Unit 3: Socialization

Belleville Board of Education

102 Passaic Avenue

Belleville, NJ 07109

Unit Overview

Unit 3 examines:

- the common forms of social interaction
- how these interactions affect society
- sociological components within society such as "status" and "role"
- how technology is used by scientists to classify societies
- the use of groups within a society including primary and secondary groups
- apply the use of nonverbal communication skills

Enduring Understanding

1. Sociologists identify five common forms of social interaction; exchange, competition, conflict,

cooperation, and accommodation.

2. Social structure is the network of interrelated statuses and roles that guides human interaction.

3. A status is a socially defined position in society, while a role is the behavior attached to a status.

4. Sociologists classify societies according to groups including informal/formal organization.

5. Groups affect how people react to one another including primary, secondary, in-group, out-group.

6. Sociologists recognize three broad categories of society; preindustrial, industrial, and postindustrial.

7. Groups are the foundation of social life and they differ in terms of size, organization and purpose.

Essential Questions

What are the main components of social structure and what are their effects on interaction?

What are the five common types of social interaction and how do they affect social structure?

How do sociologists classify and categorize societies?

What are the forms and functions of groups within society?

What kinds of groups are formed and how do they affect society?

What do sociologists mean by the term "status"?

How are status and roles related? What are social institutions?

How did preindustrial society lead to industrial/post-industrialization today?

How do sociologists define the term group and what is their main function?

What types of groups do sociologists recognize and how do these differ from formal organizations?

Exit Skills

By the end of Unit 3,

1. Students should be able to apply domain-specific vocabulary such as status; role; secondary groups in their various assessments.

2. Students should be able to choose a side to a query and provide logical argument for their choice.

3. Students should be able to deductively use new information and logically apply this evidence to a related problem.

4. Students should be able to inductively gather information and deduce a theory based on their findings.

5. Students should be able to gather information in meaningful clusters and apply their findings to specific problems.

6. Students should be able to apply nonverbal communication skills and explain how they are used in everyday society.

Alignment to 21st Century Skills & Technology

Mastery and infusion of **21st Century Skills & Technology** and their Alignment to the core content areas is essential to student learning. The core content areas include:

Research how military uses sociological concepts to create soldiers.

Breakdown social stereotypes

Analyze how technology has created a "new society".

- English Language Arts;
- Mathematics;
- Science and Scientific Inquiry (Next Generation);
- Social Studies, including American History, World History, Geography, Government and Civics, and Economics;
- World languages;
- Technology;
- Visual and Performing Arts.

TECH.8.1.12.A	Technology Operations and Concepts: Students demonstrate a sound understanding of technology concepts, systems and operations.
TECH.8.1.12.B	Creativity and Innovation: Students demonstrate creative thinking, construct knowledge and develop innovative products and process using technology.
TECH.8.1.12.C	Communication and Collaboration: Students use digital media and environments to communicate and work collaboratively, including at a distance, to support individual learning and contribute to the learning of others.
TECH.8.1.12.D	Digital Citizenship: Students understand human, cultural, and societal issues related to technology and practice legal and ethical behavior.
TECH.8.1.12.E	Research and Information Fluency: Students apply digital tools to gather, evaluate, and use information.

Differentiation

Differentiations:

- Small group instruction
- Small group assignments
- Extra time to complete assignments
- Pairing oral instruction with visuals
- Repeat directions
- Study guides
- Teacher reads assessments aloud
- Rephrase written directions
- Additional time
- Preview vocabulary
- Preview content & concepts
- Highlight text
- Student(s) work with assigned partner
- Visual presentation
- Assistive technology
- Auditory presentations
- Large print edition
- Dictation to scribe
- Small group setting

Hi-Prep Differentiations:

- Alternative formative and summative assessments
- Choice boards
- Group investigations
- Guided Reading
- Independent research and projects
- Interest groups
- Learning contracts
- Leveled rubrics
- Literature circles
- Multiple intelligence options
- Multiple texts
- Project-based learning
- Problem-based learning
- Tiered activities/assignments

- Tiered products
- Varying organizers for instructions

Lo-Prep Differentiations

- Choice of books or activities
- Exploration by interest
- Flexible grouping
- Goal setting with students
- Mini workshops to re-teach or extend skills
- Open-ended activities
- Varied journal prompts
- Varied supplemental materials

Special Education Learning (IEP's & 504's)

Use of vocabulary to introduce the sociological terms in this unit.

Extended time for Journals from the perspective of a character from Breakfast Club and how they were affected by social status.

Check students progress as they take notes on socialization.

Various choices of movie assessments with leveled Rubrics

- printed copy of board work/notes provided
- additional time for skill mastery
- assistive technology
- behavior management plan
- Center-Based Instruction
- check work frequently for understanding
- computer or electronic device utilizes
- extended time on tests/ quizzes
- have student repeat directions to check for understanding
- highlighted text visual presentation
- modified assignment format
- modified test content

- modified test format
- modified test length
- multi-sensory presentation
- multiple test sessions
- preferential seating
- preview of content, concepts, and vocabulary
- Provide modifications as dictated in the student's IEP/504 plan
- reduced/shortened reading assignments
- Reduced/shortened written assignments
- secure attention before giving instruction/directions
- shortened assignments
- student working with an assigned partner
- teacher initiated weekly assignment sheet
- Use open book, study guides, test prototypes

English Language Learning (ELL)

allowing students to work with other English speaking students on specific assignments

true/false assessments about various socialization aspects of society.

- teaching key aspects of a topic. Eliminate nonessential information
- using videos, illustrations, pictures, and drawings to explain or clarif
- allowing products (projects, timelines, demonstrations, models, drawings, dioramas, poster boards, charts, graphs, slide shows, videos, etc.) to demonstrate student's learning;
- allowing students to correct errors (looking for understanding)
- allowing the use of note cards or open-book during testing
- decreasing the amount of workpresented or required
- having peers take notes or providing a copy of the teacher's notes
- modifying tests to reflect selected objectives
- providing study guides
- reducing or omitting lengthy outside reading assignments
- reducing the number of answer choices on a multiple choice test
- tutoring by peers
- using computer word processing spell check and grammar check features
- using true/false, matching, or fill in the blank tests in lieu of essay tests

At Risk

provide a unit syllabus to help students stay focused

use real life examples when teaching about the struggles of the clash of social structure.

- allowing students to correct errors (looking for understanding)
- teaching key aspects of a topic. Eliminate nonessential information
- allowing products (projects, timelines, demonstrations, models, drawings, dioramas, poster boards, charts, graphs, slide shows, videos, etc.) to demonstrate student's learning
- allowing students to select from given choices
- allowing the use of note cards or open-book during testing
- collaborating (general education teacher and specialist) to modify vocabulary, omit or modify items to reflect objectives for the student, eliminate sections of the test, and determine how the grade will be determined prior to giving the test.
- decreasing the amount of workpresented or required
- having peers take notes or providing a copy of the teacher's notes
- marking students' correct and acceptable work, not the mistakes
- modifying tests to reflect selected objectives
- providing study guides
- reducing or omitting lengthy outside reading assignments
- reducing the number of answer choices on a multiple choice test
- tutoring by peers
- using authentic assessments with real-life problem-solving
- using true/false, matching, or fill in the blank tests in lieu of essay tests
- using videos, illustrations, pictures, and drawings to explain or clarify

Talented and Gifted Learning (T&G)

debate about how culture affects people in different social standings - use Movies such as Breakfast Club, Mean Girls, The Greastest Showman

investigate the ways society reacts to various social structures.

- Above grade level placement option for qualified students
- Advanced problem-solving
- Allow students to work at a faster pace
- Cluster grouping
- Complete activities aligned with above grade level text using Benchmark results
- Create a blog or social media page about their unit
- Create a plan to solve an issue presented in the class or in a text
- Debate issues with research to support arguments

- Flexible skill grouping within a class or across grade level for rigor

- Higher order, critical & creative thinking skills, and discovery

- Multi-disciplinary unit and/or project

- Teacher-selected instructional strategies that are focused to provide challenge, engagement, and growth opportunities

- Utilize exploratory connections to higher-grade concepts

- Utilize project-based learning for greater depth of knowledge
