Suggested Activities & Best Practices

Student Centered Learning: Students should either have already selected groups or groups of their choosing and be ready to answer higher order thinking discussion questions related to the theme or topic of the piece of literature being discussed.

Use of Rubrics: After discussing an assignment, allow students to create what they believe to be a fair rubric for assessing the assignment. This allows the students to have a say in how they will be graded as well as accountability for the assignment.

Allowing students to choose their own projects: Having a variety of projects that the students can choose from helps address all learning types. This will allow the students to choose the project they feel they can be

most successful in completing.

Brainstorming: This helps in the writing process because it will allow the student to know if they are grasping the topic.

Google Translate: Students should be allowed to utilize Google translate when unfamiliar with terms, expressions and unfamiliar vocabulary.
