Belleville, NJ 07109

Prepared by: CHRISTINE DRISKILL, Visual Arts Teacher

Dr. Richard Tomko, Ph.D., M.J., Superintendent of Schools

Ms. LucyAnn Demikoff, Director of Curriculum and Instruction K-12

Ms. Nicole Shanklin, Director of Elementary Education

Mr. Joseph Lepo, Director of Secondary Education

Board Approved:

Art educators are responsible for creating effective and creative lessons designed to accommodate all learning levels for all students in our district while also addressing the NJSLs for the State of New Jersey. Interdisciplinary connections are achieved and noted where applicable. Art history and cultural connections are included as well. NJSLs are also included and noted in each section.

Areas of content include the **Elements of Art: color, value, shape, form, space, line, and texture**. Another main focus is made on the **Principles of Design**, which are: **balance, unity, directional movement, focal point, variety, rhythm, proportion and emphasis**. There are many basic concepts that underlie the field of design. They are often categorized differently depending on philosophy or teaching methodology. Other variations may include: **dominance, harmony, contrast, repetition, gradation, and functionality**. The principles can also be broken down into more specifics such as **symmetrical and asymmetrical; similarity, proximity and alignment; positive and negative space; rule of thirds; visual center; typography; closure; continuance, contrast or opposition** - the list goes on...

The purpose of the guide is to present a sequential plan in the area of Fine Art Lessons. This visual based curriculum includes lessons in creating, exploring, and critiquing, as well as historical and cultural aspects of the artistic eras. Each lesson is designed to allow students to use learned methods and skill, explore new mediums, embrace their personal creativity and self expression, research art history, participate in critiques, and help students find their soul connection to their art work and teach them to believe in themselves and all their mind and individual creativity has to offer.

This curriculum guide should be revised as specified to meet the standards and provide optimal educational opportunities. Modifications or adaptations can be utilized to promote differentiated learning for all students. This visual arts curriculum accommodates and empowers a multitude of learning styles and abilities. The sequential format of skill-building lessons will provide the basis for continuity, understanding and accomplishment in the area of visual arts.

Unit Overview

Unit 1 - ELEMENTS OF ART, PRINCIPLES OF DESIGN

O1 Allow students to discover the diversity in and connections among forms of communication throughout history.

O2 Students will learn how people have responded to and communicated their experiences through art by exploring form and function.

O3 Introduce students to the art world as active participants, engaging with its forms and content as they research, discuss design, artists, the design process

and interpretations of design.

O4 Allow students to use their knowledge of the Elements of Art (line, shape, form, color, space, texture) and the Principles of Design (balance, emphasis,

movement, repetition, rhythm, variety, unity)

Enduring Understanding

EU1 Creativity and innovative thinking are essential life skills that can be developed.

EU2 Artists and designers experiment with forms, structures, materials, concepts, media, and art-making approaches.

EU3 Artists and designers develop excellence through practice and constructive critique, reflecting on, revising, and refining

EU4 Objects, artifacts, and artworks collected, preserved, or presented either by artists, museum, or other venues communicate

meaning and a record of social, cultural, and political experiences resulting in the cultivating of appreciation and understanding.

EU5 Visual imagery influences understanding of and responses to the world.

EU6 Through art making, people make meaning by investigating and developing awareness of perceptions, knowledge, and

experiences.

EU7 A lighter area placed next to a darker area will create a separation. Drawing a line is not necessary.

EU8 The Elements of Art are line, shape, form, space, value, color, and texture. They are the building blocks

of visual works of art.

They allow us to analyze, appreciate, create and present art.

EU9 The Principles of Design are pattern, emphasis, unity, balance, contrast, rhythm & movement. They organize the Elements in

a work of art.

Essential Questions

EQ1 What conditions, attitudes, and behaviors support creativity and innovative thinking?

EQ2 How do artist work?

EQ3 What role does persistence play?

EQ4 What is an art museum?

EQ5 What is an image?

EQ6 How does engaging in creating art enrich people's lives?

EQ7 How does tonality (value) create edges of objects?
