

Unit 4 Airports and Airspace

Content Area: **STEM**
Course(s): **Intro to Drone Flying**
Time Period: **MarApr**
Length: **30 days**
Status: **Published**

Title Section

Department of Curriculum and Instruction

Belleville Public Schools

Curriculum Guide

**INTRODUCTION TO DRONE FLYING, GRADES
10 TO 12**

AIRPORTS AND AIRSPACE

Belleville Board of Education

102 Passaic Avenue

Belleville, NJ 07109

Prepared by: **CHRISTINE PUCCIO**

Dr. Richard Tomko, Ph.D., M.J., Superintendent of Schools

Ms. LucyAnn Demikoff, Director of Curriculum and Instruction K-12

Ms. Nicole Shanklin, Director of Elementary Education K-8

Mr. George Droste, Director of Secondary Education

Board Approved:

Unit Overview

- This unit shows students the information about airports that can be found on sectional charts and terminal area charts.
- There are different markings to indicate classes of airspace and obstacles.
- There is a legend provided in the Airman Knowledge Supplement that can remind drone operators what each symbol and color represents.
- Airports can be located by latitude and longitude on the different types of charts.
- Information like airport abbreviations, radio frequencies, and altitudes are shown next to airports on these charts.
- Locations can be found by latitude (degrees N or S) and longitude (degrees E or W).
- Runways have different numbers, and are positioned according to the approaching wind.
- Airports can have left pattern or right pattern traffic, as indicated by charts.

Enduring Understanding

Enduring understandings:

- Sectional and Terminal Area charts can be found on skyvector.com, vfrmap.com, and on the FAA website.
- Terminal Area charts show twice as much detail as Sectional charts.
- The Airman Supplement legend can help remind drone operators of the different colors and types of lines used for each airspace class.
- The legend can also explain what obstacle each symbol represents, the altitude of the airport and obstacles, and the radio frequencies used for communication and weather.
- Most of the latitudes and longitudes in the United States are in degrees and minutes west (of the Prime Meridian) and north (of the equator).
- Runways are laid out according to the direction of the wind (in clockwise degrees from magnetic north) approaching them.
- Most airport traffic patterns are left pattern (circling to the left), but the chart will indicate which airports have right pattern traffic (RP).

Essential Questions

- What can be found on Sectional and Terminal Area charts?
- Where can Sectional and Terminal Area charts be found?
- Is there any time where using a Sectional chart is more/less convenient than using a Terminal Area chart?
- How can the Airman Supplement legend be used to help drone operators interpret aeronautical charts?
- How can an aeronautical chart be used to find latitude and longitude?
- What is the difference between left pattern and right pattern traffic?
- How does the type of pattern traffic affect the location of the downwind leg?
- What is the relation to the heading direction and the runway direction?

Exit Skills

By the end Unit 4, the student should be able to:

- Use Sectional and Terminal Area charts to find out basic airport information.
- Use Terminal Area charts and Chart Supplements U.S. to find out additional hazards/activities that may occur near airports.
- Use an aeronautical chart to determine the airspace class, traffic pattern, identifier code, type of tower of an airport.
- Identify which frequencies are used for weather and which are used for pilot communication.
- Use an aeronautical chart to determine the latitude and longitude coordinates of a given location.
- Use an aeronautical chart to determine the floor/ceiling of a given airspace region.
- Use the Airman Supplement legend to determine whether an obstacle's altitude is measured in AGL or MSL.
- Understand the movement of right pattern and left pattern traffic.
- Identify the heading direction and the upwind direction needed to use a given runway.

New Jersey Student Learning Standards (NJSLS-S)

SCI.HS-PS4-2	Evaluate questions about the advantages of using a digital transmission and storage of information.
SCI.HS-PS4-5	Communicate technical information about how some technological devices use the principles of wave behavior and wave interactions with matter to transmit and capture information and energy.
SCI.HS-ESS3-1	Construct an explanation based on evidence for how the availability of natural resources, occurrence of natural hazards, and climate change have influenced human activity.
SCI.HS-ESS3-2	Evaluate competing design solutions for developing, managing, and utilizing energy and mineral resources based on cost-benefit ratios.
SCI.HS-ETS1-1	Analyze a major global challenge to specify qualitative and quantitative criteria and constraints for solutions that account for societal needs and wants.
SCI.HS-ETS1-2	Design a solution to a complex real-world problem by breaking it down into smaller, more manageable problems that can be solved through engineering.
SCI.HS-ETS1-3	Evaluate a solution to a complex real-world problem based on prioritized criteria and trade-offs that account for a range of constraints, including cost, safety, reliability, and aesthetics, as well as possible social, cultural, and environmental impacts.
SCI.HS-PS2-1	Analyze data to support the claim that Newton's second law of motion describes the mathematical relationship among the net force on a macroscopic object, its mass, and its acceleration.
SCI.HS-PS2-2	Use mathematical representations to support the claim that the total momentum of a system of objects is conserved when there is no net force on the system.

Interdisciplinary Connections

MA.K-12.5	Use appropriate tools strategically.
MA.N-Q.A.1	Use units as a way to understand problems and to guide the solution of multi-step problems; choose and interpret units consistently in formulas; choose and interpret the scale and the origin in graphs and data displays.
MA.K-12.6	Attend to precision.
MA.N-Q.A.3	Choose a level of accuracy appropriate to limitations on measurement when reporting quantities.
LA.SL.11-12.4	Present information, findings and supporting evidence clearly, concisely, and logically. The content, organization, development, and style are appropriate to task, purpose, and audience.
LA.L.11-12.6	Acquire and use accurately general academic and domain-specific words and phrases, sufficient for reading, writing, speaking, and listening at the college and career readiness level; demonstrate independence in gathering vocabulary knowledge when considering a word or phrase important to comprehension or expression.
CRP.K-12.CRP2	Apply appropriate academic and technical skills.
CRP.K-12.CRP4	Communicate clearly and effectively and with reason.
TECH.8.1.12.A.CS2	Select and use applications effectively and productively.
TECH.8.1.12.E.CS2	Locate, organize, analyze, evaluate, synthesize, and ethically use information from a

variety of sources and media.

TECH.8.1.12.E.CS3

Evaluate and select information sources and digital tools based on the appropriateness for specific tasks.

TECH.8.2.12.D.CS2

Use and maintain technological products and systems.

Learning Objectives

- Determine the actions that have been taken to minimize noise and air pollution, which improve the quality of air, especially around airports.
- Categorize airports by class and type, by reviewing sectional and terminal area charts.
- Develop a list of activities taking place near airports by reviewing the U.S. Chart Supplements.
- Compare the information and print size of a sectional chart to that of a terminal area chart.
- Calculate the maximum altitude that a drone can fly in an area, given the altitudes of the obstacles.
- Identify the latitude and longitude of an airport, given a small section of an aeronautical chart.
- Calculate the maximum altitude or minimum altitude of a flight class section, given a aeronautical chart.
- Diagram a runway, given the traffic pattern of the airport and runway number.

Action Verbs: Below are examples of action verbs associated with each level of the Revised Bloom's Taxonomy.

Remember	Understand	Apply	Analyze	Evaluate	Create
Choose	Classify	Choose	Categorize	Appraise	Combine
Describe	Defend	Dramatize	Classify	Judge	Compose
Define	Demonstrate	Explain	Compare	Criticize	Construct
Label	Distinguish	Generalize	Differentiate	Defend	Design
List	Explain	Judge	Distinguish	Compare	Develop
Locate	Express	Organize	Identify	Assess	Formulate
Match	Extend	Paint	Infer	Conclude	Hypothesize
Memorize	Give Examples	Prepare	Point out	Contrast	Invent
Name	Illustrate	Produce	Select	Critique	Make
Omit	Indicate	Select	Subdivide	Determine	Originate
Recite	Interrelate	Show	Survey	Grade	Organize
Select	Interpret	Sketch	Arrange	Justify	Plan
State	Infer	Solve	Breakdown	Measure	Produce
Count	Match	Use	Combine	Rank	Role Play
Draw	Paraphrase	Add	Detect	Rate	Drive

	Extrapolate	Subtract			
	Generalize				
	Predict				

Suggested Activities & Best Practices

Materials:

- Syma XSC-1 2.4G drone
- FS-i6S drone simulator

Best Practices:

- Use of scaffolded notes, where students fill in blanks
- Station activities, based on interest and level of understanding
- Hands-on activities to familiarize with parts of a drone and the control station
- Google Classroom organized around units of study

Supplemental Materials:

- faa.gov
- skyop.com
- Various part 107 test prep books
- www.dslrpros.com
- youtube.com
- https://jrupprechtlaw.com/part-107-knowledge-test#Part_107_Practice_Initial_Knowledge_Exam_Quiz

Assessment and Learning:

- edulastic.com
- whiteboard.fi/whiteboard.chat
- Jamboard
- Google Forms
- Google Classroom
- quizizz.com
- oncourse.com

Techniques:

- dronelegends.com
- youcanfly.aopa.org/high-school
- stem.org

Motivation and Mindset:

- dronenodes.com/how-to-fly-a-quadcopter-beginner-guide
- youtube.com (Katia's Buzz TV, Tony & Chelsea Northrup, Altitude University, Peter Rulon)

Assessment Evidence - Checking for Understanding (CFU)

- Edulastic Formative Assessment (Formative)
- quizizz.com - Teacher Made Topics (Formative)
- skyop.com online quizzes (Formative)
- Benchmarks on OnCourse (Summative/Benchmark)
- "Do Now/Exit Ticket" Activity (Formative)

- Admit Tickets
- Anticipation Guide
- Common Benchmarks
- Compare & Contrast
- Define
- Describe
- Evaluate

- Evaluation rubrics
- Exit Tickets
- Explaining
- Illustration
- Journals
- Learning Center Activities
- Multimedia Reports
- Outline
- Question Stems
- Quizzes
- Self- assessments
- Study Guide
- Teacher Observation Checklist
- Think, Pair, Share
- Think, Write, Pair, Share
- Unit review/Test prep
- Unit tests
- Web-Based Assessments
- Written Reports

Primary Resources & Materials

Upon completion of this section, please remove all remaining descriptions, notes, outlines, examples and/or illustrations that are not needed or used.

Please list all district-provided Primary Resources & Materials and/or those outside that are accessed with district resources.

Ancillary Resources

Upon completion of this section, please remove all remaining descriptions, notes, outlines, examples and/or illustrations that are not needed or used.

Please list all additional resources that will be used to strengthen this unit's lessons.

Technology Infusion

Upon completion of this sections, please remove all remaining descriptions, notes, outlines, examples and/or illustrations that are not needed or used.

What **Technology Infusion** and/or strategies are integrated into this unit to enhance learning? Please list all hardware, software and strategies. Please find a technology pedagogy wheel for assistance while completing this section.

Alignment to 21st Century Skills & Technology

- English Language Arts;
- Mathematics;
- Science and Scientific Inquiry (Next Generation);
- Technology;

21st Century Skills/Interdisciplinary Themes

Please list only the 21st Century/Interdisciplinary Themes that will be incorporated into this unit.

- Communication and Collaboration
- Creativity and Innovation
- Critical thinking and Problem Solving
- ICT (Information, Communications and Technology) Literacy
- Information Literacy
- Life and Career Skills
- Media Literacy

21st Century Skills

Please list only the 21st Century Skills that will be incorporated into this unit.

- Civic Literacy
- Environmental Literacy
- Financial, Economic, Business and Entrepreneurial Literacy

Differentiation

Differentiations:

- Small group instruction
- Small group assignments
- Extra time to complete assignments
- Pairing oral instruction with visuals
- Repeat directions

- Center-based instruction
- Study guides
- Teacher reads assessments allowed
- Scheduled breaks
- Rephrase written directions
- Multisensory approaches
- Additional time
- Preview vocabulary
- Preview content & concepts
- Behavior management plan
- Highlight text
- Student(s) work with assigned partner
- Visual presentation
- Assistive technology
- Auditory presentations
- Small group setting

Hi-Prep Differentiations:

- Alternative formative and summative assessments
- Choice boards
- Games and tournaments
- Learning contracts
- Leveled rubrics
- Multiple intelligence options
- Project-based learning
- Problem-based learning
- Stations/centers
- Tiered activities/assignments
- Tiered products

Lo-Prep Differentiations

- Choice of books or activities
- Flexible grouping
- Goal setting with students
- Mini workshops to re-teach or extend skills
- Open-ended activities
- Think-Pair-Share
- Varied journal prompts
- Varied supplemental materials

- printed copy of board work/notes provided
- additional time for skill mastery
- assistive technology
- behavior management plan
- Center-Based Instruction
- check work frequently for understanding
- computer or electronic device utilizes
- extended time on tests/ quizzes
- have student repeat directions to check for understanding
- highlighted text visual presentation
- modified assignment format
- multi-sensory presentation
- multiple test sessions
- preferential seating
- preview of content, concepts, and vocabulary
- Provide modifications as dictated in the student's IEP/504 plan
- Reduced/shortened written assignments
- secure attention before giving instruction/directions
- shortened assignments
- student working with an assigned partner
- teacher initiated weekly assignment sheet
- Use open book, study guides, test prototypes

English Language Learning (ELL)

- teaching key aspects of a topic. Eliminate nonessential information
- using videos, illustrations, pictures, and drawings to explain or clarify
- allowing products (projects, timelines, demonstrations, models, drawings, dioramas, poster boards, charts, graphs, slide shows, videos, etc.) to demonstrate student's learning;
- allowing students to correct errors (looking for understanding)
- allowing the use of note cards or open-book during testing
- decreasing the amount of work presented or required
- having peers take notes or providing a copy of the teacher's notes
- providing study guides
- tutoring by peers
- using computer word processing spell check and grammar check features

At Risk

- allowing students to correct errors (looking for understanding)
- teaching key aspects of a topic. Eliminate nonessential information
- allowing products (projects, timelines, demonstrations, models, drawings, dioramas, poster boards, charts, graphs, slide shows, videos, etc.) to demonstrate student's learning
- allowing students to select from given choices
- allowing the use of note cards or open-book during testing
- collaborating (general education teacher and specialist) to modify vocabulary, omit or modify items to reflect objectives for the student, eliminate sections of the test, and determine how the grade will be determined prior to giving the test.
- decreasing the amount of work presented or required
- having peers take notes or providing a copy of the teacher's notes
- marking students' correct and acceptable work, not the mistakes
- providing study guides
- tutoring by peers
- using authentic assessments with real-life problem-solving
- using videos, illustrations, pictures, and drawings to explain or clarify

Talented and Gifted Learning (T&G)

- Above grade level placement option for qualified students
- Advanced problem-solving
- Allow students to work at a faster pace
- Cluster grouping
- Complete activities aligned with above grade level text using Benchmark results
- Flexible skill grouping within a class or across grade level for rigor
- Higher order, critical & creative thinking skills, and discovery
- Multi-disciplinary unit and/or project
- Teacher-selected instructional strategies that are focused to provide challenge, engagement, and growth opportunities
- Utilize exploratory connections to higher-grade concepts
- Utilize project-based learning for greater depth of knowledge
