Unit Overview

When a student has completed his or her health science education, he or she will be ready to obtain a position in health care. Two things that may help a student prepare for health care positions are externships and internships, which are work experiences that may offer them the opportunity to gain experience in his or her chosen field. This unit discusses characteristics of a good employee, job preparation, writing cover letters and resumes, completing application forms, and participating in a job interview.

Enduring Understanding

- To develop job readiness skills by participating in structured learning experiences and employment seeking opportunities
- To determine the extent to which an individual's online behavior(e.g. social networking, photo exchanges, video postings) may impact opportunities for employment, job retention, or job advancement
- To demonstrate knowledge of human structure and function as well as diseases and disorders to pursue a full range of postsecondary education and career opportunities in this cluster

- To evaluate and use information resources to accomplish occupational tasks
- To demonstrate skills related to seeking and applying for employment in a desired job
- To examine licensing, certification, and credentialing requirements at national, state, and local levels to maintain compliance with industry requirements

Essential Questions

- Why is it just as important to learn the skills necessary to obtain a job as the skills needed in your chosen profession?

Why do you think the team concept applies to the health profession?

Exit Skills

Upon completion of INTRO TO HEALTH OCCUPATIONS, UNIT 3, students will be able to:

- Create a cover letter
- Write a professional resume
- Feel comfortable in an interview setting
- Understand how to prepare for an interview
