

Fish out of water!

Addition Fun

By Deanna Jump

Fish Out Of Water!

For 1-4 players

Each player gets a work mat and 3 fish cards.

Each player will draw a card and solve the addition sentence. (For self checking -the answer is in the fish bowl) If the answer is correct the player keeps the card. If the player draws a fish out of water card the player will yell out, "Fish out of water!" and take a fish off of the work mat. When a player has all three fish out of water the game is over.

FISH OUT OF WATER!

I played a fun math addition game.

These are some of the addition problems I got right.

Print, cut and laminate the cards.
Each player needs 3 cards for their fish bowl.

Use the following cards for first grade
or for your kids who are ready for a
little bit more of a challenge.
