Unit Overview

In this Unit students will learn legal reasoning skills necessary for creative and effective problem-solving. Students will develop advocacy skills to enable them to build persuasive arguments to support their conclusions. Legal reasoning also provides a language tool, which enables people of different beliefs and worldviews to arbitrate their differences in a way that is acceptable to all. Students will learn to gather information by doing research and asking questions to develop a complete understanding of the problem. Students will learn to organize the information collected and determine which information is relevant. Lastly, students will develop public speaking necessary to present the information and make a persuasive argument.
