingly to ensure the desired outcome.
CRP.K-12.CRP6.1	Career-ready individuals regularly think of ideas that solve problems in new and different ways, and they contribute those ideas in a useful and productive manner to improve their organization. They can consider unconventional ideas and suggestions as solutions to issues, tasks or problems, and they discern which ideas and suggestions will add greatest value. They seek new methods, practices, and ideas from a variety of sources and seek to apply those ideas to their own workplace. They take action on their ideas and understand how to bring innovation to an organization.
CRP.K-12.CRP8.1	Career-ready individuals readily recognize problems in the workplace, understand the nature of the problem, and devise effective plans to solve the problem. They are aware of problems when they occur and take action quickly to address the problem; they thoughtfully investigate the root cause of the problem prior to introducing solutions. They carefully consider the options to solve the problem. Once a solution is agreed upon, they follow through to ensure the problem is solved, whether through their own actions or the actions of others.
CRP.K-12.CRP11.1	Career-ready individuals find and maximize the productive value of existing and new technology to accomplish workplace tasks and solve workplace problems. They are flexible and adaptive in acquiring new technology. They are proficient with ubiquitous technology applications. They understand the inherent risks-personal and organizational-of technology applications, and they take actions to prevent or mitigate these risks.
CAEP.9.2.8.B.3	Evaluate communication, collaboration, and leadership skills that can be developed through school, home, work, and extracurricular activities for use in a career.
TECH.8.1.8.A.1	Demonstrate knowledge of a real world problem using digital tools.
TECH.8.1.8.A.4	Graph and calculate data within a spreadsheet and present a summary of the results.
TECH.8.1.8.A.CS1	Understand and use technology systems.
TECH.8.1.8.A.CS2	Select and use applications effectively and productively.
TECH.8.1.8.C.CS2	Communicate information and ideas to multiple audiences using a variety of media and formats.

21st Century Skills/Interdisciplinary Themes

- Communication and Collaboration
- Creativity and Innovation
- Critical thinking and Problem Solving

- ICT (Information, Communications and Technology) Literacy
- Information Literacy
- Life and Career Skills
- Media Literacy

21st Century Skills

- Civic Literacy
- Environmental Literacy
- Financial, Economic, Business and Entrepreneurial Literacy
- Global Awareness
- Health Literacy

Differentiation

- Use the "Quick Check" feature on Pearson Realize (embedded in each Unit) to help determine the strategy for differentiating instruction; the "Assess and Differentiate" page will prescribe the differentiated instructional activity

Differentiations:

- Small group instruction
- Small group assignments
- Extra time to complete assignments
- Pairing oral instruction with visuals
- Repeat directions
- Use manipulatives
- Center-based instruction
- Token economy
- Study guides
- Teacher reads assessments aloud
- Scheduled breaks
- Rephrase written directions
- Multisensory approaches
- Additional time
- Preview vocabulary
- Preview content & concepts
- Story guides
- Behavior management plan
- Highlight text
- Student(s) work with assigned partner
- Visual presentation
- Assistive technology
- Auditory presentations

- Large print edition
- Dictation to scribe

Hi-Prep Differentiations:

- Alternative formative and summative assessments
- Choice boards
- Games and tournaments
- Group investigations
- Guided Reading
- Independent research and projects
- Interest groups
- Learning contracts
- Leveled rubrics
- Literature circles
- Multiple intelligence options
- Multiple texts
- Personal agendas
- Project-based learning
- Problem-based learning
- Stations/centers
- Think-Tac-Toes
- Tiered activities/assignments
- Tiered products
- Varying organizers for instructions

Lo-Prep Differentiations

- Choice of books or activities
- Cubing activities
- Exploration by interest
- Flexible grouping
- Goal-setting with students
- Jigsaw
- Mini workshops to re-teach or extend skills
- Open-ended activities
- Think-Pair-Share
- Reading buddies
- Varied journal prompts
- Varied supplemental materials

- Consider Intervention Activity and/or Reteach e.g. Topic 5-1, pg. 262A
 - Use suggestions under Technology Center section in Pearson Realize to target students with disabilities
 - Use the [Pacer Center Action Information Sheet](#) for research-based ideas on accommodations and modifications
-
- Allow for open-note/open-book assessments
 - Check classwork frequently for understanding
 - Conduct preview of content, concepts, and vocabulary
 - Consider behavior management plan
 - Implement accommodations/modifications as dictated in the student's IEP/504 plan
 - Modified test content/format
 - Modified written assignments
 - Multi-sensory presentation
 - Pre-annotate text
 - Preferential seating
 - Promote pair work
 - Provide extended time on various assignments
 - Provide printed/online copies of lesson notes
 - Secure attention before providing instruction/directions
 - Use assistive technology

English Language Learning (ELL)

- Use Teaching Tool 48 as a graphic organizer to help students connect a visual to the vocabulary term
 - Use Teaching Tool 49 to connect students' understanding of vocabulary terms with actual meanings
 - Use suggestions under English Language Learners section in Pearson Realize to target beginning, intermediate, and advanced learners e.g. Topic 5-1, pg. 258
 - Use suggestions under Technology Center section in Pearson Realize to target ELLs
-
- Allow for multiple student revisions
 - Allow for open-note / open-book assessments
 - Allow multiple forms of student products (projects, models, slide-shows, etc.) to demonstrate student learning
 - Ask and give information using key words
 - Demonstrate listening comprehension by responding to questions
 - Develop basic sight vocabulary
 - Differentiate assessments to reflect selected objectives
 - Express ideas in single words

- Leverage computer spell checker
- Modify reading assignments to correlate with lexile level
- Peer tutoring / Peer note-taking
- Speak using content area vocabulary in context
- Teacher-created Study Guide
- Use prior experiences to understanding meanings
- Use videos, illustrations, pictures, and drawings to explain or clarify

At Risk

- Decrease the amount of work represented or required by assigning the "Do You Understand?" and the "Do You Know How?" sections of each lesson
- Use suggestions under Technology Center section in Pearson Realize to target at-risk students
- Use suggestions under Intervention Activity e.g. Topic 5-1, pg. 259

- Allow for multiple student revisions
- Allow for open-note / open-book assessments
- Allow multiple forms of student products (projects, models, slide-shows, etc.) to demonstrate student learning
- Allow students to select from given assignment choices
- Differentiate assessments to reflect selected objectives
- Mark students' correct and acceptable work, not the mistakes
- Peer tutoring / Peer note-taking
- Promote student collaboration on in-class / outside class assignments
- Reduce lengthy outside reading assignments
- Teach key aspects of a topic - eliminate non-essential information
- Teacher-created Study Guide
- Use authentic assessments with real-life problem-solving
- Use videos, illustrations, pictures, and drawings to explain or clarify

Talented and Gifted Learning (T&G)

- Use suggestions under Extension for Early Finishers section in Pearson Realize to target advanced learners
- Use suggestions under Enrichment to target advanced learners e.g. Topic 5-1, pg. 259
- Administer Unit Assessment to determine level of proficiency
- Allow gifted children to create and publish a class newspaper to distribute
- Allow students to work at a faster pace
- Complete activities aligned with above grade-level text using Benchmark results
- Consider parental input about the education of their gifted children

- Create a blog or social media page about a topic of interest
- Create a plan to solve an issue presented in the class or in a text
- Debate issues with research to support arguments
- Involve students in academic contests
- Promote advanced problem-solving
- Remember that gifted children may not excel in all areas
- Set individual goals
- Utilize exploratory connections to higher-grade concepts
- Utilize project-based learning for greater depth of knowledge
