Unit Name: Decision-Making

NJSLS: (linked)

Interdisciplinary Connection: English Literacy, Health Literacy

Statement of Objective:

- SWDAT identify three types of decision making.
- SWDAT identify the advantages and disadvantages of having decisions about your life made for you.
- SWDAT analyze how decisions can impact other people.

Anticipatory Set/Do Now: Google Classroom post - When was the last time you had to make a decision? What was it? What did you do to come to that decision? Did it work? If you can do it again, would you change anything? Take 5 minutes to write down, then share with the class.

Learning Activity: The class will discuss the 3 types of decision-making. They are: No Decision – Letting others decide what you will do. Snap Decision – A quick choice you make with no consideration of the result. Responsible Decision – Considering others (Not only me) and your future (Not only now) when you make a decision.

There will be 50 decisions on the board. Ask students to individually place the decisions into one of those three categories. They do this by listing the three decision types on the top of their page, and listing the choices in the appropriate column. Have students compare their lists to the lists of two other students. Discuss.
