

# {Freebie!}

# Engineering Design Process Brief

### 3. Plan and Create

- \* Draw a diagram of your design.
- \* Make a list of your materials.
- \* Follow your plan and create it.
- \* Test it.

### 4. Improve

- \* What could you change to make it better?
- \* Make changes to make your design better.
- \* Retest!
- \* Share your results.

Name \_\_\_\_\_

Engineering Design Process Brief

### 1. Ask

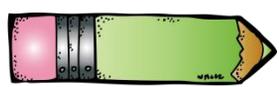

- \* What's the problem?
- \* What have others done?
- \* What are the constraints?

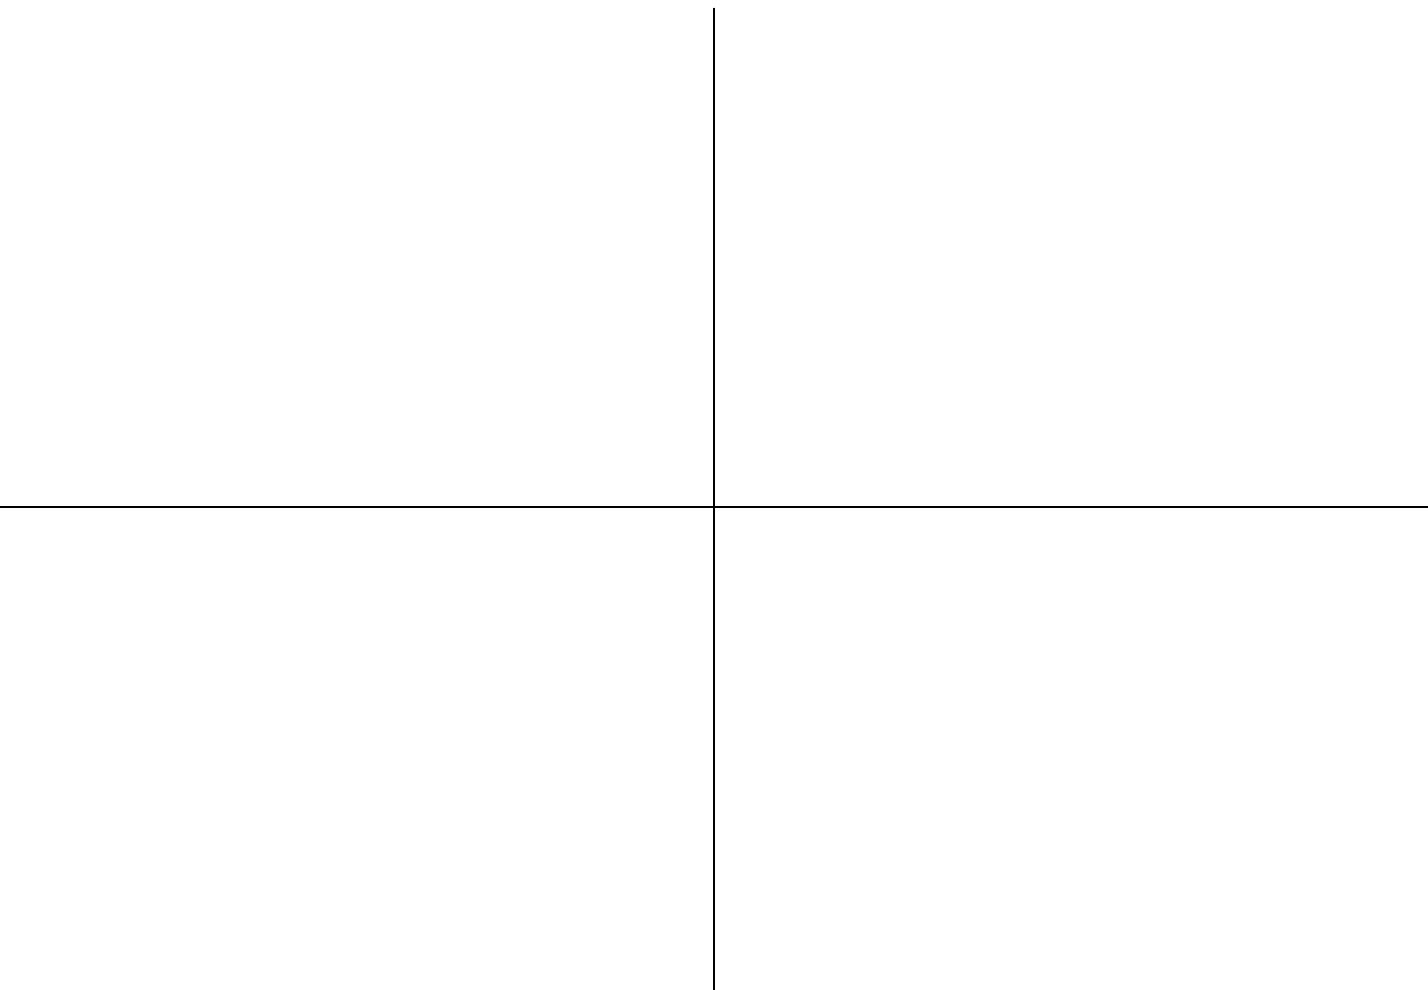

### 2. Imagine

- \* What could be some solutions?
- \* Brainstorm ideas.
- \* Choose the best idea.
