Principles & Elements of Design

Belleville Board of Education

102 Passaic Avenue

Belleville, NJ 07109

Prepared by: Teacher - Joanne de Florio

Dr. Richard Tomko, Ph.D., M.J., Superintendent of Schools

Ms. LucyAnn Demikoff, Director of Curriculum and Instruction K-12

Ms. Nicole Shanklin, Director of Elementary Education K-8, ESL Coordinator K-12

Mr. George Droste, Director of Secondary Education

Board Approved: September 23, 2019

Art educators are responsible for creating effective and creative lessons designed to accommodate all learning levels for all students in our district while also addressing the Core Curriculum Standards for the State of New Jersey. Interdisciplinary connections are achieved and noted where applicable. Art history and cultural connections are included in this curriculum. New Jersey Core Curriculum Standards are also included and noted in each unit.

Areas of content include the Elements of Art: color, value, shape, form, space, line, and texture. Another main focus is made on the Principles of Design, which are: balance, unity, directional movement, focal point, variety, rhythm, proportion and emphasis. There are many basic concepts that underlie the field of design. They are often categorized differently depending on philosophy or teaching methodology. Other variations may include: dominance, harmony, contrast, repetition, gradation, and functionality. The principles can also be broken down into more specifics such as: symmetrical and asymmetrical; similarity, proximity and alignment; positive and negative space; rule of thirds; visual center; typography; closure; continuance; contrast or opposition - the list goes on...

The purpose of this curriculum is to present a sequential plan in the area of Fine Arts Lessons. This visual based curriculum includes lessons in creating, exploring, and critiquing, as well as historical and cultural aspects of the artistic eras. Each lesson is designed to allow students to use learned methods and skills, explore new mediums, embrace their personal creativity and self expression, research art history, participate in critiques, and help students find their soul connection to their art work and teach them to believe in themselves and all their mind and individual creativity has to offer.

This curriculum should be revised as specified to meet the standards and provide optimal educational opportunities. Modifications or adaptations can be utilized to promote differentiated learning for all students. This visual arts curriculum accommodates and empowers a multitude of learning styles and abilities. The sequential format of skill-building lessons will provide the basis for continuity, understanding and accomplishment in the area of visual arts.

Unit Overview

Unit 1 - Principles and Elements of Design

1. Artists employ principles and elements of design in creating all artwork.
2. Explore Elements of Art: Line, Texture, Shape, Value, Color, Form, and Space.
3. Explore Principles of Design: Balance, Pattern, Rhythm, Movement, Contrast, Harmony, and Unity.
4. Learn how people have responded to and communicated their experiences through art.
5. Welcome students into the global art world as active participants, engaging with its forms and content as they research, discuss, read, write, and create art, and interpretations of art.
6. Discover the diversity in and connections among forms of artistic expression throughout history and from around the globe.

Enduring Understanding

Enduring understandings:

1. Art requires skills to turn ideas into a product.
2. Elements and principles of design are the language of art.
3. Elements and principles of design are universal in nature.
4. Elements and principles of design help organize ideas and expression.
5. The clarity of a work of art and its ability to communicate can be affected by the manner in which it is shown.

6. Art is present in our daily surroundings.
7. Art helps to bridge the gaps in such areas of learning as Math, History, Science, Technology.
8. Art History reading enhances historical facts.

Essential Questions

Essential Questions:

1. What is art and how is it made?
2. How does art communicate a concept?
3. Why and how does art change?
4. How do we describe our thinking of art?
5. What are elements of art and principles of design, and how do we use them?
6. What is beauty?
7. How does an artwork evolve from concept to product?
8. What role does planning and spontaneity play in art?
9. How does the presentation of an artwork affect its significance and meaning?
10. What is personal style?
11. How does group critique stimulate ongoing thinking?
12. How does art raise questions across subject-area boundaries?
13. How will knowledge of art and architectural styles and movements enhance future experiences and thinking?
14. What other subject areas are necessary for creating a work of art?

Exit Skills

By the end of Unit 1:

1. All students will demonstrate an understanding of art by:
 - Communicating knowledge of artists, media, and techniques.
 - Recognizing that art requires skills to turn ideas into a product.
 - Identifying that the elements and principles of design are the language of art.
 - Identifying that the elements and principles of design are universal in nature.
 - Identifying that the elements and principles of art help organize ideas and expression.

- Select the manner in which to show a work of art to communicate its purpose.
2. All students will comprehend complex literary and informational texts independently and proficiently.
3. All students will understand the role, development, and influence of art throughout history and across cultures by:
- Demonstrating an understanding of the elements and principles that govern the creation of works of visual art.
 - Understanding the role, development, and influence of the arts throughout history and across cultures.
 - Synthesizing those skills, media, methods, and technologies appropriate to creating visual art.
 - Manipulating materials and ideas to create an aesthetic object.
 - Recognizing that art making is shaped by tradition and change.
4. All students will recognize the unique qualities of art through:
- Elements and Principles of Design
 - Communicative Characteristics
 - Recognize types of line
 - Identifies ratios and proportions
 - Identifies mediums
 - Create illusion
 - Recognize art in daily life

New Jersey Student Learning Standards (NJSLS)

VPA.1.1.12.D.1	Distinguish innovative applications of the elements of art and principles of design in visual artworks from diverse cultural perspectives and identify specific cross-cultural themes.
VPA.1.3.12.D.1	Synthesize the elements of art and principles of design in an original portfolio of two- and three-dimensional artworks that reflects personal style and a high degree of technical proficiency and expressivity.
VPA.1.3.12.D.2	Produce an original body of artwork in one or more art mediums that demonstrates mastery of visual literacy, methods, techniques, and cultural understanding.
VPA.1.3.12.D.CS1	How individuals manipulate the elements of art and principles of design results in original portfolios that reflect choice and personal stylistic nuance.

VPA.1.3.12.D.CS2	Culturally and historically diverse art media, art mediums, techniques, and styles impact originality and interpretation of the artistic statement.
VPA.1.4.12.A.CS2	Contextual clues within artworks often reveal artistic intent, enabling the viewer to hypothesize the artist's concept.
VPA.1.4.12.B.1	Formulate criteria for arts evaluation using the principles of positive critique and observation of the elements of art and principles of design, and use the criteria to evaluate works of dance, music, theatre, visual, and multimedia artwork from diverse cultural contexts and historical eras.

Interdisciplinary Connections

Math: Proportions and ratios

Parallel, diagonal, horizontal, vertical lines

Geometry: Form equals volume and mass.

World History:

Global studies.

World Language:

Big ideas, words, phrases, themes.

21st Century Life Skills:

Creative, critical thinking, collaborative problems solving.

LA.K-12.NJSLSA.R2	Determine central ideas or themes of a text and analyze their development; summarize the key supporting details and ideas.
LA.K-12.NJSLSA.R3	Analyze how and why individuals, events, and ideas develop and interact over the course of a text.
MA.A-SSE.B.3	Choose and produce an equivalent form of an expression to reveal and explain properties of the quantity represented by the expression.
MA.G-MG.A.1	Use geometric shapes, their measures, and their properties to describe objects (e.g., modeling a tree trunk or a human torso as a cylinder).
MA.G-MG.A.2	Apply concepts of density based on area and volume in modeling situations (e.g., persons per square mile, BTUs per cubic foot).
SOC.6.1.12.C.16.a	Evaluate the economic, political, and social impact of new and emerging technologies on individuals and nations.
SOC.6.1.12.C.16.b	Predict the impact of technology on the global workforce and on entrepreneurship.
SOC.6.1.12.D.16.a	Analyze the impact of American culture on other world cultures from multiple perspectives.

SOC.6.1.12.D.16.b

Explain how and why technology is transforming access to education and educational practices worldwide.

SOC.9-12.1.2.1

Construct various forms of geographic representations to show the spatial patterns of physical and human phenomena.

Learning Objectives

1. Identify artwork that communicates personal opinions, thoughts, and ideas that emphasize the elements of art including line, texture, shape, value, color, form, and space.
2. Identify artwork that communicates personal opinions, thoughts, and ideas that emphasize the principles of design including balance, pattern, rhythm, movement, contrast, harmony, and unity.
3. Identify, plan, and provide solutions to design problems.
4. Analyze and evaluate how various artists and cultural resources influence our creative ability.
5. Combine differentiated components of form, function, content and/or context of a work of art.
6. Create original works of art using elements and principles of art.
7. Compare and contrast innovative applications of line as an element of art.
8. Differentiate between objective and subjective thoughts.
9. Analyze ground-breaking uses of space in traditional and new mediums and experiment with new approaches to portraying positive and negative space in art installation or new media artwork.
10. Interrelate proper use of vocabulary verbally and in written form.
11. Recognize and describe works of art in terms of the use of the design principles and in written materials.
12. Assess and evaluate the cross-reference with Math.

Differentiation

- - Students will have the same subject matter but will have different outcomes.
 - Progress will be the same but the product will be different.
 - Guided instruction, direct instruction, group instruction.
 - Assist students with IEP & 504 guidelines.
 - Study guides, group and peer instruction, extended time/ test time, oral testing
 - Small group instruction
 - Small group assignments
 - Extra time to complete assignments
 - Pairing oral instruction with visuals
 - Repeat directions
 - Scheduled breaks
 - Rephrase written directions
- Alternative formative and summative assessment
- Leveled rubrics
- Project-based learning

- Exploration by interest
- Open-ended activities

Special Education Learning (IEP's & 504's)

- additional time for skill mastery
 - preview of content, concepts, and vocabulary
 - behavior management plan
 - have student repeat directions to check for understanding
 - teacher initiated weekly assignment sheet
 - assistive technology
 - check work frequently for understanding
 - secure attention before giving instruction/directions
 - multi-sensory presentation
 - preferential seating
 - Reduced/shortened written assignments
 - printed copy of board work/notes provided
 - peer tutoring
 - testing with counselor

Talented and Gifted Learning (T&G)

- Create a blog or social media page about their unit
 - Debate issues with research to support arguments
 - Complete activities aligned with above grade level text using Benchmark results
 - Advanced problem-solving
 - Above grade level placement option for qualified students
 - Higher order, critical & creative thinking skills, and discovery
 - Flexible skill grouping within a class or across grade level for rigor
 - Teacher-selected instructional strategies that are focused to provide challenge, engagement, and growth opportunities
 - Multi-disciplinary unit and/or project
 - Allow students to work at a faster pace
 - Communicating with parent/guardian regarding after school classes
 - Communicating with parent/guardian regarding college opportunities
 - Offering after school art experiences
