Board Approved: September 23, 2019

Unit Overview

Unit Five will introduce the concepts and methods for mastering an audio recording.

Mastering:

- This unit will introduce students to the concepts and methods for mastering an audio recording.
- The students will learn the difference between mixing an audio recording and mastering an audio recording.
- The unit will involve all the previous works created by the students in the creation of a final project.

Enduring Understanding

- The basic differentiation between mixing an audio recording and mastering an audio recording.
- The concepts of what it is to master an audio recording.
 - Unifying the sound of the recording.
 - Maintaining a consistent sound across the album.
 - Preparing the album for distribution (depending upon medium).
- The basic methods of mastering an audio recording.

- It is important to have knowledge of the concepts and methods of mastering an audio recording to create a product viable for consumption by the intended audience.

Essential Questions

- How do I unify the sound of an audio recording?
- How do I maintain a consistent sound across an album?
- How do I prepare the album for distribution?
- How does the knowledge of the concepts and methods of mastering an audio recording help me to better understand how the audio they consume sounds the way it does?

Exit Skills

By the end of Unit Five:

- All students will demonstrate an understanding of mastering by:
 - Taking a quiz on the concepts and methods of mastering an audio recording.
 - Applying the concepts and methods of mastering an audio recording to all cumulative audio projects by:
 - Unifying the sound of all cumulative audio projects.
 - Maintaining a consistent sound across the album of all cumulative audio projects.
 - Preparing that album for distribution.
 - The students will have some sort of understanding of how to master an audio recording to create an audio product that is consumable by others.

9.3.12.AR.1	Analyze the interdependence of the technical and artistic elements of various careers within the Arts, A/V Technology & Communications Career Cluster.
9.3.12.AR.5	Describe the career opportunities and means to achieve those opportunities in each of the Arts, A/V Technology & Communications Career Pathways.
9.3.12.AR.6	Evaluate technological advancements and tools that are essential to occupations within the Arts, A/V Technology & Communications Career Cluster.

Learning Objectives

After completing Unit Five the students will be able to:

Appraise the qualities of the audio recording and apply the proper effects and equalization to the audio.

Formulate a cohesive sound that will apply to all tracks of audio in the album.

Critique the application of the mastering methods to the album using various audio playback devices.

Transform the audio tracks that have been recorded into a final product that can be consumed and enjoyed by the masses.

Primary Resources & Materials

Materials to be used for for this course may include, but not be be limited to:

- YouTube videos
- Websites
- Information accessible via websites
- Chromebooks
- Smart TV
- PCs with audio production hardware

Ancillary Resources

Ancillary resources may include, but not be limited to:

- Musical instruments
- Instrument amplifiers

- Non-student performances

Technology Infusion

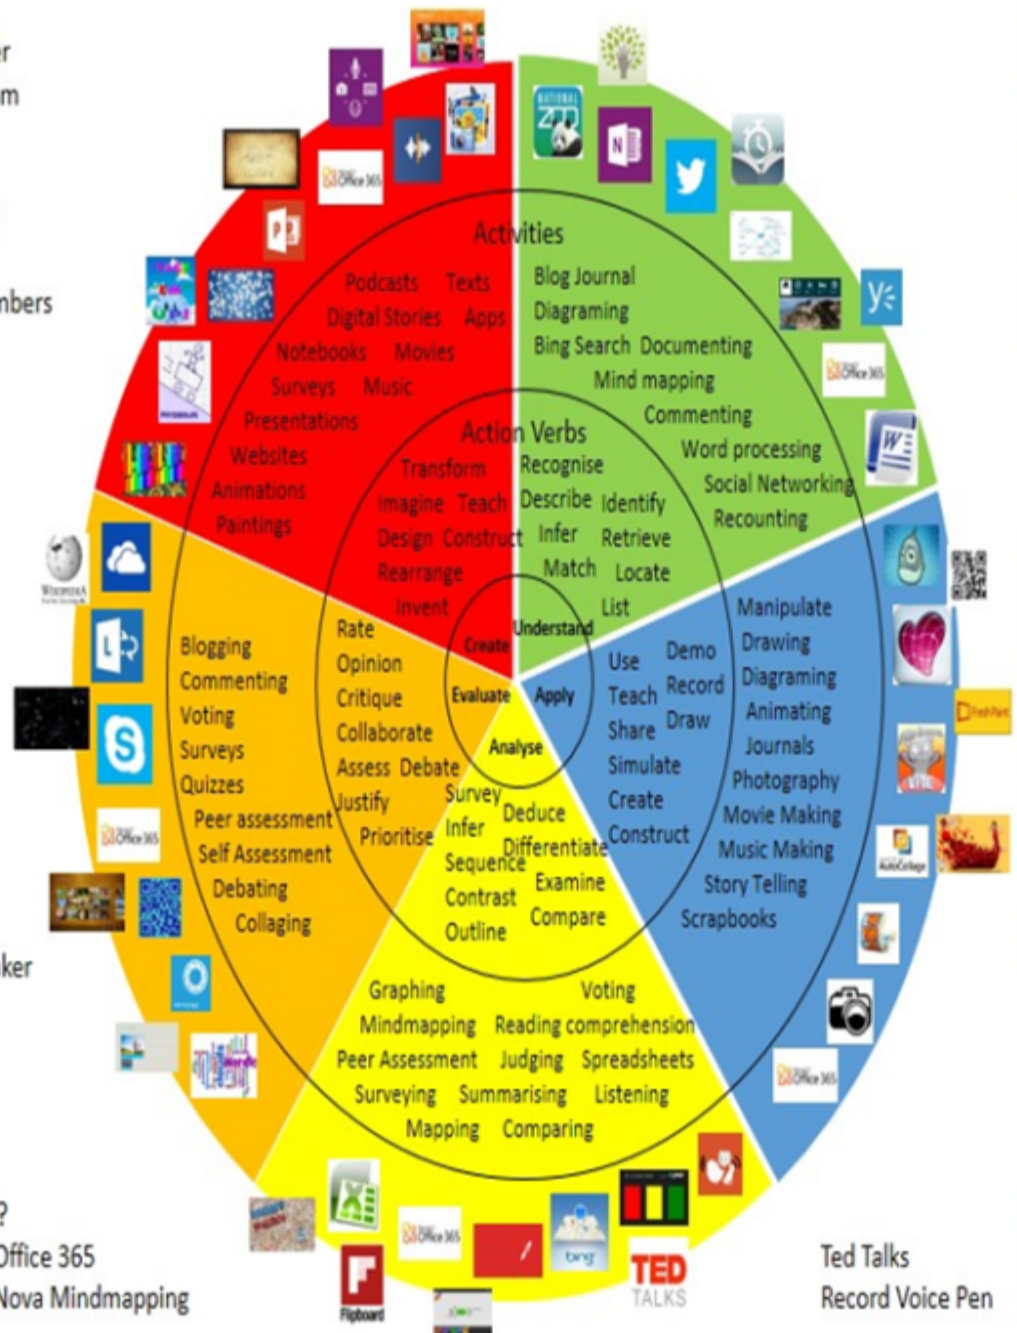

- Music Maker Jam
- Podcasts
- Khan Academy
- Twitter
- Windows Movie Maker
- Wikipedia
- TED Talks

What **Technology Infusion** and/or strategies are integrated into this unit to enhance learning? Please list all hardware, software and strategies. Please find a technology pedagogy wheel for assistance while completing this section.

Differentiation

- Students will have the same subject matter but will have different outcomes.
 - Progress will be the same but the product will be different.
 - Guided instruction, direct instruction, group instruction.
 - Assist students with IEP & 504 guidelines.
 - Study guides, group and peer instruction, extended time/ test time, oral testing
 - Small group instruction
 - Small group assignments
 - Extra time to complete assignments
 - Pairing oral instruction with visuals
 - Repeat directions
 - Scheduled breaks
 - Rephrase written directions
-
- Alternative formative and summative assessment
 - Leveled rubrics
 - Project-based learning
-
- Exploration by interest
 - Open-ended activities

Special Education Learning (IEP's & 504's)

- additional time for skill mastery
- preview of content, concepts, and vocabulary
- behavior management plan
- have student repeat directions to check for understanding
- teacher initiated weekly assignment sheet
- assistive technology
- check work frequently for understanding
- secure attention before giving instruction/directions
- multi-sensory presentation
- preferential seating
- Reduced/shortened written assignments

- printed copy of board work/notes provided

- printed copy of board work/notes provided
- additional time for skill mastery
- assistive technology
- behavior management plan
- Center-Based Instruction
- check work frequently for understanding
- computer or electronic device utilizes
- extended time on tests/ quizzes
- have student repeat directions to check for understanding
- highlighted text visual presentation
- modified assignment format
- modified test content
- modified test format
- modified test length
- multi-sensory presentation
- multiple test sessions
- preferential seating
- preview of content, concepts, and vocabulary
- Provide modifications as dictated in the student's IEP/504 plan
- reduced/shortened reading assignments
- Reduced/shortened written assignments
- secure attention before giving instruction/directions
- shortened assignments
- student working with an assigned partner

Talented and Gifted Learning (T&G)

- Create a blog or social media page about their unit
 - Debate issues with research to support arguments
 - Complete activities aligned with above grade level text using Benchmark results
 - Advanced problem-solving
 - Above grade level placement option for qualified students
 - Higher order, critical & creative thinking skills, and discovery
 - Flexible skill grouping within a class or across grade level for rigor
 - Teacher-selected instructional strategies that are focused to provide challenge, engagement, and growth opportunities
 - Multi-disciplinary unit and/or project
 - Allow students to work at a faster pace

Sample Lesson

Unit Name: Unit Five: Mastering

NJSLS: See Above

Interdisciplinary Connection: Technology, social studies/history

Statement of Objective: SWDAT understand the basic differentiation between mixing an audio recording and mastering an audio recording.

Anticipatory Set/Do Now: Students will split up into groups to help each other and critique their audio recordings.

Learning Activity: Students will observe classmates and critique each others' recordings.

Student Assessment/CFU's: Class discussion, quiz

Materials: Videos, examples of such technologies

21st Century Themes and Skills: Communication and Collaboration, Information Literacy, Media Literacy

Differentiation/Modifications: Preferential seating for observing video, allowance for necessary repetition during discussion, extra time for quiz

Integration of Technology: Google Classroom, access to internet for YouTube videos and other exemplary materials
