Unit Overview

Students will synthesize improvisational skills with choreographic devices, structures and elements to create a dance work.

Enduring Understanding

Choreography is a process. Dance first, think later.

Essential Questions

- What is your creative process?
- How can improvisation lead to composition?
- What are the choreographic structures, devices and elements?
- How do we structure a dance?
- How do professional choreographers use the choreographic devices, structures and elements to convey meaning?

Exit Skills

- Differentiate between a solo, duet, trio and group piece of choreography
- Importance of improvisation skills and their significant relationship to choreography
- How to structure a complete piece of choreography
- Proper stage directions from all viewpoints
- Leadership skills and collaboration: how to take on the role of an instructor/choreographer and communicate movement ideas clearly to other dancers and ultimately to an audience

- Basic aesthetic principles
- Importance of selecting the right accompaniment and/or music choice. Music shouldn't overpower the dancer
- Simultaneously arrange movement, music and tempo in a clear manner
- Constructively criticize and evaluate one's own work and the work of others; the ability to speak clearly about one's thoughts on movement ideas
