Appendix of Technology Standards and Infusion Exemplars

Grade 9-12

Belleville Board of Education

102 Passaic Avenue

Belleville, NJ 07109

Prepared by: Ms. Karen L. Franciosa

Dr. Richard Tomko, Ph.D., M.J., Superintendent of Schools

Ms. LucyAnn Demikoff, Director of Curriculum and Instruction K-12

Ms. Nicole Shanklin, Director of Elementary Education

Mr. George Droste, Director of Secondary Education

Board Approved: September 23, 2019

Appendix of Technology Standards and Exemplars

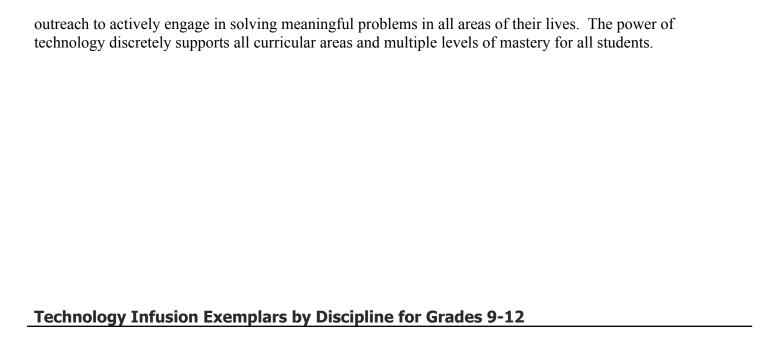

The purpose of this appendix is to serve as a guide for educators to meet the technological requirements as per the NJDOE website:

New Jersey's Technology Standards consist of 8.1 Educational Technology and 8.2 Technology, Engineering, Design and Computational Thinking, which work symbiotically to provide students with the necessary skills for college and career readiness.

"Advances in technology have drastically changed the way we interact with the world and each other. The digital age requires that we understand and are able to harness the power of technology to live and learn". - International Society for Technology in Education

In this ever-changing digital world where citizenship is being re-imagined, our students must be able to harness the power of technology to live, solve problems and learn in college, on the job and throughout their lives. Enabled with digital and civic citizenship skills, students are empowered to be responsible members of today's diverse global society.

Readiness in this century demands that students actively engage in critical thinking, communication, collaboration, and creativity. Technology empowers students with real-world data, tools, experts and global

What **Technology Infusion** and/or strategies are integrated into this unit to enhance learning? Please list all hardware, software and strategies. Please find a technology pedagogy wheel for assistance while completing this section

ELA:

- Digital Brain Dump with Flipgrid and Socrative
- Caption This! A fun, deep-thinking Google Drawings activity.
- Create an online portfolio including a social media page and business card for a character identity using Canva.
- "Add and Pass" activity in docs- Digital version of adding onto a story and passing to next group of students until finished. Begin with an image on a blank document (can be a scene from a story or even a historical figure).
- Writable.com- 600+ prompts and assignments
- <u>ThinkCERCA.com</u>-Web-based literacy program that seffold the development of critical thinking and argumentative writing skills.
- Commonlit.org-Feature rich literacy resource.
- readwritethink.org: A-Il's Well that Sells Well: A Creative Introduction to Shakespeare: After taking a virtual tour of The Globe Theater in Elizabethan London, students compare attending a performance at The Globe to attending a current professional production (such as a play on Broadway) or to viewing a movie at a local theater. They discuss the similarities and differences in the theaters and imagine what types of products might have been advertised in Elizabethan time, if The Globe showed commercials before the play like modern movie theaters do. They create a commercial advertisement geared toward an Elizabethan audience to promote one of today's products or conveniences. This activity helps students better understand the Elizabethan times and Elizabethan theater audiences, as well as persuasive advertising techniques.
- readwritethink.org: *Creating Psychological Profiles of Characters in To Kill a Mockingbird*: Design a digital poster and plan a presentation representing a psychological profiles for a selected character while determining what specific factors (such as family, career, environment, and so forth) have the greatest influence on the characters' decision making throughout the novel.

- readwritethink.org: *Ghosts and Fears in Language Arts: Exploring the Ways Writers Scare Readers*: Fright Fair Projects: "Why people like to be scared"-Students can create a Google survey on what movies fellow teens watch, whether or not they watch horror movies and if so why do they like them? Statistics on how well scary movies do at the box office can be researched and fellow students who enjoy horror films can be interviewed. Findings can be presented in the form of a digital news broadcast.
- readwritethink.org: *An Introduction to Graphic Novels:Podcast*readwritethink.org: *Comics and Graphic Novels*
- Create a Book Trailer

MATH:

- <u>Digital Brain Dump with Flipgrid and Socrative.</u>
- Khan Academy: Algebra Functions
- Math by Kahoot-Algebra (Curriculum Aligned Games and videos)
- Kahoot:Math by Kahoot-Algebra (Model and Solve Equations with Variables ob Both Sides)
- YouTube: Algebra Basics: Solving Equations Part 1-Math Antics
- YouTube: Algebra Basics: Solving Equations Part 2-Math Antics
- YouTube:Basic Linear Functions-Math Antics
- Khan Academy:Solving Equations
- Khan Acaemy:Geometry-Law of Detachment

SCIENCE:

- Digital Brain Dump with Flipgrid and Socrative
- YouTube:Intro to Chemistry, Basic Concepts-Periodic Table
- Khan Academy: Introduction to Chemistry
- Weather and Climate- Bozeman Science
- Create PowToon on subject material
- Khan Academy:High School Biology:Cells
- Khan Academy: High School Biology: Evolution

SOCIAL STUDIES:

- Google Earth
- Digital Brain Dump with Flipgrid and Socrative.
- Caption This! A fun, deep-thinking Google Drawings activity
- Digital History- A comprehensive collection of historical data on United States history.
- Digital History: The Great Depression
- Create an online portfolio including a social media page and business card for a historian using Canva.
- <u>iCivics.org</u> gives students the necessary tools to learn about and participate in civic life, and teaches the materials and support to achieve this goal. Their free resources include interactive digital tools, print-and-go lessons and award winning games.
- http://www.loc.gov: Library of Congress: News, events, new content and more from the National Library of Congress and Specifice subject areas- From legislature to poetry, from music to science,

from cataloging to copyright.

- <u>Historical Thinking Matters.org</u>: A pick for best social studies websites "focused on key topics in U.S. history, that is designed to teach students how to critically read primary souces and how to critique and construct historical narratives.
- <u>Historical Thinking Matters: Rosa Parks</u> (Black History Month)
- YouTube: Larry King Live (1995)- Interview with Rosa Parks (Black History Month)
- NPR: National Public Radio-Podcasts
- <u>Ted Talks: Uglyy History: Witch Hunts</u>

2014 New Jersey Student Learning Standards - Technology

Content Area		Technology					
Standard		8.1 Educational Technology: All students will use digital tools to access, manage, evaluate, and synthesize information in order to solve problems individually and collaborate and to create and communicate knowledge.					
Strand			A. Technology Operations and Concepts: Students demonstrate a sound understanding of technology concepts, systems and operations.				
Grade Level bands	Content Statement Students will:		Indicator	Indicator			
P	Understar systems.	nd and use technology	8.1.P.A.1	Use an input device to select an item and navigate the screen			
			8.1.P.A.2	Navigate the basic functions of a browser.			
		d use applications y and productively.	8.1.P.A.3	Use digital devices to create stories with pictures, numbers, letters and words.			
			8.1.P.A.4	Use basic technology terms in the proper context in conversation with peers and teachers (e.g., camera, tablet, Internet, mouse, keyboard, and printer).			
			8.1.P.A.5	Demonstrate the ability to access and use resources on a computing device.			
K-2	Understar systems.	nd and use technology	8.1.2.A.1	Identify the basic features of a digital device and explain its purpose.			
		d use applications	8.1.2.A.2	Create a document using a word processing application.			
		and productively.	8.1.2.A.3	Compare the common uses of at least two different digital applications and identify the advantages and disadvantages of using each.			
			8.1.2.A.4	Demonstrate developmentally appropriate navigation skills in virtual environments (i.e. games, museums).			
				Enter information into a spreadsheet and sort the information.			
			8.1.2.A.6	Identify the structure and components of a database.			
			8.1.2.A.7	Enter information into a database or spreadsheet and filter the information.			
3-5	Understar systems.	nd and use technology	8.1.5.A.1	Select and use the appropriate digital tools and resources to accomplish a variety of tasks including solving problems.			
		d use applications y and productively.	8.1.5.A.2	Format a document using a word processing application to enhance text and include graphics, symbols and/ or pictures.			
			8.1.5.A.3	Use a graphic organizer to organize information about problem or issue.			
			8.1.5.A.4	Graph data using a spreadsheet, analyze and produce a report that explains the analysis of the data.			
			8.1.5.A.5	Create and use a database to answer basic questions.			
			8.1.5.A.6	Export data from a database into a spreadsheet; analyze			

				and produce a report that explains the analysis of the data.
6-8	Understan systems.	d and use technology	8.1.8.A.1	Demonstrate knowledge of a real world problem using digital tools.
	Select and use applications effectively and productive		8.1.8.A.2	Create a document (e.g. newsletter, reports, personalized learning plan, business letters or flyers) using one or more digital applications to be critiqued by professionals for usability.
			8.1.8.A.3	Use and/or develop a simulation that provides an environment to solve a real world problem or theory.
			8.1.8.A.4	Graph and calculate data within a spreadsheet and present a summary of the results
			8.1.8.A.5	Create a database query, sort and create a report and describe the process, and explain the report results.
9-12	Understand and use technology systems.		8.1.12.A.1	Create a personal digital portfolio which reflects personal and academic interests, achievements, and career aspirations by using a variety of digital tools and resources.
	Select and use applications effectively and productively.		8.1.12.A.2	Produce and edit a multi-page digital document for a commercial or professional audience and present it to peers and/or professionals in that related area for review.
			8.1.12.A.3	Collaborate in online courses, learning communities, social networks or virtual worlds to discuss a resolution to a problem or issue.
			8.1.12.A.4	Construct a spreadsheet workbook with multiple worksheets, rename tabs to reflect the data on the worksheet, and use mathematical or logical functions, charts and data from all worksheets to convey the results.
			8.1.12.A.5	Create a report from a relational database consisting of at least two tables and describe the process, and explain the report results.

			offs identified in the design process to evaluate potential soluti
	Use and maintain	8.2.5.D.3	Follow step by step directions to assemble a product or solve a
	technological products an systems.		Explain why human-designed systems, products, and environn constantly monitored, maintained, and improved.
		8.2.5.D.5	Describe how resources such as material, energy, information, capital are used in products or systems.
	Assess the impact of product and systems.	lucts 8.2.5.D.6	Explain the positive and negative effect of products and syster species and the environment, and when the product or system
		8.2.5.D.7	Explain the impact that resources such as energy and materials produce products or system have on the environment.
6-8	Apply the design process	. 8.2.8.D.1	Design and create a product that addresses a real world proble process under specific constraints.
		8.2.8.D.2	Identify the design constraints and trade-offs involved in design how the prototype might fail and how it might be improved) be problem and reporting results in a multimedia presentation, de engineering notebook.
		8.2.8.D.3	Build a prototype that meets a STEM-based design challenge unengineering, and math principles that validate a solution.
	Use and maintain technological products an systems.	8.2.8.D.4	Research and publish the steps for using and maintaining a pro- incorporate diagrams or images throughout to enhance user co
	Assess the impact of product and systems.	lucts 8.2.8.D.5	Explain the impact of resource selection and the production pr development of a common or technological product or system
		8.2.8.D.6	Identify and explain how the resources and processes used in t current technological product can be modified to have a more environment.
9-12	Apply the design process	8.2.12.D.1	Design and create a prototype to solve a real world problem us identify constraints addressed during the creation of the protot made, and present the solution for peer review.
		8.2.12.D.2	Write a feasibility study of a product to include: economic, ma financial, and management factors, and provide recommendati implementation.
	Use and maintain technological products an systems.	8.2.12.D.3	Determine and use the appropriate resources (e.g., CNC (Com Control) equipment, 3D printers, CAD software) in the design creation of a technological product or system.
	Assess the impact of prod	lucts 8.2.12.D.4	Assess the impacts of emerging technologies on developing co
	and systems.	8.2.12.D.5	Explain how material processing impacts the quality of engine products.
		8.2.12.D.6	Synthesize data, analyze trends and draw conclusions regardin technology on the individual, society, or the environment and

bands	understand:		
K-2	Computational thinking and computer programming as tools used in design and engineering.	8.2.2.E.1	List and demonstrate the steps to an everyday task.
		8.2.2.E.2	Demonstrate an understanding of how a computer takes is of written commands and then interprets and displays info
		8.2.2.E.3	Create algorithms (a sets of instructions) using a pre-define (e.g., to move a student or a character through a maze).
		8.2.2.E.4	Debug an algorithm (i.e., correct an error).
		8.2.2.E.5	Use appropriate terms in conversation (e.g., basic vocabu output, the operating system, debug, and algorithm).
3-5	Computational thinking and computer programming as tools used in design and engineering.	8.2.5.E.1	Identify how computer programming impacts our everyday liv
		8.2.5.E.2	Demonstrate an understanding of how a computer takes input stores the data through a series of commands, and outputs info
		8.2.5.E.3	Using a simple, visual programming language, create a programming procedures to generate specific output.
		8.2.5.E.4	Use appropriate terms in conversation (e.g., algorithm, program procedures, memory, storage, processing, software, coding, procedures, memory, storage, procedures, memory, storage, procedures, memory, storage, processing, software, coding, procedures, memory, storage, procedures, procedu
6-8	Computational thinking and computer programming as tools used in design and engineering.	8.2.8.E.1	Identify ways computers are used that have had an impact acroactivity and within different careers where they are used.
		8.2.8.E.2	Demonstrate an understanding of the relationship between hard
		8.2.8.E.3	Develop an algorithm to solve an assigned problem using a speciment of commands and use peer review to critique the solution.
		8.2.8.E.4	Use appropriate terms in conversation (e.g., programming, lan ROM, Boolean logic terms).
9-12	Computational thinking and computer programming as tools used in design and engineering.	8.2.12.E.1	Demonstrate an understanding of the problem-solving capacity world.
		8.2.12.E.2	Analyze the relationships between internal and external c components.
		8.2.12.E.3	Use a programming language to solve problems or accomrobotic functions, website designs, applications, and gam
		8.2.12.E.4	Use appropriate terms in conversation (e.g., troubleshoot diagnostic software, GUI, abstraction, variables, data type statements).
