- Music theory systems are dynamic and changing
- Music theory is rooted in Ancient Greek and Roman ideals of beauty
- There are many music theory systems and the theory explored in this course originated in Western Europe
- Combinations and manipulation of musical elements makes a piece of music more or less successful. Knowing theory doesn't guarantee a "good" piece of music.

- Critique is an essential process to music making
- The elements of music contribute to music's aesthetic and expressive nature
- Music is its own language with its own structure and syntax

### **Essential Questions**
