4. Recognize the structure of the skeleton, joints and landmarks to help with proportions and drawing the body in motion, shading, accurate perspective, understanding the layering of muscles, and making the muscles feel 3D.
5. How the function of the body helps to understand its limitation and how to draw the body in motion – flexing, stretching, and relaxing muscles.
6. Allow students to learn about how people have responded to and communicated their experiences through art making by exploring the human anatomy.
7. Allow students to experiment with various drawing techniques, overlapping objects, foreshortening,
