## Suggested Activities & Best Practices

Example: Begin the class with a "Do Now" asking the essential question, "How can words inspire change?"

**Student Centered Learning:** Students should either have already selected groups or groups of their choosing and we ready to jigsaw or answer higher order thinking discussion questions related to the theme or topic of the piece of literature being discussed.

**Use of Rubrics:** After discussing an assignment, allow students to create what they believe to be a fair rubric for assessing the assignment. This allows the students to have a say in how they will be graded as well as accountability for the assignment.

**Starting classes with a "Do Now" activity:** Using a connection to life question that relates to the piece of literature will make the students be able to connect to the text and jump start to discussion.

**Allowing students to choose their own projects:** Having a variety of projects that the students can choose from helps address all learning types. This will allow the students to choose the project they feel they can be most successful in completing.

**Brainstorming:** This helps in the writing process because it will allow the student to know if they are grasping the topic

**Writing Process:** Having students be involved in the writer's workshop process of writing

### **Assessment Evidence - Checking for Understanding (CFU)**

---

Example: After reading "Letter from Birmingham Jail", students should get into groups and create questions for the other groups based off of the reading. They all exchange the questions and answer all of the groups' questions. - formative assessment
