**Prepared by:** Teacher - Joanne de Florio

Dr. Richard Tomko, Ph.D., M.J., Superintendent of Schools

Ms. LucyAnn Demikoff, Director of Curriculum and Instruction K-12

Ms. Nicole Shanklin, Director of Elementary Education K-8, ESL Coordinator K-12

Mr. George Droste, Director of Secondary Education

Board Approved: September 23, 2019

Art educators are responsible for creating effective and creative lessons designed to accommodate all learning levels for all students in our district while also addressing the Core Curriculum Standards for the State of New Jersey. Interdisciplinary connections are achieved and noted where applicable. Art history and cultural connections are included in this curriculum. New Jersey Core Curriculum Standards are also included and noted in each unit.

Areas of content include the Elements of Art: color, value, shape, form, space, line, and texture. Another main focus is made on the Principles of Design, which are: balance, unity, directional movement, focal point, variety, rhythm, proportion and emphasis. There are many basic concepts that underlie the field of design. They are often categorized differently depending on philosophy or teaching methodology. Other variations may include: dominance, harmony, contrast, repetition, gradation, and functionality. The principles can also be broken down into more specifics such as: symmetrical and asymmetrical; similarity, proximity and alignment; positive and negative space; rule of thirds; visual center; typography; closure; continuance; contrast or opposition - the list goes on...

The purpose of this curriculum is to present a sequential plan in the area of Fine Arts Lessons. This visual based curriculum includes lessons in creating, exploring, and critiquing, as well as historical and cultural aspects of the artistic eras. Each lesson is designed to allow students to use learned methods and skills, explore new mediums, embrace their personal creativity and self expression, research art history, participate in critiques, and help students find their soul connection to their art work and teach them to believe in themselves and all their mind and individual creativity has to offer.

This curriculum should be revised as specified to meet the standards and provide optimal educational opportunities. Modifications or adaptations can be utilized to promote differentiated learning for all students. This visual arts curriculum accommodates and empowers a multitude of learning styles and abilities. The sequential format of skill-building lessons will provide the basis for continuity, understanding and

accomplishment in the area of visual arts.

## **Unit Overview**

---

### **Unit 1 - Printmaking**

1. Discover the diversity in and connections among forms of artistic expression throughout history and from around the globe.
2. Learn about how people have responded to and communicated their experiences through art making by exploring art in its historic and cultural contexts.
3. Welcome students into the global art world as active participants, engaging with its forms and content as they research, discuss, read, write, and create art, and interpretations of art.
4. Explore printmaking with the development of deep conceptual understandings and skills.

## **Enduring Understanding**

---

1. Originality, technical skills, and understanding of printmaking materials.
2. Originality, technical skills, and understanding of various printmaking techniques.

3. Demonstrate the ability to plan and provide organized and designed works of art.
4. Method of transferring ink from a matrix to a sheet of paper or other material.
5. How prints of an edition vary to an extent due to variables intrinsic to the printmaking process.
6. Proper use and maintenance of the printing press.
7. Evaluate and interpret works of art using proper vocabulary, orally, and in writing.
8. Art communicates personal and impersonal information on many levels.
9. Careers in art, commercial illustration and design.

## **Essential Questions**

---

- 1 What is art and how is it made?
2. Why and how does art change?
3. How do we describe our thinking of art?
4. What are elements of art and principles of design, and how do we use them?
5. What is printmaking?
6. What composition lends itself to printmaking?

7. How do the techniques and materials vary between, intaglio, block, and mono printing?
8. Why does printmaking normally cover only the process of creating prints with an element of originality, rather than being a photographic reproduction of a painting?
9. What is personal style?
10. How do I show my growing knowledge of visual art?

## **Exit Skills**

---

By the end of Unit 1:

1. All students will demonstrate an understanding of printmaking by:
  - Creating original works of art using the techniques of printmaking.
  - Recognize and describe works of art in terms of the use of the techniques and in written material.
  - Critique and synthesize the works of art of peers and predecessors.
2. All students will comprehend complex literary and informational texts independently and proficiently.
3. All students will understand the role, development, and influence of art throughout history and across cultures.
  - Demonstrate an understanding of the elements and principles that govern the creation of works of visual art.
  - Understand the role, development, and influence of the arts throughout history and across cultures.
  - Synthesize those skills, media, methods, and technologies appropriate to creating visual art.
  - Manipulate materials and ideas to create an aesthetic object.
  - Art making is shaped by tradition and change.
  - Interpretations of art are variable.

4. All students will recognize the unique qualities of printmaking.

## **New Jersey Student Learning Standards (NJSLS)**

---

VPA.1.1.12.D.1	Distinguish innovative applications of the elements of art and principles of design in visual artworks from diverse cultural perspectives and identify specific cross-cultural themes.
VPA.1.1.12.D.2	Translate literary, musical, theatrical, and dance compositions by using them as stimulus/inspiration for corresponding visual artworks.
VPA.1.1.12.D.CS2	Stimuli for the creation of artworks can come from many places, including other arts disciplines.
VPA.1.2.12.A.CS1	Cultural and historical events impact art-making as well as how audiences respond to works of art.
VPA.1.2.12.A.CS2	Access to the arts has a positive influence on the quality of an individual's lifelong learning, personal expression, and contributions to community and global citizenship.
VPA.1.3.12.D.1	Synthesize the elements of art and principles of design in an original portfolio of two- and three-dimensional artworks that reflects personal style and a high degree of technical proficiency and expressivity.
VPA.1.3.12.D.CS1	How individuals manipulate the elements of art and principles of design results in original portfolios that reflect choice and personal stylistic nuance.
VPA.1.3.12.D.CS2	Culturally and historically diverse art media, art mediums, techniques, and styles impact originality and interpretation of the artistic statement.
VPA.1.3.12.D.CS3	The artist's understanding of the relationships among art media, methodology, and visual statement allows the artist to use expressionism, abstractionism (nonobjective art), realism/naturalism, impressionism, and other genre styles to convey ideas to an audience.

## Learning Objectives

---

1. Define artwork that communicates personal opinions, thoughts, and ideas that emphasize the elements of design organized using the principles of design.
2. Define, plan, and provide solutions to design problems.

3. Differentiate how various artists and cultural resources influence printmaking.
4. Identify differentiated components of form, function, content and/or context of a work of art.
5. Create original works of art using elements and principles of art.
6. Compare and contrast innovative applications of line as an element of art.
7. Define the concepts of Monotype, Drypoint Intaglio, and Relief Printing.
8. Define the process of making artworks by etching into a matrix.
9. Recognize the concept of printing from an individual surface or matrix.
10. Understand the concept that a single print can be the product of one or multiple techniques.
11. Recognize the famous artists who employed these techniques.
12. Create original works of art using elements and principles of art.
13. Compare and contrast innovative applications of line as an element of art.
14. Differentiate between objective and subjective thoughts.
15. Examine ground-breaking uses of space in traditional and new mediums and experiment with new approaches to portraying positive and negative space in art installation or new media artwork.
16. Incorporate proper use of vocabulary throughout the printing process.

## Differentiation

---

- - Students will have the same subject matter but will have different outcomes.
  - Progress will be the same but the product will be different.
  - Guided instruction, direct instruction, group instruction.
  - Assist students with IEP & 504 guidelines.
  - Study guides, group and peer instruction, extended time/ test time, oral testing
  - Small group instruction
  - Small group assignments
  - Extra time to complete assignments
  - Pairing oral instruction with visuals
  - Repeat directions
  - Scheduled breaks
  - Rephrase written directions
- Alternative formative and summative assessment
- Leveled rubrics
- Project-based learning
- Exploration by interest
- Open-ended activities

## **Special Education Learning (IEP's & 504's)**

---

- additional time for skill mastery
- preview of content, concepts, and vocabulary
- behavior management plan
- have student repeat directions to check for understanding
- teacher initiated weekly assignment sheet
- assistive technology
- check work frequently for understanding
- secure attention before giving instruction/directions
- multi-sensory presentation
- preferential seating
- Reduced/shortened written assignments
- printed copy of board work/notes provided
- peer tutoring
- testing with counselor

## **English Language Learning (ELL)**

---

- using videos, illustrations, pictures, and drawings to explain or clarify
- teaching key aspects of a topic. Eliminate nonessential information
- having peers take notes or providing a copy of the teacher's notes
- providing study guides
- allowing students to correct errors (looking for understanding)
- reducing or omitting lengthy outside reading assignments
- allowing products (projects, timelines, demonstrations, models, drawings, dioramas, poster boards, charts, graphs, slide shows, videos, etc.) to demonstrate student's learning;
- provide an interpreter

## **Talented and Gifted Learning (T&G)**

---

- Create a blog or social media page about their unit

- Debate issues with research to support arguments
- Complete activities aligned with above grade level text using Benchmark results
- Advanced problem-solving
- Above grade level placement option for qualified students
- Higher order, critical & creative thinking skills, and discovery
- Flexible skill grouping within a class or across grade level for rigor
- Teacher-selected instructional strategies that are focused to provide challenge, engagement, and growth opportunities
- Multi-disciplinary unit and/or project
- Allow students to work at a faster pace
- Communicating with parent/guardian regarding after school printmaking classes
- Communicating with parent/guardian regarding college opportunities
- Offer after school printmaking art experiences in district

- Above grade level placement option for qualified students
