Students will come into the library with their chromebooks and log on to it.

**Learning Activity:**

The media specialist will instruct the student on the steps they need to follow in order to access the libraries website and databases, and the importance of using these sources vs. web search sources. Together the media specialist and the class will work on a database fact quest so students become familiar with the databases and online encyclopedias with a focus on the databases that are for high school students.

Students will then use the discussed databases to complete the last part of the fact quest themselves.
