Domestic and military policies during World War II continued to deny equal rights to African Americans, Asian Americans, and women.
SOC.6.2.12.CS4	A Half-Century of Crisis and Achievement: The Era of the Great Wars: Nationalism, imperialism, industrialization, and militarism contributed to an increase in economic and military competition among European nations, the Ottoman Empire, and Japan, and led to World War I. The failure of the Treaty of Versailles, the impact of the global depression, and the expansionist policies and actions of Axis nations are viewed as major factors that resulted in World War II. World Wars I and II were "total wars" in which nations mobilized entire populations and economies and employed new military tactics that resulted in unprecedented death and destruction, as well as drastic changes in political boundaries. World Wars I and II challenged economic and political power structures and gave rise to a new balance of power in the world. Economic, technological, and military power and bureaucracies have been used by nations to deliberately and systematically destroy ethnic/racial, political, and cultural groups.

## **Suggested Activities & Best Practices**

What Do Best Practices Look Like? Classrooms that exemplify best practices are easy to detect as soon as you enter the room. • Project materials and books are numerous. • Students are engaged and focused on their work. • Teachers often use collaborative and/or authentic tasks that place students at the center of the learning process. • Seating arrangements are clustered, varied and functional with multiinstructional areas. • Classrooms are activity-based spaces as opposed to places to “sit and get” lectures. • Teachers are actively engaged with different groups and students are anxious to enlist visitors in their various tasks or assignments. • There is a joyful feeling of purposeful movement, industrious thinking and a vital and vibrant atmosphere and environment.

### 1. Engage with History

Imagine that you are a journalist in 1955, working for a major magazine that is preparing an issue focusing on the ten-year anniversary of the end of World War II. Write an article in which you look back at the changes

in American life brought about by involvement in the war. Discuss political and economic changes that resulted from the war as well as social changes that stemmed from issues on the home front.

## 2. Focus on Writing

Write an expository essay in which you explain the Holocaust as an instance of genocide. Include varying perspectives, such as those of victims, perpetrators, and observers.

## 3. Multimedia Activity

Conduct library or internet research to learn more about some of the actions the U.S. government took between World Wars I and II to preserve its isolationist policy. Then investigate the events that drew the country into World War II. Consider the perspectives of people on both sides of the debate. Use your findings to draw a political cartoon that supports or opposes the U.S. policy of neutrality at the beginning of World War II. Write a caption to accompany your cartoon.
