Unit Overview

In Unit 3, students will apply the knowledge of themes and techniques from previous units and express how individual style can effect group performance. Students will also work on technique to make their dances more expressive using style and choice of

music.

Enduring Understanding

- Music and theme work together to create a more effective style of dance.
- Dance is expressive, that expressiveness is further enhanced by music.
- Style and dance can be a personal or a public experience.

Essential Questions

- How do our individual styles affect a group performance?
- How can I recognize this dance to enhance its expressiveness?
- How can I use music more effectively to support my theme?

Exit Skills

- Create a work with peers using original movement material devices to manipulate phrases, and a clear choreographic structure.
- Perform a dance using a preferred style.
- Interpret a dance in terms of content (narrative, themed or abstract) and context (theatrical, ritual or social).
- Produce a performance with peers, taking various roles, and analyze the skills needed for such jobs.

New Jersey Student Learning Standards (NJSLS-S)

VPA.1.1.8.A.2	Analyze dance techniques and styles to discern the compositional use of the elements of dance and choreographic principles relating to dynamics, as well as to discern spatial relationships.
VPA.1.1.8.A.3	Examine how dance compositions are influenced by various social themes and arts media (e.g., dance for camera, interactive, telematics).
VPA.1.3.8.A.2	Choreograph and perform cohesive dance works that reflect social, historical, and/or political themes.
VPA.1.3.8.A.3	Choreograph and perform movement sequences that demonstrate artistic application of

	anatomical and kinesthetic principles as well as rhythmic acuity.
VPA.1.3.8.A.4	Use media arts and technology in the creation and performance of short, original choreographic compositions.
VPA.1.4.8.A.5	Interpret symbolism and metaphors embedded in works of dance, music, theatre, and visual art.
VPA.1.4.8.A.6	Differentiate between “traditional” works of art and those that do not use conventional elements of style to express new ideas.
VPA.1.4.8.B.1	Evaluate the effectiveness of a work of art by differentiating between the artist’s technical proficiency and the work’s content or form.

Interdisciplinary Connections

ELA

- Prepare for and participate effectively in a range of conversations and collaborations with diverse partners, building on others’ ideas and expressing their own clearly and persuasively.
- Integrate and evaluate information presented in diverse media and formats, including visually, quantitatively, and orally.

S.S.

LA.RI.8	Reading Informational Text
LA.W.8	Writing
LA.SL.8	Speaking and Listening
SOC.6.3.8.CS.C	Economics, Innovation, and Technology

Learning Objectives

- Identify the use of arts media in dance master works.
- Manipulate one single effort factor in each effort state combination including: Awake state (space-time), Rhythm State (weight-time), Dream State (weight-flow), Remote State (space-flow), Mobile State (flowtime), Stabile State (spaceweight) to communicate a meaning.
- Develop and demonstrate strength, flexibility and coordination with application of anatomically sound body mechanics.
- Analyze/interpret the role and use of technology and media arts to convey meaning in master dance works and create and perform a short solo or group dance composition utilizing technology and media arts (e.g., television, film, video, radio, and electronic media) as catalyst for, in support of, and/or fully integrated within the dance composition.
- Interpret the characteristics of imagery and representation in various dance works and apply symbolism to a short original choreographic work.
- Differentiate the elements of style and design of a traditional and non-traditional dance work and apply conventional and

nonconventional elements of style to express new ideas in selfgenerated choreography.

- Objectively assess observable criteria regarding content, form, technical proficiency and formal structures in various self and peer generated works of dance using rubrics and holistic scoring guides.

Suggested Activities & Best Practices

- Create a work with peers using original movement material devices to manipulate phrases, and a clear choreographic structure.
- Take video footage of only classmates' feet and legs as they are rehearsing a dance; repeat with only the upper body; use to revise performance.
- With peers, create a video of students dancing to weave into a performance.
- Interpret a dance in terms of content (narrative, themed or abstract) and context (theatrical, ritual or social).
- Analyze a dance's content and social/cultural context.
- Produce a performance with peers, taking various roles, and analyze the skills needed for such jobs.

Assessment Evidence - Checking for Understanding (CFU)

- Maintain a dance portfolio over time (paper or digital) with journal reflections, research ideas, notation, videos, photographs, clippings about dance from magazines and newspapers, dance resources and performance "notes." (formative assessment)
 - Evaluate informal in-class performances and video evidence of student performances using observation, discussions, drawings, video, and simple student-created rubrics. (formative/summative assessment based on lesson goals)
 - Produce a performance with peers. (summative assessment)
 - Create a script for a performance to be produced by a peer. (alternative assessment)
