Unit Overview

Throughout this unit, students will come to understand the New Jersey seat belt and car seat laws, the use of airbags for driver safety, safe steering, speed control and braking distances, proper use of driver signals, and proper parking, turning, and reversing practices.

Enduring Understanding

Students will be able to learn safe driving habits

Students will be able to know New Jersey Graduated Driver's License Laws Students will be able to learn driving speed and parking regulations

Students will be able to understand seatbelt safety and laws

Students will be able to learn defensive driving skills

Students will be able to understand driving rules and regulations

Students will be able to learn how to share the road with others.

Students will be able to understand the move over law.

Essential Questions

What are the important laws and restrictions for drivers?

How can you influence others to use their seatbelts?

Why do we have the seatbelt laws that we have?

How could you promote safe driving habits to your peers?

What are some safe driving habits you think all drivers should have?

Why are speed limits important?

What speed limits would you change and why?

What are some regulations that are not in place that could make the roads safer if they became laws?

What are behaviors that could limit your reaction time and braking distance?

How does the Move Over Law improve the safety of law enforcement and emergency drivers?

What are ways to prevent driving when you are too tired?

What is highway hypnosis?

Exit Skills

By the end of Unit 2, the student should be able to:

Identify the graduated driver's license safety related laws.

Create posters promoting safe driving habits.

Identify the impairments alcohol causes to the body and how this affects the ability to drive.

Explain the various laws involved with driving such as parking distances, following distances, stopping distances, turning, and all other laws regarding safe driving habits.

Apply defensive driving skills to emergency situations.
Promote safe driving habits to their peers through a variety of media forms.
Evaluate current driving laws and debate if they are effective or need to be altered identifying why if so.
Identify ways to help others become more aware of laws, including the Move Over Law

New Jersey Student Learning Standards (NJSLS)

HPE.2.1.12.D.1	Determine the causes and outcomes of intentional and unintentional injuries in adolescents and young adults and propose prevention strategies.
HPE.2.1.12.D.3	Analyze the relationship between alcohol and drug use and the incidence of motor vehicle crashes.
HPE.2.1.12.D.4	Develop a rationale to persuade peers to comply with traffic safety laws and avoid driving distractors.
HPE.2.1.12.D.5	Summarize New Jersey motor vehicle laws and regulations and determine their impact on health and safety (e.g., organ/tissue donation, seatbelt use, and the use of hand-held devices).
HPE.2.1.12.D.CS1	Evaluating the potential for injury prior to engaging in unhealthy/risky behaviors impacts choices.
HPE.2.2.12.D.1	Plan and implement an advocacy strategy to stimulate action on a state, national, or global health issue, including but not limited to, organ/tissue donation.

Interdisciplinary Connections

LA.RL.9-10.1	Cite strong and thorough textual evidence and make relevant connections to support analysis of what the text says explicitly as well as inferentially, including determining where the text leaves matters uncertain.
LA.RST.9-10.2	Determine the central ideas, themes, or conclusions of a text; trace the text's explanation or depiction of a complex process, phenomenon, or concept; provide an accurate summary of the text.
LA.RI.9-10.1	Accurately cite strong and thorough textual evidence, (e.g., via discussion, written response, etc.) and make relevant connections, to support analysis of what the text says explicitly as well as inferentially, including determining where the text leaves matters uncertain.
LA.RST.9-10.4	Determine the meaning of symbols, key terms, and other domain-specific words and phrases as they are used in a specific scientific or technical context relevant to grades 9-10 texts and topics.
LA.RST.9-10.7	Translate quantitative or technical information expressed in words in a text into visual form (e.g., a table or chart) and translate information expressed visually or mathematically (e.g., in an equation) into words.
LA.WHST.9-10.2.A	Introduce a topic and organize ideas, concepts, and information to make important connections and distinctions; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aiding comprehension.
LA.WHST.9-10.4	Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.

Learning Objectives

Students will be able to:

Identify and successfully separate potential hazards relating to intersections and intersecting traffic.

Identify various intersection markings when approaching an intersection.

Understand how to approach an intersection safely.

Acknowledge when to move and when to stop while driving through an intersection.

Acknowledge when to make right and left turns at a controlled intersection.

Identify and respond correctly to roadway characteristics and/or regulations which may create potential conflict and to make necessary adjustments in vehicle speed or position as changing conditions warrant.

Identify the proper procedures when driving through an uncontrolled intersection.

Identify the procedures to use when driving through an uncontrolled railroad crossing.

Identify who has the right of way when approaching an intersection.

Demonstrate knowledge of proper interaction with emergency vehicles.

Recognize the proper procedure that you should yield for emergency vehicles while approaching intersections.

Apply appropriate seatbelt safety and laws for all occasions

21st Century Skills/Interdisciplinary Themes

Upon completion of this section, please remove all remaining descriptions, notes, outlines, examples and/or illustrations that are not needed or used.

Please list only the **21st Century/Interdisciplinary Themes** that will be incorporated into this unit.

- Communication and Collaboration
- Creativity and Innovation
- Critical thinking and Problem Solving
- ICT (Information, Communications and Technology) Literacy
- Information Literacy
- Life and Career Skills
- Media Literacy

21st Century Skills

Upon completion of this section, please remove all remaining descriptions, notes, outlines, examples and/or illustrations that are not needed or used.

Please list only the **21st Century Skills** that will be incorporated into this unit.

- Civic Literacy
- Environmental Literacy
- Financial, Economic, Business and Entrepreneurial Literacy
- Global Awareness
- Health Literacy

Differentiation

- Extended time to complete assignments
- Student requires more complex assignments to be broken up and explained in smaller units, with work to be submitted in phases.
- Provide the student with clearly stated (written) expectations and grading criteria for assignments.
- Extended time on classroom tests and quizzes
- Student may take/complete tests in an alternate setting as needed

- Restate, reread, and clarify directions/questions
- Distribute study guide for classroom tests

Please identify the ones that will be employed in this unit.

Differentiations:

- Small group instruction
- Small group assignments
- Extra time to complete assignments
- Pairing oral instruction with visuals
- Repeat directions
- Use manipulatives
- Center-based instruction
- Token economy
- Study guides
- Teacher reads assessments allowed
- Scheduled breaks
- Rephrase written directions
- Multisensory approaches
- Additional time
- Preview vocabulary
- Preview content & concepts
- Story guides
- Behavior management plan
- Highlight text
- Student(s) work with assigned partner
- Visual presentation
- Assistive technology
- Auditory presentations
- Large print edition
- Dictation to scribe
- Small group setting

Hi-Prep Differentiations:

- Alternative formative and summative assessments
- Choice boards
- Games and tournaments
- Group investigations
- Guided Reading
- Independent research and projects
- Interest groups
- Learning contracts
- Leveled rubrics
- Literature circles
- Multiple intelligence options
- Multiple texts

- Personal agendas
- Project-based learning
- Problem-based learning
- Stations/centers
- Think-Tac-Toes
- Tiered activities/assignments
- Tiered products
- Varying organizers for instructions

Lo-Prep Differentiations

- Choice of books or activities
- Cubing activities
- Exploration by interest
- Flexible grouping
- Goal setting with students
- Jigsaw
- Mini workshops to re-teach or extend skills
- Open-ended activities
- Think-Pair-Share
- Reading buddies
- Varied journal prompts
- Varied supplemental materials

Special Education Learning (IEP's & 504's)

- Ask students to restate information, directions, and assignments
- Repetition and practice
- Model skills/techniques to be mastered
- Extended time to complete class work
- Provide copy of class notes
- Preferential seating to be mutually determined by the student and teacher
- Extra textbook for home
- Assign a peer helper in the class setting
- Provide oral reminders and check student work during independent work time

- printed copy of board work/notes provided
- additional time for skill mastery
- assistive technology
- behavior management plan
- Center-Based Instruction
- check work frequently for understanding

- computer or electronic device utilizes
- extended time on tests/ quizzes
- have student repeat directions to check for understanding
- highlighted text visual presentation
- modified assignment format
- modified test content
- modified test format
- modified test length
- multiple test sessions
- multi-sensory presentation
- preferential seating
- preview of content, concepts, and vocabulary
- Provide modifications as dictated in the student's IEP/504 plan
- reduced/shortened reading assignments
- Reduced/shortened written assignments
- secure attention before giving instruction/directions
- shortened assignments
- student working with an assigned partner
- teacher initiated weekly assignment sheet
- Use open book, study guides, test prototypes

English Language Learning (ELL)

- Distribute study guide for classroom tests
 - Establish procedures for accommodations/modifications for assessments (Native Lang. & English)
 - Allow complex assignments to be broken up and explained in smaller units, with work to be submitted in phases.
 - Provide a copy of translated class notes
 - Native language translation (peer, online assistive technology, translation device, bilingual dictionary)
 - Extended time for assignment completion as needed
 - Highlight key vocabulary
 - Use graphic organizers
-
- teaching key aspects of a topic. Eliminate nonessential information
 - using videos, illustrations, pictures, and drawings to explain or clarify
 - allowing products (projects, timelines, demonstrations, models, drawings, dioramas, poster boards, charts, graphs, slide shows, videos, etc.) to demonstrate student's learning;
 - allowing students to correct errors (looking for understanding)
 - allowing the use of note cards or open-book during testing

- decreasing the amount of work presented or required
- having peers take notes or providing a copy of the teacher's notes
- modifying tests to reflect selected objectives
- providing study guides
- reducing or omitting lengthy outside reading assignments
- reducing the number of answer choices on a multiple choice test
- tutoring by peers
- using computer word processing spell check and grammar check features
- using true/false, matching, or fill in the blank tests in lieu of essay tests

At Risk

- Allow students to take/complete tests in an alternate setting as needed
 - Restate, reread, and clarify directions/questions
 - Distribute study guide for classroom tests
 - Establish procedures for accommodations/modifications for assessments
 - Student requires more complex assignments to be broken up and explained in smaller units, with work to be submitted in phases.
 - Provide the student with clearly stated (written) expectations and grading criteria for assignments.
 - Provide a copy of translated class notes
 - Allow student use of other assistive technology device
-
- allowing students to correct errors (looking for understanding)
 - teaching key aspects of a topic. Eliminate nonessential information
 - allowing products (projects, timelines, demonstrations, models, drawings, dioramas, poster boards, charts, graphs, slide shows, videos, etc.) to demonstrate student's learning
 - allowing students to select from given choices
 - allowing the use of note cards or open-book during testing
 - collaborating (general education teacher and specialist) to modify vocabulary, omit or modify items to reflect objectives for the student, eliminate sections of the test, and determine how the grade will be determined prior to giving the test.
 - decreasing the amount of work presented or required
 - having peers take notes or providing a copy of the teacher's notes
 - marking students' correct and acceptable work, not the mistakes
 - modifying tests to reflect selected objectives
 - providing study guides
 - reducing or omitting lengthy outside reading assignments
 - reducing the number of answer choices on a multiple choice test
 - tutoring by peers
 - using authentic assessments with real-life problem-solving
 - using true/false, matching, or fill in the blank tests in lieu of essay tests
 - using videos, illustrations, pictures, and drawings to explain or clarify

Talented and Gifted Learning (T&G)

- Conduct research and provide presentation of topics related to Drivers' Education both nationally and globally.
 - Design surveys to generate and analyze data to be used in discussion. Debate topics of interest/importance within Drivers' Education.
 - Use of higher-level questioning techniques
 - Provide assessments at a higher-level of thinking
-
- Above grade level placement option for qualified students
 - Advanced problem-solving
 - Allow students to work at a faster pace
 - Cluster grouping
 - Complete activities aligned with above grade level text using Benchmark results
 - Create a blog or social media page about their unit
 - Create a plan to solve an issue presented in the class or in a text
 - Debate issues with research to support arguments
 - Flexible skill grouping within a class or across grade level for rigor
 - Higher order, critical & creative thinking skills, and discovery
 - Multi-disciplinary unit and/or project
 - Teacher-selected instructional strategies that are focused to provide challenge, engagement, and growth opportunities
 - Utilize exploratory connections to higher-grade concepts
 - Utilize project-based learning for greater depth of knowledge
