## Suggested Activities & Best Practices

---

### Unit 4, Week 1

- Have children draw themselves doing a job they might enjoy, using tools needed to do the job. Assist them to add labels for the tool as needed.
- Guide small groups to talk about the tools they have learned about that make it easier for a doctor, a baker, and a builder to do their jobs. Provide language frames for children to use to sum up their discussion.

### Unit 4, Week 2

- Have children draw themselves showing how they have been a good neighbor. Have them dictate labels, captions, or sentences for you to write, using the words and frames they have been learning. Then have children share their drawings with a partner. As time permits, have the partners rotate, sharing their ideas. Afterwards, ask children how many of them learned from a partner a new way they could help a neighbor.
- Guide small groups to talk about why being a good neighbor is important. Provide language frame for children to use to sum up their discussion.

### Unit 4, Week 3

- Have children work with partners to create their own song about working in the community, for example, cleaning up a park or donating toys. Suggest they make up some hand gestures to go with their song. Then invite them to perform their version for the group. Provide support as children create their songs and language frames for partners to introduce their work.

- Have children draw one or more pictures for their original songs. Depending on childrens' proficiency levels, guide them to add labels, captions, or complete sentences to their drawings, using the words and frames they have been learning. Provide support as needed, and allow children to dictate their ideas as necessary.
