Prepared by: Ms. Toni Ann Ferraiolo

Dr. Richard Tomko, Ph.D., M.J., Superintendent of Schools

Ms. LucyAnn Demikoff, Director of Curriculum and Instruction K-12

Unit Overview

- In this unit, we explore works of fiction, historical fiction, and informational texts for the argumentative essay/speech. Students will continue to review theme, character analysis, and plot development in order to connect the text to their lives. Students will develop their literary skills by continuing to cite textual evidence within their writing. Furthermore, they will examine various types of text structure in order to identify and explain characteristics of various literary genres.
- In addition, students may read works of historical fiction and discuss how author's perspectives might produce accounts of historical events that differ from what we know happened. Students work collaboratively to reconcile different author's points of view and discuss why these differences occur.
- The Accelerated classes will continue to conduct independent research projects, written as Problem-Based Learning Units: The Genius Hour and Be A Changemaker. These units were introduced at beginning of the year and continue as ongoing projects.
- This unit ends with an argumentative essay in response to the essential question. After completing this unit, students will transfer to real life how to generate argumentative topics, state, and support claims, develop counterarguments, and provide conclusions that support arguments.

- The Pearson textbook highlights areas where ELL students may have difficulty understanding. All stories have these areas color coded in green.

- A specific example for "Nothing But The Truth" would be breaking students up into smaller groups to re-read sections of the story to review point of view. For example, when Philip refuses to admit whether he was singing or humming. Allow students to debate this and why his classmates do not corroborate his story.

- teaching key aspects of a topic. Eliminate nonessential information
- using videos, illustrations, pictures, and drawings to explain or clarify
- allowing products (projects, timelines, demonstrations, models, drawings, dioramas, poster boards, charts, graphs, slide shows, videos, etc.) to demonstrate student's learning;
- allowing students to correct errors (looking for understanding)
- allowing the use of note cards or open-book during testing
- decreasing the amount of work presented or required

Statement of Objective: In their heterogeneous groups, students will argue persuasively using evidence to build a case for or against Queenie Smith for an in-class trial. They will also organize evidence into a logical sequence to lead their audience to the desired conclusion and vocalize what a piece of evidence proves and how it helps them establish their argument. Success will present their case in a debate using at least 4 pieces of evidence provided and explain their validity.

Anticipatory Set/Do Now: Point of View:

This story is told in third person point-of-view. Do you think the reader would be swayed if the story were told from another point-of-view? For example, Queenie's? Would the reader be more sympathetic to her words and thoughts? Or, what if it were told from Arthur's point-of-view?

Imagine you either Queenie or Arthur and you are re-telling this story in first person point-of-view. What other things would you say and indicate to the reader to convince them and give evidence as to why you could be innocent (Queenie) or you were the ultimate victim (Arthur)? Write your thoughts.
