Unit Overview

Unit 3 – Acrylic Painting

1. Allow students to experiment with various drawing techniques, overlapping objects, foreshortening, and acrylic techniques.
2. Explore color theory and mixing paint
3. Allow students to discover the diversity in and connections among forms of artistic expression throughout history and from around the globe.
4. Allow students to learn about how people have responded to and communicated their experiences through art making by exploring art in its historic and cultural contexts.
5. Welcome students into the global art world as active participants, engaging with its forms and content as they research, discuss, read, and write about art, artists, art making, and responses to and interpretations of art.
6. Explore global art with the development of deep conceptual understandings and art historical skills.

Enduring Understanding

ENDURING UNDESTANDING

1. Recognize that Acrylic paint may be thinned with water and used as washes in the manner of watercolor paints, but the washes are not re-hydratable once dry.
2. Recognize only an artist-grade acrylic gesso should be used to prime canvas in preparation for painting with acrylic.
3. Recognize that sgraffito is particularly useful for drawing into acrylic paint to suggest shape and form using a palette knife or any pointed object to create interesting textures and outlines.
4. Recognize the technique of scraping back and removing large sections of paint, leaving a textured finish below.
5. Recognize a common technique employed to strengthen form is to use the end of the brush to score into impasto paint. Combs, forks, or any rigid instrument can be used to scratch into the paint to create texture. It is, however, best to AVOID scratching into dry paint, for this may damage the canvas.
6. Recognize that tonking is the technique that can be very useful for acrylic painters. When an area becomes overloaded with paint, this is the best way of reducing the amount of paint without disturbing the underlying structure of what has been laid down.
7. Glazing is a method of laying one thin wash of color over another so that each layer modifies the one below. Glazes are very thin, so that light can travel through and be reflected back. This gives them their luminous quality.
8. Recognize glazing is a method of laying one thin wash of color over another so that each layer modifies the one below. Glazes are very thin, so that light can travel through and be reflected back. This gives them their luminous quality
9. Recognize when dry, acrylic paint is generally non-removable from a solid surface. Water or mild solvents do not re-solubilize it.
10. Careers in art, commercial illustration and design.

Essential Questions

ESSENTIAL QUESTIONS

1. What is art and how is it made?

2. Why and how does art change?
3. How do we describe our thinking of art?
4. Why do we study painting, specifically painting with acrylic paint?
5. What are characteristics and techniques specific to acrylic painting?
6. How does an artist determine whether an image should be portrayed realistically or manipulated for aesthetic reasons?
7. How do I express thoughts using vocabulary specific to acrylic painting?
8. How does one develop one's aesthetic?
9. How do I show my growing knowledge of visual art?

Exit Skills

By the end of Unit 3:

1. All students will demonstrate an understanding of drawing & painting by:
 - Creating proportionally correct overlapping objects and anatomically correct art
 - Creating original works of art using the techniques acrylic painting.
 - Recognize and describe works of art in terms of the use of the techniques and in written material.
 - Critique and synthesize the works of art of peers and predecessors.
2. All students will comprehend complex literary and informational texts independently and proficiently.
3. All students will understand the role, development, and influence of art throughout history and across cultures.
 - Demonstrate an understanding of the elements and principles that govern the creation of works of visual art.
 - Understand the role, development, and influence of the arts throughout history and across cultures.
 - Synthesize those skills, media, methods, and technologies appropriate to creating visual art.
 - Manipulate materials and ideas to create an aesthetic object.
 - Art making is shaped by tradition and change.
 - Interpretations of art are variable.

4. All students will recognize the unique career paths in the art world.

Learning Objectives

LEARNING OBJECTIVES

1. Identify differentiated components of form, function, content and/or context of a work of art.
2. Produce original works of art using elements and principles of art.
3. Recognize and describe works of art in terms of the use of the design principles and in written materials.
4. Differentiate between objective and subjective thoughts.
5. Differentiate between sgraffito, tonking, scraping back, and glazing.
6. Demonstrate an understanding of tools, acrylic paint, materials, and proper maintenance.
7. Identify, plan, and provide solutions for the application of acrylic paint.
8. Incorporate proper use of vocabulary throughout the painting process.
9. Recognize the cause and effect relationship between art and society as seen throughout history.
10. Discover ground-breaking uses of space in traditional and new mediums and experiment with new approaches to portraying positive and negative space in art installation or new media artwork.
11. Incorporate proper use of vocabulary throughout the painting process.

Action Verbs: Below are examples of action verbs associated with each level of the Revised Bloom's Taxonomy.

Differentiation

1. Students will have the same subject matter but will have different outcomes.
2. Progress will be the same but the product will be different.
3. Guided instruction, direct instruction, group instruction.
4. Assist students with IEP & 504 guidelines.
5. Study guides, group and peer instruction, extended time/ test time, oral testing
6. Small group instruction
7. Small group assignments
8. Extra time to complete assignments
9. Pairing oral instruction with visuals
10. Repeat directions
11. Scheduled breaks
12. Rephrase written directions
13. Alternative formative and summative assessment
14. Leveled rubrics
15. Project-based learning
16. Exploration by interest
17. Open-ended activities

Special Education Learning (IEP's & 504's)

1. Preview of content, concepts, and vocabulary

2. Behavior management plan
3. Have student repeat directions to check for understanding
4. Teacher initiated weekly assignment sheet
5. Assistive technology
6. Check work frequently for understanding
7. Secure attention before giving instruction/directions
8. multi-sensory presentation
8. Preferential seating
9. Reduced/shortened written assignments
10. Printed copy of board work/notes provided
11. Peer tutoring
12. Testing with counselor
13. Additional time for skill mastery

- printed copy of board work/notes provided
- additional time for skill mastery
- assistive technology
- behavior management plan
- Center-Based Instruction
- check work frequently for understanding
- computer or electronic device utilizes
- extended time on tests/ quizzes
- have student repeat directions to check for understanding
- highlighted text visual presentation
- modified assignment format
- modified test content
- modified test format
- modified test length
- multi-sensory presentation
- multiple test sessions
- preferential seating
- preview of content, concepts, and vocabulary
- Provide modifications as dictated in the student's IEP/504 plan
- reduced/shortened reading assignments
- Reduced/shortened written assignments
- secure attention before giving instruction/directions
- shortened assignments
- student working with an assigned partner
- teacher initiated weekly assignment sheet

- Use open book, study guides, test prototypes

English Language Learning (ELL)

1. Using videos, illustrations, pictures, and drawings to explain or clarify
2. Teaching key aspects of a topic. Eliminate nonessential information
3. Having peers take notes or providing a copy of the teacher's notes
4. Providing study guides
5. Allowing students to correct errors (looking for understanding)
6. Reducing or omitting lengthy outside reading assignments
7. Allowing products (projects, timelines, demonstrations, models, drawings, dioramas, poster boards, charts, graphs, slide shows, videos, etc.) to demonstrate student's learning;
8. Provide an interpreter
9. Translate study guides

- teaching key aspects of a topic. Eliminate nonessential information
- using videos, illustrations, pictures, and drawings to explain or clarify
- allowing products (projects, timelines, demonstrations, models, drawings, dioramas, poster boards, charts, graphs, slide shows, videos, etc.) to demonstrate student's learning;
- allowing students to correct errors (looking for understanding)
- allowing the use of note cards or open-book during testing
- decreasing the amount of work presented or required
- having peers take notes or providing a copy of the teacher's notes
- modifying tests to reflect selected objectives
- providing study guides
- reducing or omitting lengthy outside reading assignments
- reducing the number of answer choices on a multiple choice test
- tutoring by peers
- using computer word processing spell check and grammar check features
- using true/false, matching, or fill in the blank tests in lieu of essay tests

At Risk

1. decreasing the amount of work presented or required
2. using videos, illustrations, pictures, and drawings to explain or clarify
3. tutoring by peers
4. having peers take notes or providing a copy of the teacher's notes
5. providing study guides
6. allowing students to correct errors (looking for understanding)
7. marking students' correct and acceptable work, not the mistakes

8. reducing or omitting lengthy outside reading assignments
9. allowing products (projects, timelines, demonstrations, models, drawings, dioramas, poster boards, charts, graphs, slide shows, videos, etc.) to demonstrate student's learning
10. modifying tests to reflect selected objectives
11. allowing the use of note cards or open-book during tests
12. communicating anatomy lesson with counselor, parent/guardians
13. after school anatomy drawing tutoring
14. extra one-on-one class time relating to anatomy drawing

- allowing students to correct errors (looking for understanding)
- teaching key aspects of a topic. Eliminate nonessential information
- allowing products (projects, timelines, demonstrations, models, drawings, dioramas, poster boards, charts, graphs, slide shows, videos, etc.) to demonstrate student's learning
- allowing students to select from given choices
- allowing the use of note cards or open-book during testing
- collaborating (general education teacher and specialist) to modify vocabulary, omit or modify items to reflect objectives for the student, eliminate sections of the test, and determine how the grade will be determined prior to giving the test.
- decreasing the amount of work presented or required
- having peers take notes or providing a copy of the teacher's notes
- marking students' correct and acceptable work, not the mistakes
- modifying tests to reflect selected objectives
- providing study guides
- reducing or omitting lengthy outside reading assignments
- reducing the number of answer choices on a multiple choice test
- tutoring by peers
- using authentic assessments with real-life problem-solving
- using true/false, matching, or fill in the blank tests in lieu of essay tests
- using videos, illustrations, pictures, and drawings to explain or clarify

Talented and Gifted Learning (T&G)

1. Create a blog or social media page about their unit
2. Debate issues with research to support arguments
3. Complete activities aligned with above grade level text using Benchmark results
4. Advanced problem-solving
5. Above grade level placement option for qualified students
6. Higher order, critical & creative thinking skills, and discovery
7. Flexible skill grouping within a class or across grade level for rigor
8. Teacher-selected instructional strategies that are focused to provide challenge, engagement, and growth opportunities
9. Multi-disciplinary unit and/or project
10. Allow students to work at a faster pace
11. Communicating with parent/guardian regarding after school anatomy classes
12. Communicating with parent/guardian regarding college opportunities
13. Offering after school anatomy art experiences

14. Communicating with parent/guardian regarding after school anatomy classes

15. Communicating with parent/guardian regarding college opportunities

16. Offering after school anatomy art experiences in district

- Above grade level placement option for qualified students
- Advanced problem-solving
- Allow students to work at a faster pace
- Cluster grouping
- Complete activities aligned with above grade level text using Benchmark results
- Create a blog or social media page about their unit
- Create a plan to solve an issue presented in the class or in a text
- Debate issues with research to support arguments
- Flexible skill grouping within a class or across grade level for rigor
- Higher order, critical & creative thinking skills, and discovery
- Multi-disciplinary unit and/or project
- Teacher-selected instructional strategies that are focused to provide challenge, engagement, and growth opportunities
- Utilize exploratory connections to higher-grade concepts
- Utilize project-based learning for greater depth of knowledge
