# **New Jersey Student Learning Standards (NJSLS-S)**

Synthesize content generated from stimulus materials to choreograph dance studies or dances using original or codified movement.
Develop an artistic statement that reflects a personal aesthetic for an original dance study or dance. Select and demonstrate movements that support the artistic statement.
Clarify the artistic intent of a dance using established artistic criteria, self-reflection and the feedback of others. Analyze and evaluate the impact of choices made in the revision process. Justify the reasons for revisions.
Develop a strategy to record a dance using recognized systems of dance documentation (e.g., writing, a form of notation symbols, using media technologies).
Use syncopation and accented movements related to different tempi. Take rhythmic cues from different aspects of accompaniment. Integrate breath with metric and kinesthetic phrasing.
Perform planned and improvised movement sequences and dance combinations while self-monitoring and adjusting dynamics and energy to the choreographic intent.
Develop personal conditioning practices, using different body conditioning techniques, that improve range of motion, muscular flexibility, strength, and endurance to enhance performance.
Execute clarity of movement intention during complex movement sequences. Use style/genre specific vocabulary and execute codified movements with style/genre specific alignment and characteristics, through focused practice and repetition.
Use genre-specific dance terminology to analyze dance works, recurring patterns of movement and their relationships that create structure and meaning in dance.
Analyze and compare the movement patterns and their relationships in a variety of genres, styles, or cultural movement practices and explain how their differences impact communication and intent within a cultural context. Use genre-specific dance terminology.
Evaluate personal choreography and how personal experiences and exposure to various cultures influences individual, emotional, intellectual, and kinesthetic responses to dance works.
Analyze how the role of dance in a global society has influenced various cultures, societies and historical periods throughout history. Examine how innovations in the arts have impacted dance-making in these communities in relation to the ideas and perspectives of the people from whom the dances originate.
