Suggested Activities & Best Practices

Example: Students should be given assessment options for The Tragedy of Romeo and Juliet such as: a written assignment, creating a comic book based on the play, or a presentation underscoring the theme.

Student Centered Learning: Students should either have already selected groups or groups of their choosing and we ready to jigsaw or answer higher order thinking discussion questions related to the theme or topic of the piece of literature being discussed.

Use of Rubrics: After discussing an assignment, allow students to create what they believe to be a fair rubric for assessing the assignment. This allows the students to have a say in how they will be graded as well as accountability for the assignment.

Starting classes with a "Do Now" activity: Using a connection to life question that relates to the piece of literature will make the students be able to connect to the text and jump start to discussion.

Allowing students to choose their own projects: Having a variety of projects that the students can choose from helps address all learning types. This will allow the students to choose the project they feel they can be most successful in completing.

Brainstorming: This helps in the writing process because it will allow the student to know if they are grasping the topic

Writing Process: Having students be involved in the writer's workshop process of writing

Assessment Evidence - Checking for Understanding (CFU)

Example: The students will take a multiple choice, true/false, and open ended test after each act of The Tragedy of Romeo and Juliet. (summative assessment)
