Unit Overview

The unit World's End includes several short stories centered on the theme of challenges and imagining the future. The unit provides students with an opportunity to practice reading strategies using a selection that extends the overall theme of the collection. The stories included in the unit expose students to literature that includes conflicts between people and monsters, real or imaginary. In the unit, student will interpret the various elements of short stories, analyze character behavior, respond to literature through written responses and class discussions, and demonstrate the ability to think critically and problem solve.

Enduring Understanding

Enduring Understanding:

- Conflict is the basic ingredient in stories, therefore analyzing conflict, both internal and external is crucial for reflection and comprehension.
- Which matter more- the present or future?
- Reflection, both mentally and in written form is important.
- Stories that present conflict and challenges help the reader absorb the courage, the strength, and the wisdom to confront conflicts and problem solve in real life.
- Readers develop a deeper understanding through reflection of text.
- Readers use strategies to construct meaning.

Suggested Activities & Best Practices

Example: Students should write a journal on the "Do Now" essential question, "Why do people think about the future?"

Student Centered Learning: Students should either have already selected groups or groups of their choosing and be ready to jigsaw or answer higher order thinking discussion questions related to the theme or topic of the piece of literature being discussed.

Use of Rubrics: After discussing an assignment, allow students to create what they believe to be a fair rubric for assessing the assignment. This allows the students to have a say in how they will be graded as well as accountability for the assignment.

Starting classes with a "Do Now" activity: Using a connection to life question that relates to the piece of literature will make the students be able to connect to the text and jump start to discussion.

Allowing students to choose their own projects: Having a variety of projects that the students can choose from helps address all learning types. This will allow the students to choose the project they feel they can be most successful in completing.

Brainstorming: This helps in the writing process because it will allow the student to know if they are

grasping the topic

Writing Process: Having students be involved in the writer's workshop process of writing

Assessment Evidence - Checking for Understanding (CFU)

Example: Students should read "Fire and Ice" and answer a written assessment on how the theme relates to the essential question. (summative assessment)

English Language Learning (ELL)

Example: Students should work on reading the poem "Fire and Ice" in various ways to help improve their understanding. The teacher should read it aloud, the student should read it on his/her own, and the student should read and analyze in the small groups in class. Students should be provided copies in their native language to facilitate with understanding.

- teaching key aspects of a topic. Eliminate nonessential information
- using videos, illustrations, pictures, and drawings to explain or clarify
- allowing products (projects, timelines, demonstrations, models, drawings, dioramas, poster boards, charts, graphs, slide shows, videos, etc.) to demonstrate student's learning;
- allowing students to correct errors (looking for understanding)
- allowing the use of note cards or open-book during testing
- decreasing the amount of work presented or required
- having peers take notes or providing a copy of the teacher's notes
- modifying tests to reflect selected objectives
