Unit Overview

In this Unit students will continue the study of criminal justice by exploring federalism and examining the sections of the U.S. Constitution that set up the framework of our government. Students will discover the regulatory authority of Congress and the power of the legislative branch of government to enact criminal laws. Students will study the three branches of government and the different levels of government that exist in New Jersey. Students will then explore the court system and compare the Federal Court System and the Court System of the State of New Jersey and determine each court's jurisdiction.

Enduring Understanding

Students will learn that federalism is a system of government in which power is divided between one national, federal government and several independent state governments. The federal government is intended to be limited, with the bulk of regulatory authority residing in the states. The states can regulate for the health, safety, and welfare of citizens pursuant to their police power, which is set forth in the Tenth Amendment of the federal Constitution. Federal criminal laws criminalize conduct that occurs on federal property or involves federal employees, currency, coin, treason, national security, rights secured by the Constitution, or commerce that crosses state lines. State criminal laws make up 90 percent of all criminal laws, are designed to protect state citizens' health, safety, and welfare, and often criminalize the same conduct as federal criminal laws.

Federal supremacy, which is set forth in the Supremacy Clause of the federal Constitution, requires courts to follow federal laws if there is a conflict between a federal and state law. Students will learn about representation in our government. The Senate represents every state equally because each state has two senators. The House of Representatives represents each citizen equally because states are assigned representatives based on their population. Students will examine the court system and learn that jurisdiction is based on either the court's power to hear a matter or a geographic area over which a court has authority. Students will compare and contrast the structure of both the Federal Court System and the Court System of the State of New Jersey. New Jersey's court system consists of four tiers with two tiers being designated as trial courts and two tiers designated as appellate courts. New Jersey's courts strive to achieve justice. To achieve justice, New Jersey courts must be independent, open and impartial. Citizens in New Jersey serve as jurors in Superior Court. Jury service is a civic duty in our democracy and relies on the diligence and dedication that ordinary people bring to jury duty.

Essential Questions

What is federalism?

How does our system of government distribute power?

How are criminal laws enacted?

What is the difference between federal law and state law?

When state law and federal law conflict, how is the conflict resolved?

What is the function of each branch of government?

What are the levels of government in New Jersey?

How is representation in Congress determined?

How do we determine a court's jurisdiction to hear a matter?

In the Criminal Justice System, what is the responsibility of all citizens?

Exit Skills

By the end of this Unit students will demonstrate the ability to;

Define federalism.

Identify the sections of the Constitution that give Congress regulatory authority.

Suggested Activities & Best Practices

- Development of e-learning platform using Google Classroom, Oncourse and other web based services.
- Reading and outlining text and other e-material
- Using outline templates and PowerPoint presentations to reinforce student outlines
- Teacher oriented class discussion
- Reaction Papers addressing legal topics and current event issues
- Answering Discussion Questions and Unit/Lesson assessment questions
- Legal Vocabulary Review
- Create graphis organizer depicting structure of Federal Court system and the Court System of the State of New Jersey

- Create graphic organizer depicting the four levels of government in New Jersey
- Unit specific Case Study exercises such as;

-Gibbons v. Ogden (States Rights, Commerce Clause)

-Marbury v. Madison (Judicial Review, Federalism)

-McCulloch v. Maryland (State Taxes, National Supremacy)

Assessment Evidence - Checking for Understanding (CFU)

By identifying the Evidence of Student Learning with Checking for Understanding (CFU) techniques used during the lesson and/or for Closure (Madeline Hunter), please list the variety of means used to assess students' learning (e.g. quizzes, tests, academic prompts, observations, homework, journals).

- KWL Exercise-formative
- Cumulative outline of all lessons in Unit 2
- Reaction Papers on current event legal issues-alternate
- Legal Reasoning exercises applying the law
- Case Studies (i.e. *Marbury v. Madison*)
- End-of-Unit exam-summative

Alignment to 21st Century Skills & Technology

Mastery and infusion of **21st Century Skills & Technology** and their Alignment to the core content areas is essential to student learning. The core content areas include:

- English Language Arts;
- Mathematics;
- Science and Scientific Inquiry (Next Generation);
- Social Studies, including American History, World History, Geography, Government and Civics, and Economics;
- World languages;
- Technology;
- Visual and Performing Arts.

CRP.K-12.CRP1.1	Career-ready individuals understand the obligations and responsibilities of being a member of a community, and they demonstrate this understanding every day through their interactions with others. They are conscientious of the impacts of their decisions on others and the environment around them. They think about the near-term and long-term consequences of their actions and seek to act in ways that contribute to the betterment of their teams, families, community and workplace. They are reliable and consistent in going beyond the minimum expectation and in participating in activities that serve the greater good.
CRP.K-12.CRP10.1	Career-ready individuals take personal ownership of their own education and career goals, and they regularly act on a plan to attain these goals. They understand their own career interests, preferences, goals, and requirements. They have perspective regarding the pathways available to them and the time, effort, experience and other requirements to pursue each, including a path of entrepreneurship. They recognize the value of each step in the education and experiential process, and they recognize that nearly all career paths require ongoing education and experience. They seek counselors, mentors, and other experts to assist in the planning and execution of career and personal goals.
CRP.K-12.CRP11.1	Career-ready individuals find and maximize the productive value of existing and new technology to accomplish workplace tasks and solve workplace problems. They are flexible and adaptive in acquiring new technology. They are proficient with ubiquitous technology applications. They understand the inherent risks-personal and organizational-of technology applications, and they take actions to prevent or mitigate these risks.
CAEP.9.2.12.C.2	Modify Personalized Student Learning Plans to support declared career goals.
CAEP.9.2.12.C.4	Analyze how economic conditions and societal changes influence employment trends and future education.

21st Century Skills/Interdisciplinary Themes

Please list only the **21st Century/Interdisciplinary Themes** that will be incorporated into this unit.

- Communication and Collaboration
- Creativity and Innovation
- Critical thinking and Problem Solving
- Information Literacy
- Life and Career Skills
- Media Literacy

21st Century Skills

Please list only the **21st Century Skills** that will be incorporated into this unit.

- Civic Literacy
- Financial, Economic, Business and Entrepreneurial Literacy
- Global Awareness

Differentiation

- Guided outlining and open outline assessments
- Project-based learning
- Problem-based learning

Differentiations:

- Extra time to complete assignments
- Pairing oral instruction with visuals
- Repeat directions
- Study guides
- Teacher reads assessments allowed
- Scheduled breaks
- Rephrase written directions
- Multisensory approaches
- Additional time
- Preview vocabulary
- Preview content & concepts
- Behavior management plan
- Highlight text
- Student(s) work with assigned partner
- Visual presentation

- Assistive technology
- Auditory presentations

Hi-Prep Differentiations:

- Alternative formative and summative assessments
- Games and tournaments
- Group investigations
- Guided Reading
- Independent research and projects
- Learning contracts
- Multiple texts
- Project-based learning
- Problem-based learning
- Stations/centers
- Tiered activities/assignments

Lo-Prep Differentiations

- Exploration by interest
- Flexible grouping
- Goal setting with students
- Jigsaw
- Mini workshops to re-teach or extend skills
- Open-ended activities
- Varied supplemental materials

Special Education Learning (IEP's & 504's)

- Modified assignments
- Additional time for assignments and assessments

- printed copy of board work/notes provided
- additional time for skill mastery
- assistive technology
- behavior management plan

- check work frequently for understanding
- computer or electronic device utilizes
- extended time on tests/ quizzes
- have student repeat directions to check for understanding
- highlighted text visual presentation
- modified assignment format
- modified test content
- modified test format
- modified test length
- multi-sensory presentation
- multiple test sessions
- preferential seating
- preview of content, concepts, and vocabulary
- Provide modifications as dictated in the student's IEP/504 plan
- reduced/shortened reading assignments
- Reduced/shortened written assignments
- secure attention before giving instruction/directions
- shortened assignments
- student working with an assigned partner
- teacher initiated weekly assignment sheet
- Use open book, study guides, test prototypes

English Language Learning (ELL)

- Providing assignments/assessments in native language
- teaching key aspects of a topic. Eliminate nonessential information
- using videos, illustrations, pictures, and drawings to explain or clarify
- allowing products (projects, timelines, demonstrations, models, drawings, dioramas, poster boards, charts, graphs, slide shows, videos, etc.) to demonstrate student's learning;
- allowing students to correct errors (looking for understanding)
- allowing the use of note cards or open-book during testing
- decreasing the amount of work presented or required
- having peers take notes or providing a copy of the teacher's notes
- modifying tests to reflect selected objectives
- providing study guides
- reducing the number of answer choices on a multiple choice test
- tutoring by peers
- using computer word processing spell check and grammar check features
- using true/false, matching, or fill in the blank tests in lieu of essay tests

At Risk

- Additional time for assignments and assessments
- allowing students to correct errors (looking for understanding)
- teaching key aspects of a topic. Eliminate nonessential information
- allowing products (projects, timelines, demonstrations, models, drawings, dioramas, poster boards, charts, graphs, slide shows, videos, etc.) to demonstrate student's learning
- allowing students to select from given choices
- allowing the use of note cards or open-book during testing
- collaborating (general education teacher and specialist) to modify vocabulary, omit or modify items to reflect objectives for the student, eliminate sections of the test, and determine how the grade will be determined prior to giving the test.
- decreasing the amount of work presented or required
- having peers take notes or providing a copy of the teacher's notes
- modifying tests to reflect selected objectives
- providing study guides
- reducing the number of answer choices on a multiple choice test
- tutoring by peers
- using authentic assessments with real-life problem-solving
- using true/false, matching, or fill in the blank tests in lieu of essay tests
- using videos, illustrations, pictures, and drawings to explain or clarify

Talented and Gifted Learning (T&G)

- Providing additional Case Studies for in-depth analysis
- Above grade level placement option for qualified students
- Advanced problem-solving
- Allow students to work at a faster pace
- Cluster grouping
- Complete activities aligned with above grade level text using Benchmark results
- Create a plan to solve an issue presented in the class or in a text
- Debate issues with research to support arguments
- Flexible skill grouping within a class or across grade level for rigor
- Higher order, critical & creative thinking skills, and discovery
- Multi-disciplinary unit and/or project
- Teacher-selected instructional strategies that are focused to provide challenge, engagement, and growth opportunities
- Utilize exploratory connections to higher-grade concepts

- Utilize project-based learning for greater depth of knowledge
