Suggested Activities & Best Practices

Unit 2, Week 1

- Make a chart of classroom tools - invite children to look around the classroom for tools they use every day to help them in school. Guide them to describe the tools they see and how they help using the sentences frames and questions they learned earlier.
- Have children draw themselves holding a tool that they use. Depending on children's proficiency levels, guide them to add labels, captions, or sentences, using the words and frames they have been learning. Allow children to dictate or write their ideas as needed.

Unit 2, Week 2

- Explain that objects with different shapes can move in different ways. Make a list of different shapes that can be seen on a bus. Talk about the way in which the objects (shapes) move and why they move that way.
- Have children draw four objects, one for each shape. Have them dictate labels, captions, or sentences about each object's shape, using the words and frames they have been learning.
- Color the room - students will look around the room to find certain shapes and once they find the shape, color the worksheet.

Unit 2, Week 3

- Invite children to suggest the names of other bugs and how they move. Talk about other bugs they have seen, where they have seen them, and how the bugs move. Make a three-column chart, and include the bugs in the picture to help children get started.
- Have children work with partners to create their own versions of the song, "Eensy Weensey Spider" with a bug and gestures of their own. Then invite them to perform their version for the group. Provide language frames for partners to introduce their work.
