- Discuss the basics of creating a resist technique, first use the medium that will prevent the other medium from affecting the surface, then apply the second medium atop the first medium.
- Demonstrate various types of resist techniques like crayon and watercolor, tape resist, or adhesive resists.
- Explore resist techniques.

Exit Skills

By the end of Unit 6:

- All students will demonstrate an understanding of resist techniques by:
 - Defining what a resist technique is.
 - Explaining the basics of resist techniques.
 - Creating a work of art that uses a resist technique.

Enduring Understanding

- Certain mediums create an unexpected effect due to the properties of their makeup.

- Mediums can be used to shield one area of artwork from another medium to create desired effects.
- Mediums can be used together to create more interesting art.

Essential Questions

- Why do people use resist techniques?
- What does it mean to resist?
- Are resist techniques used only in two-dimensional art?
- Have you ever seen a resist technique outside of the classroom?

Learning Objectives

After completing resist techniques, students will be able to:

Recall certain mediums that will not work together.

Explain what happens when mediums that don't work together are applied in the same area.

Manipulate a resist technique to create an artwork of their own.

Test different methods of resist technique to explore various outcomes.

Interdisciplinary Connection: Geometry

Statement of Objective: SWDAT recite and understand ROYGBIV by creating a drawing of birds and coloring them in in ROYGBIV order.

Anticipatory Set/Do Now: What order are the colors in a rainbow?

Learning Activity: Students will use masking tape to create circles on a sheet of paper. Each circle will represent a bird, we will add faces, legs and feathers. Once the drawing is completed students will sharpie over the pencil lines. Students will then color in their birds in ROYGBIV order.

Student Assessment/CFU's: Fist-to-five, Thumb-o-meter

Materials: Tag board cut to 6x18", pencils, erasers, masking tape rolls, sharpies, markers.

21st Century Themes and Skills: Creativity and Innovation, Critical Thinking and Problem Solving.

Differentiation: Visual demonstrations and aides available for visual learners; Class discussion and explanation for auditory learners; Physical creation, hands-on work, for kinesthetic learners.
