Unit Overview

Throughout Unit 6: Ordinary Lives, Extraordinary Tales, you will read many examples about the human condition. Students will understand that the similarities between all human being far outnumbers the differences and how individuals can make an impact on their community, through direct involvement and advocacy.

Enduring Understanding

Enduring understandings:

- By reading and evaluating narrative texts and short stories, students will better understand the various ways writers have for telling a story.
- By kerning the elements of a narrative as a writing mode and writing their own narratives, students will write for a number of reasons including organizing and sharing ideas, reflecting on experiences, and gathering evidence by researching to clarify and explore ideas.
- By developing a deeper understanding of style choices and practicing the elements of a story in their own writing, students will perfect narrative writing.
- By working together to build on one another's ideas, develop a consensus, and communicate with their peers, students will learn how to incorporate audio, visuals, and text in presentations.

Essential Questions

What do stories reveal about the human condition?

Suggested Activities & Best Practices

Example: Assign a book talk project and have students work in their student centered groups to create a rubric for the assignment.

Student Centered Learning: Students should either have already selected groups or groups of their choosing and we ready to jigsaw or answer higher order thinking discussion questions related to the theme or topic of the piece of literature being discussed.

Use of Rubrics: After discussing an assignment, allow students to create what they believe to be a fair rubric for assessing the assignment. This allows the students to have a say in how they will be graded as well as accountability for the assignment.

Starting classes with a "Do Now" activity: Using a connection to life question that relates to the piece of literature will make the students be able to connect to the text and jump start to discussion.

Allowing students to choose their own projects: Having a variety of projects that the students can choose from helps address all learning types. This will allow the students to choose the project they feel they can be most successful in completing.

Brainstorming: This helps in the writing process because it will allow the student to know if they are grasping the topic.

Jigsaw: Students will work in groups on advanced questions and then teach the other groups their findings.

Unit Name: Narrative writing

NJSLS:

Interdisciplinary Connection: Social Studies

Statement of Objective: SWDAT discuss, analyze and create writing samples on the topic of narrative writing.

Anticipatory Set/Do Now: To begin, inform your students that when people write, they write with a specific **author's purpose**, or reason for writing, in mind. Explain that there are three components to author's purpose, expressed with the acronym PIE: to persuade, to inform, and to entertain.

Learning Activity: Display the definitions of each purpose to show students what they mean: **persuade**: to convince; **inform**: to teach or give facts about a topic; **entertain**: to provide amusement)

Materials: Smartboard, Ilit program

21st Century Themes and Skills:

Differentiation: Allow students additional time to research the topic in the L1, pair students with proficient speakers.

Integration of Technology: Smartboard
