Board Approved: September 23, 2019

Unit Overview

Throughout this unit, students will come to understand how to identify effects of alcohol on their blood alcohol level. They will be able to define blood alcohol concentration and identify concentration levels. They will also understand the effects of other drugs on the body and how they impact driving performance and overall safety.

Enduring Understanding

Students will know alcohols effect on the body and how this impairs driving.

Students will learn the telltale signs of a drunk driver.

Students will know the drinking and driving penalties.

Students will learn the short- and long-term effects of alcohol.

Essential Questions

How does alcohol impair the body's ability to drive?

What are some signs a drunk driver on the road may show?

What are ways you can prevent others from drinking and driving?

Are the penalties for drinking and driving too light, too harsh, or just right?

How does the New Jersey driver's license point system work, and why are points bad?

Exit Skills

By the end of Unit 4, the student should be able to:

Promote safe driving habits to their peers through a variety of media forms.

Evaluate current driving laws and debate if they are effective or need to be altered identifying why if so.

Utilize drunk goggles to understand ways alcohol impairs the body.

Identify ways to help others become more aware of laws, including the Move Over Law.

New Jersey Student Learning Standards (NJSLs)

HPE.2.1.12.D.1	Determine the causes and outcomes of intentional and unintentional injuries in adolescents and young adults and propose prevention strategies.
HPE.2.1.12.D.3	Analyze the relationship between alcohol and drug use and the incidence of motor vehicle crashes.
HPE.2.1.12.D.4	Develop a rationale to persuade peers to comply with traffic safety laws and avoid driving distractors.
HPE.2.1.12.D.5	Summarize New Jersey motor vehicle laws and regulations and determine their impact on health and safety (e.g., organ/tissue donation, seatbelt use, and the use of hand-held devices).
HPE.2.2.12.D.1	Plan and implement an advocacy strategy to stimulate action on a state, national, or global health issue, including but not limited to, organ/tissue donation.

Interdisciplinary Connections

LA.RL.9-10.1	Cite strong and thorough textual evidence and make relevant connections to support analysis of what the text says explicitly as well as inferentially, including determining where the text leaves matters uncertain.
LA.RST.9-10.2	Determine the central ideas, themes, or conclusions of a text; trace the text's explanation or depiction of a complex process, phenomenon, or concept; provide an accurate summary of the text.
LA.RI.9-10.1	Accurately cite strong and thorough textual evidence, (e.g., via discussion, written response, etc.) and make relevant connections, to support analysis of what the text says explicitly as well as inferentially, including determining where the text leaves matters uncertain.
LA.RST.9-10.4	Determine the meaning of symbols, key terms, and other domain-specific words and phrases as they are used in a specific scientific or technical context relevant to grades 9-10

	texts and topics.
LA.RST.9-10.7	Translate quantitative or technical information expressed in words in a text into visual form (e.g., a table or chart) and translate information expressed visually or mathematically (e.g., in an equation) into words.
LA.WHST.9-10.2.A	Introduce a topic and organize ideas, concepts, and information to make important connections and distinctions; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aiding comprehension.
LA.WHST.9-10.4	Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.

Learning Objectives

Students will be able to:

Recognize the effects emotions and distractions play on the driving task.

Explain how anger can affect your ability to drive

Understand how to manage their emotions while driving

Describe the influence emotions have on your willingness to accept risks

Explain how passengers can help a driver

Identify the risks of distracted driving, i.e- texting while driving

Understand the effects alcohol and other drugs have on one's ability to operate a motor vehicle and the State of NJ traffic laws governing the use of alcohol/drugs and while driving.

Explain how alcohol/drugs affect mental and physical abilities needed to operate a vehicle

Define blood-alcohol concentration

Explain factors that affect blood-alcohol concentration

Understand the effects of combining alcohol with other drugs when operating a vehicle.

Explain what is meant by implied consent

Describe zero- tolerance levels for intoxication and explain how these levels are measured

Identify the laws and penalties for driving under the influence

Develop coping tactics for dealing with peer pressure.

Identify how peer pressure might affect one's decision about drinking and driving -

Identify steps involved in making a responsible decision

Explain how and why everyone should share the responsibility of preventing friends from drinking and driving.

Suggested Activities & Best Practices

Have a guest speaker who has obtained a DUI and discuss the civil/criminal repercussions associated with it.

Have a police officer speak to students about drinking and driving and DUI.

Research current local and country wide statistics about teen drinking and alcohol related deaths

Have a student debate on the pros and cons of the implied consent rule.

Assessment Evidence - Checking for Understanding (CFU)

- In groups create a diagram of how driving under the influence can affect the driver and others around. - alternative assessment
 - Pop Quiz including laws to driving under the influence and the consequences that come with it. - summative assessment
 - Draw basic rules of the road using road signs. - formative assessment
 - Identify basic driving laws on the road with short answers or an essay. - summative assessment
 - Presentations - alternative assessment
 - Class discussions and debates - formative assessment
 - Make connections to the outside world and own life - formative assessment
 - Homework - formative assessment
 - Tests/quizzes - summative assessment
 - Notebook assignments - alternative assessment

21st Century Skills/Interdisciplinary Themes

Upon completion of this section, please remove all remaining descriptions, notes, outlines, examples and/or illustrations that are not needed or used.

Please list only the **21st Century/Interdisciplinary Themes** that will be incorporated into this unit.

- Communication and Collaboration
- Creativity and Innovation
- Critical thinking and Problem Solving
- ICT (Information, Communications and Technology) Literacy
- Information Literacy
- Life and Career Skills
- Media Literacy

21st Century Skills

Upon completion of this section, please remove all remaining descriptions, notes, outlines, examples and/or illustrations that are not needed or used.

Please list only the **21st Century Skills** that will be incorporated into this unit.

- Civic Literacy
- Environmental Literacy
- Financial, Economic, Business and Entrepreneurial Literacy
- Global Awareness
- Health Literacy

Differentiation

- Extended time to complete assignments
- Student requires more complex assignments to be broken up and explained in smaller units, with work to be submitted in phases.
- Provide the student with clearly stated (written) expectations and grading criteria for assignments.
- Extended time on classroom tests and quizzes
- Student may take/complete tests in an alternate setting as needed
- Restate, reread, and clarify directions/questions
- Distribute study guide for classroom tests

Please identify the ones that will be employed in this unit.

Differentiations:

- Small group instruction
- Small group assignments
- Extra time to complete assignments
- Pairing oral instruction with visuals
- Repeat directions
- Use manipulatives
- Center-based instruction
- Token economy
- Study guides
- Teacher reads assessments allowed
- Scheduled breaks
- Rephrase written directions
- Multisensory approaches
- Additional time
- Preview vocabulary
- Preview content & concepts
- Story guides
- Behavior management plan
- Highlight text
- Student(s) work with assigned partner
- Visual presentation
- Assistive technology
- Auditory presentations
- Large print edition
- Dictation to scribe
- Small group setting

Hi-Prep Differentiations:

- Alternative formative and summative assessments
- Choice boards
- Games and tournaments
- Group investigations
- Guided Reading
- Independent research and projects

- Interest groups
- Learning contracts
- Leveled rubrics
- Literature circles
- Multiple intelligence options
- Multiple texts
- Personal agendas
- Project-based learning
- Problem-based learning
- Stations/centers
- Think-Tac-Toes
- Tiered activities/assignments
- Tiered products
- Varying organizers for instructions

Lo-Prep Differentiations

- Choice of books or activities
- Cubing activities
- Exploration by interest
- Flexible grouping
- Goal setting with students
- Jigsaw
- Mini workshops to re-teach or extend skills
- Open-ended activities
- Think-Pair-Share
- Reading buddies
- Varied journal prompts
- Varied supplemental materials

Special Education Learning (IEP's & 504's)

Provide guided notes and/or copy of PowerPoint during lectures

Limit oral reading unless student volunteers

Extended time on assessments

Repeat/clarify directions if necessary

Break down or modify reading assignments to ensure student is able to comprehend passages

Orally read any long passages on classwork/homework assignments

Provide a study guide for all assessments

- printed copy of board work/notes provided
- additional time for skill mastery
- assistive technology
- behavior management plan
- Center-Based Instruction
- check work frequently for understanding
- computer or electronic device utilizes
- extended time on tests/ quizzes
- have student repeat directions to check for understanding
- highlighted text visual presentation
- modified assignment format
- modified test content
- modified test format
- modified test length
- multi-sensory presentation
- multiple test sessions
- preferential seating
- preview of content, concepts, and vocabulary
- Provide modifications as dictated in the student's IEP/504 plan
- reduced/shortened reading assignments
- Reduced/shortened written assignments
- secure attention before giving instruction/directions
- shortened assignments
- student working with an assigned partner
- teacher initiated weekly assignment sheet
- Use open book, study guides, test prototypes

English Language Learning (ELL)

- Develop clear objectives for each lesson that are communicated in multiple ways
- Maintain a word wall that includes visual cues
- Preteach vocabulary using multimedia and/or realia
- Link concepts to student background when possible
- Connect new concepts of learning to prior learning
- Provide students with multiple, short opportunities to practice in relevant, meaningful ways.
- Divide content into meaningful short chunks by meaning and length

- teaching key aspects of a topic. Eliminate nonessential information
- using videos, illustrations, pictures, and drawings to explain or clarify
- allowing products (projects, timelines, demonstrations, models, drawings, dioramas, poster boards, charts, graphs, slide shows, videos, etc.) to demonstrate student's learning;
- allowing students to correct errors (looking for understanding)
- allowing the use of note cards or open-book during testing
- decreasing the amount of work presented or required
- having peers take notes or providing a copy of the teacher's notes
- modifying tests to reflect selected objectives
- providing study guides
- reducing or omitting lengthy outside reading assignments
- reducing the number of answer choices on a multiple choice test
- tutoring by peers
- using computer word processing spell check and grammar check features
- using true/false, matching, or fill in the blank tests in lieu of essay tests

At Risk

Redirect student attention through cueing

Repeat/clarify directions and check for understanding frequently; have student orally restate directions

Assist student with breaking down projects and long term assignments into manageable parts and specify time lines and short term goals

Break down or modify major writing assignments into a step by step process

Grade projects based on content not creativity

Retest failures after meeting and completing previous assignments in a timely manner

- allowing students to correct errors (looking for understanding)
- teaching key aspects of a topic. Eliminate nonessential information
- allowing products (projects, timelines, demonstrations, models, drawings, dioramas, poster boards, charts, graphs, slide shows, videos, etc.) to demonstrate student's learning
- allowing students to select from given choices
- allowing the use of note cards or open-book during testing
- collaborating (general education teacher and specialist) to modify vocabulary, omit or modify items to reflect objectives for the student, eliminate sections of the test, and determine how the grade will be determined prior to giving the test.
- decreasing the amount of work presented or required

- having peers take notes or providing a copy of the teacher's notes
- marking students' correct and acceptable work, not the mistakes
- modifying tests to reflect selected objectives
- providing study guides
- reducing or omitting lengthy outside reading assignments
- reducing the number of answer choices on a multiple choice test
- tutoring by peers
- using authentic assessments with real-life problem-solving
- using true/false, matching, or fill in the blank tests in lieu of essay tests
- using videos, illustrations, pictures, and drawings to explain or clarify

Talented and Gifted Learning (T&G)

- Student led teaching activities related to topics within the scope civil/criminal repercussions while driving under the influence of drugs or alcohol.
 - Conduct research and provide presentation of topics related to Drivers' Education both nationally and globally.
 - Design surveys to generate and analyze data to be used in discussion. Debate topics of interest/importance within Drivers' Education.
 - Use of higher-level questioning techniques
 - Provide assessments at a higher-level of thinking
-
- Above grade level placement option for qualified students
 - Advanced problem-solving
 - Allow students to work at a faster pace
 - Cluster grouping
 - Complete activities aligned with above grade level text using Benchmark results
 - Create a blog or social media page about their unit
 - Create a plan to solve an issue presented in the class or in a text
 - Debate issues with research to support arguments
 - Flexible skill grouping within a class or across grade level for rigor
 - Higher order, critical & creative thinking skills, and discovery
 - Multi-disciplinary unit and/or project
 - Teacher-selected instructional strategies that are focused to provide challenge, engagement, and growth opportunities
 - Utilize exploratory connections to higher-grade concepts
 - Utilize project-based learning for greater depth of knowledge
