Exit Skills

By the end of Unit 1:

- All students will demonstrate an understanding of line by:
 - Defining what a line is.
 - Drawing various types of lines in different directions.
- All students will demonstrate an understanding of shape by:
 - Defining what a shape is.

Enduring Understanding

- Lines are used to communicate thoughts.
- Lines can create numbers, letters and shapes.
- Lines can be infinite.
- Shapes are created by lines.
- Shapes can be used to create images.

Essential Questions

- What are other forms of communication?
- Why do certain shapes have names?
- How does the understanding of sides to a shape help to interpret what shape is being drawn?

Learning Objectives

After completing lines and shapes, students will be able to:

List various types of lines and shapes.

Illustrate various types of shapes and lines.

Produce artwork using lines and shapes as a basis for their drawing.

Differentiate shapes by the number of sides they have.

Develop strong basis drawing skills.

Interdisciplinary Connections

MA.K.CC.A.3	Write numbers from 0 to 20. Represent a number of objects with a written numeral 0-20 (with 0 representing a count of no objects).
MA.K.CC.B.5	Count to answer "how many?" questions about as many as 20 things arranged in a line, a rectangular array, or a circle, or as many as 10 things in a scattered configuration; given a number from 1–20, count out that many objects.
MA.K.G.A	Identify and describe shapes (squares, circles, triangles, rectangles, hexagons, cubes, cones, cylinders, and spheres).
MA.K.G.A.2	Correctly name shapes regardless of their orientations or overall size.

1.3.2.D.5 Create works of art that are based on observations of the physical world and that illustrate how art is part of everyday life, using a variety of [art mediums](#) and [art media](#).

1.3.2.D.3 Employ basic verbal and visual art vocabulary to demonstrate knowledge of the materials, tools, and methodologies used to create and tell visual stories.

1.1.2.D.1 Identify the basic elements of art and principles of design in diverse types of artwork.

Interdisciplinary Connection: Geometry

Statement of Objective: SWDAT recite and understand ROYGBIV by creating a drawing of birds and coloring them in in ROYGBIV order.

Anticipatory Set/Do Now: What order are the colors in a rainbow?

Learning Activity: Students will use masking tape to create circles on a sheet of paper. Each circle will represent a bird, we will add faces, legs and feathers. Once the drawing is completed students will sharpie over the pencil lines. Students will then color in their birds in ROYGBIV order.

Student Assessment/CFU's: Fist-to-five, Thumb-o-meter

Materials: Tag board cut to 6x18", pencils, erasers, masking tape rolls, sharpies, markers.

21st Century Themes and Skills: Creativity and Innovation, Critical Thinking and Problem Solving.

Differentiation: Visual demonstrations and aides available for visual learners; Class discussion and explanation for auditory learners; Physical creation, hands-on work, for kinesthetic learners.

Integration of Technology: Examples will be shown on my computer, or my ipad, whenever applicable.
