Unit Overview

Students will read a varity of literature, non-fiction, poems, and essays regarding education and the educational system. Readings will have different views (inner city, suburbia) and different time periods of education and how those individuals have succeeded (or not) once their "education" has ended. Students will also view and analyze one of the films: "Freedom Writers", "Stand and Deliever", "Dangerous Minds", and "Lean on Me".

Enduring Understanding

Our school systems only teach the beginnings of education and may be failing our students at an alarming rate. However, many students succeed and become well rounded individuals post high school because of the skills learned during their formative years.

Essential Questions

What is "true education" and to what extent do our schools serve the goals of a "true education"?

Suggested Activities & Best Practices

- Each student will answer the units essential question(s) via Blogger on the class website before the unit begins. After the unit is completed-students will comment on their peer's post referencing material discussed during the unit. This will promote student interaction outside of the classroom as well as assist student's participation skills in the 21st century.
- Each student will research and present a variety of MLA rules and citation to the class thus prompting small group work as well and interacting and learning from their peers on a skill that will be needed for the rest of the year.
