### **Suggested Activities & Best Practices**

Students will complete regular journal prompts for assigned readings and write breakdowns and translations for specific scenes, in which they will analyze select scenes by deconstructing them down to their individual shots/transitions and write narrative translations of the silent sequences of images, complete with character's thoughts and dialogue. This will enhance their critical thinking skills, writing, and creativity.

Students will be required to read at least one supplemental text per marking period. They may choose from a recommended list or submit a book for approval. Students will be required to complete a reading log and a book review for each choice book. Every student will sign up to present at least one book review to the class before the end of the year. This will encourage students to read outside the classroom and in turn hopefully boost reading skills.
