Suggested Activities & Best Practices

Students will deliver an impromptu speech to the class (2-3 minutes in length) on a random topic chosen out of a hat. This will help students realize how important it is to know the topic thoroughly and practice the speech before its delivery.

Students will then research the topic chosen for the impromptu speech and deliver a speech after research and practice. This will help students understand how important knowledge of a topic and practicing is in all of their oral presentations in all classes instead of just "winging it".
