# Appendix of Technology Standards and Infusion Exemplars

Grades 3-5

**Belleville Board of Education** 

**102** Passaic Avenue

#### Belleville, NJ 07109

Prepared by: Ms. Karen L. Franciosa
Dr. Richard Tomko, Ph.D., M.J., Superintendent of Schools
Ms. LucyAnn Demikoff, Director of Curriculum and Instruction K-12
Ms. Nicole Shanklin, Director of Elementary Education
Mr. George Droste, Director of Secondary Education

Board Approved: September 23, 2019

#### **Appendix of Technology Standards and Exemplars**

The purpose of this appendix is to serve as a guide for educators to meet the technological requirements as per the NJDOE website:

New Jersey's Technology Standards consist of 8.1 Educational Technology and 8.2 Technology, Engineering, Design and Computational Thinking, which work symbiotically to provide students with the necessary skills for college and career readiness.

"Advances in technology have drastically changed the way we interact with the world and each other. The digital age requires that we understand and are able to harness the power of technology to live and learn". - International Society for Technology in Education

In this ever-changing digital world where citizenship is being re-imagined, our students must be able to harness the power of technology to live, solve problems and learn in college, on the job and throughout their lives. Enabled with digital and civic citizenship skills, students are empowered to be responsible members of today's diverse global society.

Readiness in this century demands that students actively engage in critical thinking, communication, collaboration, and creativity. Technology empowers students with real-world data, tools, experts and global

outreach to actively engage in solving meaningful problems in all areas of their lives. The power of technology discretely supports all curricular areas and multiple levels of mastery for all students.

#### **Technology Infusion Exemplars by Discipline for Grades 3-5**

Upon completion of this sections, please remove all remaining descriptions, notes, outlines, examples and/or illustrations that are not needed or used.

#### ELA:

- Digital Brain Dumps with Flipgrid and Socrative.
- "Add and Pass" activity in docs- Digital version of adding onto a story and passing to next group of students until finished. Begin with an image on a blank document ( can be a scene from a story or even a historical figure).
- Design a Twitter or Instagram Account for a fictional character,
- Google Classroom: Have students collaborate on a field trip.
- *I Am Unique: Each* member of the class can individually work on a single shared document and finish the sentence: "I am unique because....." (Great for the beginning of the year or can be modified as a "Friendship" assignment for **Amistad**.
- *My Milestones*: Students will create a digital time-line that describes their life events. Students are to interview family members for information.
- ReadWriteThink.org: **Student Interactive Interactive Venn Diagram**: Interactive tool allows students to create Venn diagrams that contain 2-3 overlapping circles.
- ReadWriteThink.org: Friendship Exploring Similarities and Differences
- ReadWriteThink.org: Compare and Contrast Expository Text Structures
- YouTube: Genres of Literature
- Use of Interactive vocabulary
- Sumdog
- IXL
- <u>Kahoot:Figurative Language</u>
- Pearson
- <u>abcya.com</u>
- <u>RoomRecess.com</u>(Educational Reading and Word Games in addition to video lessons)
- <u>SheppardSoftware.com</u>
- BrainPop
- Word Art
- Raz-Kids(subscription pending)

#### MATH:

- BrainPOP Jr.: Geometry: Solid Shapes
- BrainPOP: Adding and Subtracting Fractions
- <u>xtraMath.com</u>
- <u>EnchantedLearning</u> is a wonderful website where students can learn about many different topics to support the curriculum.

#### SCIENCE:

- Digital Braindumps with Flipgrid and Socrative
- Create a pamphlet of the planets using Google applications.
- Use Padlet to make observations and share wonderings about constellations, space, black hole, etc.
- Students will create a poster about systems in the sky using Google Docs.
- Skype an expert
- <u>Tumble Science Podcasts for Kids</u>
- YouTube:Crash Course Kids
- YouTube:Constellation Location: Crash Course Kids #31.2
- <u>YouTube:Gravity Compilation: Crash Course Kids</u>
- You Tube: Axis of Rotation
- YouTube:Matter and Energy in Organisms
- <u>NASA Classifieds: A Space WebQuest Google Sites</u>
- "The Light In Our Night Sky"- Project portion of galaxy using Google Sky. Students record 5 observation of image and 5 answers to "I Wonder" questions. Using websites such as Kids Astronomy,

Stars, Ducksters-Astronomy for Kids, Magnitude of a Star, Luminosity of a star and Our Universe for Kids, students research stars and constellations.gle

- <u>Amazing Space</u>- Learn about astronomy, space, telescopes, stars, and discoveries. Includes "Tonight's Sky" constellations, deep sky objects and planets
- Flocabulary
- BrainPOP: Constellations
- BrainPOP: Planets
- BrainPOP: Matter
- Kids Discover Online
- BioEd Online
- Discovery Ed
- IXL
- <u>Kahoot</u>
- <u>abcya.com</u>
- <u>SheppardSoftware.com</u>
- <u>Scratch(coding</u>)
- Hour of Code
- Soft Schools: Animal Facts
- Science Kids-Animal Facts
- <u>Enchanted Learning</u> is a wonderful website where students can learn about many different topics to support the curriculum.

#### SOCIAL STUDIES:

- Digital Brain Dumps with Flipgrids and Socrative.
- Using Google Classroom invite students to collaborate on writing a class constitution.
- *"We The People*"- Students create a preamble digital pamphlet. Students use text and images for each section of the preamble.
- *Branches of the Government*: Students write, define and insert images illustrating the branches of the government using Google Docs.
- *Black History Month Project*: Students will create a digital time-line outlining the life of famous black Americans.
- Students type a letter to the Mayor addressing ideas to improve the community.
- Create a News Report as a video or live broadcast about important places, people, groups or events from an earlier era.
- Visit Websites about National Parks. Create 3 Google slides outlining 3 things that made this an exciting and interesting place to visit. Include 3 images.
- Visit the websites http://www.Kids.gov and http://usmintgov//kids to identify natural, human and capital resources at work in their community.
- HMH in The News/Current Events for Elementary School Students
- <u>Utah Educational Network student Interactives</u>: This is a fun and engaging website. This site has over 50 interactive social studies activities and games over topics such as geography, current events, U.S. History, U.S. Government and ancient civilizations.
- <u>Digital History</u>: A comprehensive collection of historical data on United States history, This site has it all and includes online textbook, interactive learning modules, time-lines, flash movies, virtual exhibits, etc.
- Discovery Ed
- IXL

- <u>Kahoot</u>
- Animal Fact Guide
- abcya.com(Mapping-Take a Trip;USA Geography)
- <u>SheppardSoftware.com</u>
- IXL
- BrainPOP Jr.: Social Studies Unit: American History; Holiday; Communities; Government; Citzenship
- BrainPOP Jr.: Social Studies Unit: Continents and Oceans; Reading Maps; Rural, Suburban, Urban and Landforms
- National Geographic for Kids
- <u>Enchanted Learning</u>: Enchanted Learning is a wonderful website where students can learn about many different topics to support the curriculum.
- <u>Ben's Guide to the U.S. Government</u>- Kid's aged 4-14 years and up can learn about the United States government, how laws are made and elections work, Ben Franklin's life, and the importance of historical documents; and play related games.

#### MUSIC:

- Sort musical instruments by sound using Google forms
- Virtual trips to opera houses around the world using Google maps
- Create presentations on styles of music using Google slides
- <u>Kahoot</u>
- abcya.com(Sound Burst; Melody Maker; Trace to the Beat: Letter and Number Tracing)
- BrainPOP: Reading Music
- BrainPop: Musical Scales
- BrainPop: Sortify:Musical Instruments
- <u>Enchanted Learning</u>: Enchanted Learning is a wonderful website where students can learn about many different topics to support the curriculum

#### ART:

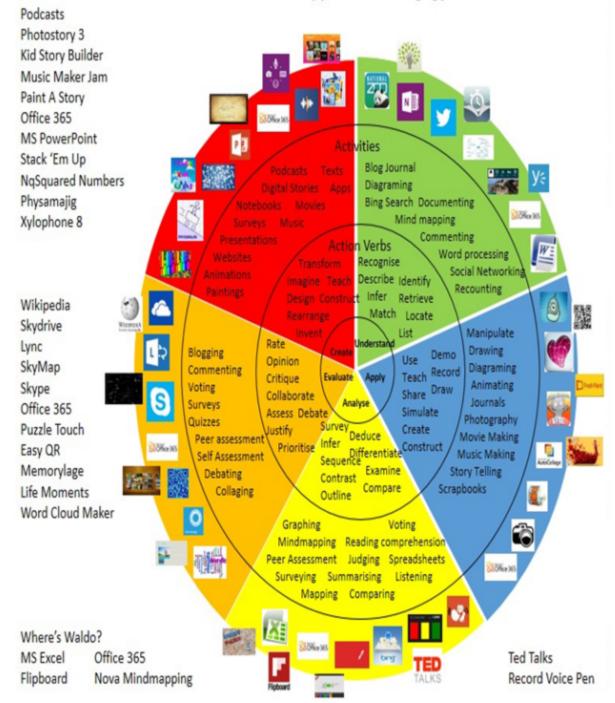

- <u>Kahoot</u>
- abcya.com(Magic Mirror Paint; Paint; Shapes and Color; Pixel Art-Sound Bursts)
- BrainPop
- <u>Enchanted Learning</u>: Enchanted Learning is a wonderful website where students can learn about many different topics to support the curriculum.

#### PE/HEALTH:

- <u>Sheppard Software.com</u>(Nutrition For Kids)
- BrainPop
- <u>Enchanted Learning</u>: Enchanted Learning is a wonderful website where students can learn about many different topics to support the curriculum.
- <u>Kahoot</u>
- GoNoodle

#### LIBRARY/MEDIA:

- <u>abcya.com</u>
- hour of code.org

### 2014 New Jersey Student Learning Standards - Technology

Content .	Area	Technology						
Standard		8.1 Educational Technology: All students will use digital tools to access, manage, evaluate, and						
			synthesize information in order to solve problems individually and collaborate and to create					
		and communicate knowledge.						
technology con		A. Technology Operat technology concepts, s		epts: Students demonstrate a sound understanding of perations.				
Grade	Content Statement		Indicator	Indicator				
Level bands	Students will:							
Р	Understan systems.	d and use technology	8.1.P.A.1	Use an input device to select an item and navigate the screen				
			8.1.P.A.2	Navigate the basic functions of a browser.				
		use applications and productively.	8.1.P.A.3	Use digital devices to create stories with pictures, numbers, letters and words.				
			8.1.P.A.4	Use basic technology terms in the proper context in conversation with peers and teachers (e.g., camera, tablet, Internet, mouse, keyboard, and printer).				
			8.1.P.A.5	Demonstrate the ability to access and use resources on a computing device.				
K-2	Understan systems.	d and use technology	8.1.2.A.1	Identify the basic features of a digital device and explain its purpose.				
		use applications	8.1.2.A.2	Create a document using a word processing application.				
	effectively and productively.		8.1.2.A.3	Compare the common uses of at least two different digital applications and identify the advantages and disadvantages of using each.				
			8.1.2.A.4	Demonstrate developmentally appropriate navigation skills in virtual environments (i.e. games, museums).				
			8.1.2.A.5	Enter information into a spreadsheet and sort the information.				
			8.1.2.A.6	Identify the structure and components of a database.				
			8.1.2.A.7	Enter information into a database or spreadsheet and filter the information.				
3-5	Understand and use technology		8.1.5.A.1	Select and use the appropriate digital tools and				
	systems.			resources to accomplish a variety of tasks including solving problems.				
		use applications and productively.	8.1.5.A.2	Format a document using a word processing application to enhance text and include graphics, symbols and/ or pictures.				
			8.1.5.A.3	Use a graphic organizer to organize information about problem or issue.				
			8.1.5.A.4	Graph data using a spreadsheet, analyze and produce a report that explains the analysis of the data.				
			8.1.5.A.5	Create and use a database to answer basic questions.				
			8.1.5.A.6	Export data from a database into a spreadsheet; analyze and produce a report that explains the analysis of the data.				
6-8	Understan systems.	d and use technology	8.1.8.A.1	Demonstrate knowledge of a real world problem using digital tools.				
	Select and	use applications	8.1.8.A.2	Create a document (e.g. newsletter, reports,				

	effectively	and productively.		personalized learning plan, business letters or flyers) using one or more digital applications to be critiqued by
			8.1.8.A.3	professionals for usability.Use and/or develop a simulation that provides an environment to solve a real world problem or theory.
			8.1.8.A.4	Graph and calculate data within a spreadsheet and present a summary of the results
			8.1.8.A.5	Create a database query, sort and create a report and describe the process, and explain the report results.
9-12	Understand and use technology systems.		8.1.12.A.1	Create a personal digital portfolio which reflects personal and academic interests, achievements, and career aspirations by using a variety of digital tools and resources.
	Select and use applications effectively and productively.		8.1.12.A.2	Produce and edit a multi-page digital document for a commercial or professional audience and present it to peers and/or professionals in that related area for review.
			8.1.12.A.3	Collaborate in online courses, learning communities, social networks or virtual worlds to discuss a resolution to a problem or issue.
			8.1.12.A.4	Construct a spreadsheet workbook with multiple worksheets, rename tabs to reflect the data on the worksheet, and use mathematical or logical functions, charts and data from all worksheets to convey the results.
			8.1.12.A.5	Create a report from a relational database consisting of at least two tables and describe the process, and explain the report results.

	Assess the impact of products and systems.		8.2.8.D.5	Explain the impact of resource selection and the production pro development of a common or technological product or system.
			8.2.8.D.6	Identify and explain how the resources and processes used in th current technological product can be modified to have a more p environment.
9-12	Apply the	design process.	8.2.12.D.1	Design and create a prototype to solve a real world problem usi identify constraints addressed during the creation of the prototy made, and present the solution for peer review.
			8.2.12.D.2	Write a feasibility study of a product to include: economic, mar financial, and management factors, and provide recommendation
	Use and maintain technological products and systems.		8.2.12.D.3	Determine and use the appropriate resources (e.g., CNC (Comp Control) equipment, 3D printers, CAD software) in the design, creation of a technological product or system.
	Assess the and system	impact of products ns.	8.2.12.D.4 8.2.12.D.5	Assess the impacts of emerging technologies on developing cou Explain how material processing impacts the quality of enginee products.
			8.2.12.D.6	Synthesize data, analyze trends and draw conclusions regarding technology on the individual, society, or the environment and p
Content A	l Area	Technology		
Standard		8.2 Technology Ed All students will de	velop an under	neering, Design, and Computational Thinking - Programming: rstanding of the nature and impact of technology, engineering, tec rsigned world as they relate to the individual, global society, and t
Strand				ogramming: Computational thinking builds and enhances probovledge to creating knowledge.
Grade Level bands	Content Statement Students will be able to understand:		Indicator	Indicator
K-2	· ·	onal thinking and programming as	8.2.2.E.1	List and demonstrate the steps to an everyday task.
		in design and	8.2.2.E.2	Demonstrate an understanding of how a computer takes in of written commands and then interprets and displays info
			8.2.2.E.3	Create algorithms (a sets of instructions) using a pre-defin (e.g., to move a student or a character through a maze).
			8.2.2.E.4	Debug an algorithm (i.e., correct an error).

		8.2.2.E.5	Use appropriate terms in conversation (e.g., basic vocabul output, the operating system, debug, and algorithm).
3-5	Computational thinking and computer programming as tools used in design and engineering.	8.2.5.E.1	Identify how computer programming impacts our everyday live
		8.2.5.E.2	Demonstrate an understanding of how a computer takes input o stores the data through a series of commands, and outputs infor
		8.2.5.E.3	Using a simple, visual programming language, create a program and procedures to generate specific output.
		8.2.5.E.4	Use appropriate terms in conversation (e.g., algorithm, program procedures, memory, storage, processing, software, coding, pro
6-8	Computational thinking and computer programming as tools used in design and engineering.	8.2.8.E.1	Identify ways computers are used that have had an impact acros activity and within different careers where they are used.
		8.2.8.E.2	Demonstrate an understanding of the relationship between hard
		8.2.8.E.3	Develop an algorithm to solve an assigned problem using a spear and use peer review to critique the solution.
		8.2.8.E.4	Use appropriate terms in conversation (e.g., programming, lang ROM, Boolean logic terms).
9-12	Computational thinking and computer programming as tools used in design and engineering.	8.2.12.E.1	Demonstrate an understanding of the problem-solving capacity world.
		8.2.12.E.2	Analyze the relationships between internal and external co
		8.2.12.E.3	Use a programming language to solve problems or accomprobatic functions, website designs, applications, and game
		8.2.12.E.4	Use appropriate terms in conversation (e.g., troubleshootir diagnostic software, GUI, abstraction, variables, data type statements).
