Board Approved:

Unit Overview

UNIT 3 - RELIEF

1. Allow students an overview of the basic processes and materials used to create prints.
2. Explore how digital citizenship is important to every artist and designer.
3. Emphasize creative problem solving.
4. Establish “Design Thinking” so students develop good habits with regards to research,
5. Sketching and idea development.

Enduring Understanding

Enduring understandings:

1. The study of the basic processes and materials of relief printmaking.
2. Recognize multiple relief printing techniques and apply their experiences to a final relief print.
3. Digital citizenship includes the norms of appropriate, responsible technology use, especially copyright, plagiarism, and fair use.
4. Students will be presented with an overview of the basic types of relief prints and the history of printmaking as an art form.
5. An understanding of the elements and principles are vital in art, design, and specifically as they provide the tools to create the greatest impact on a viewer.
6. An edition signature gives prints a distinction and limited edition. Archiving art and design work helps document ideas, research, innovations, skills, and work process.
7. Impact of historical attitudes toward relief printmaking.
8. The clarity of a work of art and its ability to communicate can be affected by the manner in which it is shown.
9. Aesthetic knowledge fosters artistic appreciation and critical analysis that can be tapped into throughout a lifetime.
10. Aesthetic knowledge facilitates interpretation of both one's individuality and those of others.

Essential Questions

Essential Questions

1. How do you prepare an image for a relief print?
2. How do you create the plate for a relief print?
3. How do you print the edition for a relief print?
4. Why is digital citizenship important in printmaking?
5. How will prints be created in this course?
6. Why are the elements and design principles important to printmaking?

7. Why is the edition signature and the idea of archiving work important in printmaking?

Exit Skills

By the end of Unit 3:

All students will demonstrate an understanding of relief printing by:

1. Exhibiting printmaking media and techniques that demonstrate sensitivity and subtlety in use of media, engagement with experimentation and/or risk taking, and informed decision-making.
2. Using line expressively to communicate ideas
3. Using shapes expressively to communicate ideas
4. Using value expressively to communicate ideas
5. Using rhythm expressively
6. Using textures expressively to communicate ideas
7. Using balance expressively

Differentiation

1. Students will have the same subject matter but will have different outcomes.
2. Progress will be the same but the product will be different.
3. Guided instruction, direct instruction, group instruction.
4. Assist students with IEP & 504 guidelines.
5. Study guides, group and peer instruction, extended time/ test time, oral testing
6. Small group instruction
7. Small group assignments
8. Extra time to complete assignments
9. Pairing oral instruction with visuals
10. Repeat directions
11. Scheduled breaks
12. Rephrase written directions
13. Alternative formative and summative assessment
14. Leveled rubrics
15. Project-based learning
16. Exploration by interest
17. Open-ended activities

Special Education Learning (IEP's & 504's)

1. Preview of content, concepts, and vocabulary
2. Behavior management plan
3. Have student repeat directions to check for understanding
4. Teacher initiated weekly assignment sheet
5. Assistive technology
6. Check work frequently for understanding
7. Secure attention before giving instruction/directions
8. multi-sensory presentation

8. Preferential seating
9. Reduced/shortened written assignments
10. Printed copy of board work/notes provided
11. Peer tutoring
12. Testing with counselor

13. Additional time for skill mastery

- printed copy of board work/notes provided
- additional time for skill mastery
- assistive technology
- behavior management plan
- Center-Based Instruction
- check work frequently for understanding
- computer or electronic device utilizes
- extended time on tests/ quizzes
- have student repeat directions to check for understanding
- highlighted text visual presentation
- modified assignment format
- modified test content
- modified test format
- modified test length
- multiple test sessions
- multi-sensory presentation
- preferential seating
- preview of content, concepts, and vocabulary
- Provide modifications as dictated in the student's IEP/504 plan
- reduced/shortened reading assignments
- Reduced/shortened written assignments
- secure attention before giving instruction/directions
- shortened assignments
- student working with an assigned partner
- teacher initiated weekly assignment sheet
- Use open book, study guides, test prototypes

English Language Learning (ELL)

1. Using videos, illustrations, pictures, and drawings to explain or clarify
2. Teaching key aspects of a topic. Eliminate nonessential information
3. Having peers take notes or providing a copy of the teacher's notes
4. Providing study guides

5. Allowing students to correct errors (looking for understanding)
6. Reducing or omitting lengthy outside reading assignments
7. Allowing products (projects, timelines, demonstrations, models, drawings, dioramas, poster boards, charts, graphs, slide shows, videos, etc.) to demonstrate student's learning;
8. Provide an interpreter
9. Translate study guides

- teaching key aspects of a topic. Eliminate nonessential information
- using videos, illustrations, pictures, and drawings to explain or clarify
- allowing products (projects, timelines, demonstrations, models, drawings, dioramas, poster boards, charts, graphs, slide shows, videos, etc.) to demonstrate student's learning;
- allowing students to correct errors (looking for understanding)
- allowing the use of note cards or open-book during testing
- decreasing the amount of work presented or required
- having peers take notes or providing a copy of the teacher's notes
- modifying tests to reflect selected objectives
- providing study guides
- reducing or omitting lengthy outside reading assignments
- reducing the number of answer choices on a multiple choice test
- tutoring by peers
- using computer word processing spell check and grammar check features
- using true/false, matching, or fill in the blank tests in lieu of essay tests

At Risk

1. decreasing the amount of work presented or required
2. using videos, illustrations, pictures, and drawings to explain or clarify
3. tutoring by peers
4. having peers take notes or providing a copy of the teacher's notes
5. providing study guides
6. allowing students to correct errors (looking for understanding)
7. marking students' correct and acceptable work, not the mistakes
8. reducing or omitting lengthy outside reading assignments
9. allowing products (projects, timelines, demonstrations, models, drawings, dioramas, poster boards, charts, graphs, slide shows, videos, etc.) to demonstrate student's learning
10. modifying tests to reflect selected objectives
11. allowing the use of note cards or open-book during tests
12. communicating anatomy lesson with counselor, parent/guardians
13. after school anatomy drawing tutoring
14. extra one-on-one class time relating to anatomy drawing

- allowing students to correct errors (looking for understanding)
- teaching key aspects of a topic. Eliminate nonessential information
- allowing products (projects, timelines, demonstrations, models, drawings, dioramas, poster boards, charts, graphs, slide shows, videos, etc.) to demonstrate student's learning
- allowing students to select from given choices
- allowing the use of note cards or open-book during testing
- collaborating (general education teacher and specialist) to modify vocabulary, omit or modify items to reflect objectives for the student, eliminate sections of the test, and determine how the grade will be determined prior to giving the test.
- decreasing the amount of work presented or required
- having peers take notes or providing a copy of the teacher's notes
- marking students' correct and acceptable work, not the mistakes
- modifying tests to reflect selected objectives
- providing study guides
- reducing or omitting lengthy outside reading assignments
- reducing the number of answer choices on a multiple choice test
- tutoring by peers
- using authentic assessments with real-life problem-solving
- using true/false, matching, or fill in the blank tests in lieu of essay tests
- using videos, illustrations, pictures, and drawings to explain or clarify

Talented and Gifted Learning (T&G)

1. Create a blog or social media page about their unit
2. Debate issues with research to support arguments
3. Complete activities aligned with above grade level text using Benchmark results
4. Advanced problem-solving
5. Above grade level placement option for qualified students
6. Higher order, critical & creative thinking skills, and discovery
7. Flexible skill grouping within a class or across grade level for rigor
8. Teacher-selected instructional strategies that are focused to provide challenge, engagement, and growth opportunities
9. Multi-disciplinary unit and/or project
10. Allow students to work at a faster pace
11. Communicating with parent/guardian regarding after school anatomy classes
12. Communicating with parent/guardian regarding college opportunities
13. Offering after school anatomy art experiences
14. Communicating with parent/guardian regarding after school anatomy classes
15. Communicating with parent/guardian regarding college opportunities
16. Offering after school anatomy art experiences in district

- Above grade level placement option for qualified students
- Advanced problem-solving
- Allow students to work at a faster pace
- Cluster grouping

- Complete activities aligned with above grade level text using Benchmark results
- Create a blog or social media page about their unit
- Create a plan to solve an issue presented in the class or in a text
- Debate issues with research to support arguments
- Flexible skill grouping within a class or across grade level for rigor
- Higher order, critical & creative thinking skills, and discovery
- Multi-disciplinary unit and/or project
- Teacher-selected instructional strategies that are focused to provide challenge, engagement, and growth opportunities
- Utilize exploratory connections to higher-grade concepts
- Utilize project-based learning for greater depth of knowledge
